

that will be used for the activity. The final vessel information must be submitted ideally before the permit is issued, but definitely prior to commencement of operations pending approval from the NEPA staff.

(2) North American Submarine Cable Assoc. (NASCA)

Comment: NASCA urges BOEM to modify form BOEM-0327 to require permit applicants to identify and coordinate with submarine cables in the vicinity of any planned G&G activities.

Response: BOEM believes that “other uses” currently on the form would include submarine cable companies and that the current coordination processes with regard to submarine cables are working well in mature areas such as the Gulf of Mexico and should work just as well in the other Regions. In recognition of the concerns expressed in the NASCA comments, we have acknowledged such other uses by adding the words “including submarine cables” in form BOEM-0327 (under General Requirements paragraph E). Furthermore, we will add “Submarine Cable Coordination” to the list of Stipulations we attach to every permit. The NASCA would need to provide points of contact, etc., for the permittee. The matter would then be dealt with between the permittee and the submarine cable company.
