

merits of various employees and their respective work. Such personnel matters involve the discussion of information that is of a personal nature, the disclosure of which would be a clearly unwarranted invasion of personal privacy and, therefore, is protected from disclosure by section (c)(6) of the Government in the Sunshine Act, 5 U.S.C. 552b(c)(6). Minutes of the Chartered SAB teleconference will be certified by the chair and retained in the public record.

Dated: December 11, 2014.

Gina McCarthy,
Administrator.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1200]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communication Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number.

No person shall be subject to any penalty for failing to comply with a

collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before February 17, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1200.

Title: Rural Broadband Experiments and Post-Selection Review of Rural Broadband Experiment Winning Bidders.

Form Number: FCC Form 5610 and FCC Form 5620.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, and not-for-profit institutions.

Number of Respondents: 500 respondents; 520 responses.

Estimated Time per Response: 5-10 hours.

Frequency of Response: One-time and occasional reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151-154 and 254.

Total Annual Burden: 2,700 hours.

Total Annual Cost: No cost(s).

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Information collected in FCC Form 5610 will be confidential until provisionally selected bidders are announced. At that time, the proposals submitted by provisionally selected bidders will be made publicly available. All other proposals submitted will remain confidential. Information collected in FCC Form 5620 will be confidential.

Needs and Uses: Under this information collection, the Commission proposes to collect information to determine applicants that will be selected to participate in the rural broadband experiments and whether provisionally selected bidders are technically and financially capable of receiving funding for rural broadband experiment projects. To aid in collecting this information regarding the rural broadband experiments, the Commission has created FCC Form 5610

and FCC Form 5620, which applicants will use to apply to participate in the rural broadband experiments. These forms will be available electronically through the Internet and electronic filing will be required. This information will be used to determine which applicants submit the most-cost effective proposals in each funding category and whether provisionally selected bidders have the technical and financial qualifications to successfully complete the proposed project within the required timeframes. The Communications Act of 1934, as amended requires the "preservation and advancement of universal service."

The information collection requirements reported under this collection are the result of various Commission actions to promote the Act's universal service goals, while minimizing waste, fraud, and abuse.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of the Managing Director.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0768, 3060-1013 and 3060-1108]

Information Collections Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated

collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before January 20, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via email Nicholas_A.Fraser@omb.eop.gov; and to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** section below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418-2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the OMB control number of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0768.

Title: 28 GHz Band Segmentation Plan Amending the Commission's Rules to Redesignate the 27.5-29.5 GHz Frequency Band, to Reallocate the 29.5 to 30.0 GHz Frequency Band and to Establish Rules and Policies.

Form No.: None.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents/Responses: 17 respondents; 17 responses.

Estimated Time per Response: 2 hours.

Frequency of Response: On occasion reporting requirement; third-party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 47 U.S.C. 154 and 303.

Total Annual Burden: 34 hours.

Annual Cost Burden: \$4,950.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: The Federal Communications Commission ("Commission") is requesting a revision of the information collection titled, "28 GHz Band" under OMB Control No. 3060-0768 from the Office of Management and Budget (OMB).

The purpose of the revision is to remove the information collection requirements that are contained under 47 CFR Sections 25.203, 25.250, 25.257 and 25.258 from OMB Control No. 3060-0768 because they were consolidated under OMB Control No. 3060-0678. The consolidation was approved by OMB on August 15, 2014.

The information collection requirements which remain in this collection require are as follows: (1) Local Multipoint Distribution Systems (LMDS) licensees to serve copies of their applications on all Non-Geostationary Mobile Satellite Service (NGSO/MSS) applicants (Section 101.147) and (2) NGSO/MSS feeder link earth stations must specify a set of geographic coordinates for location of these earth stations, 15 days after the release of a public notice announcing commencement of LMDS auctions (Section 101.147).

The information is used by the Commission and other applicants and/or licensees in the 28 GHz band to facilitate technical coordination of systems among applicants and/or licensees in the 28 GHz band. Without such information, the Commission could not implement the Commission's band plan.

Affected applicants and licensees are required to provide the requested information to the Commission and other third parties whenever they seek authority to provide service in the 28 GHz band. The frequency of filing is, in general, determined by the applicant or licensees. If this information is compiled less frequently or not filed in conjunction with our rules, applicants

and licensees will not obtain the authorization necessary to provide telecommunications services. Furthermore, the Commission would not be able to carry out its mandate as required by statute and applicants and licensees would not be able to provide service effectively.

OMB Control No.: 3060-1013.

Title: Mitigation of Orbital Debris.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 10 respondents; 10 responses.

Estimated Time per Response: 3 hours.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 301, 303, 308, 309 and 310.

Total Annual Burden: 30 hours.

Annual Cost Burden: \$19,250.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as a revision after this 60-day comment period has ended in order to obtain the full three-year clearance from OMB.

The purpose of the revision is to remove the information collection requirements that are Section 47 CFR 25.114 from OMB Control No. 3060-1013 since they were consolidated in 3060-0678. OMB approved the consolidation on August 15, 2014.

Orbital debris consists of artificial objects orbiting the Earth that are not functional spacecraft. It consists of a wide range of non-functioning man-made objects that have been placed in the Earth's orbit, both accidentally and on purpose. Orbital debris consists of small objects such as paint flakes, discarded lens caps, ejected bolts and pieces of debris from exploded spacecraft and rocket bodies. Since human activity in space began, there has been a steady growth in the number and total mass of orbital debris. Once created, debris remains in orbit indefinitely, absent other forces. Growth in the orbital debris population may limit the usefulness of space for communications and other uses in the future by raising the costs and lowering the reliability of space based systems. Furthermore, the effects of collisions

involving orbital debris can be catastrophic and may cause significant damage to functional spacecraft or to persons or property on the surface of the Earth, if the debris re-enters the Earth's atmosphere in an uncontrolled manner.

The information collection requirements accounted for in this collection are necessary to mitigate the potential harmful effects of orbital debris accumulation. Without such information collection requirements, the growth in the orbital debris population may limit the usefulness of space for communications and other uses in the future by raising the costs and lowering the reliability of experimental and amateur systems. Furthermore, the effects of collisions involving orbital debris can be catastrophic and may cause significant damage to functional spacecraft or to persons or property on the surface of the Earth, if the debris re-enters the Earth's atmosphere in an uncontrolled manner.

OMB Control No.: 3060–1108.

Title: Consummation of Assignments and Transfers of Control of Authorization.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 163 respondents; 163 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in Sections 47 U.S.C. 154(i).

Total Annual Burden: 163 hours.

Annual Cost Burden: \$48,900.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as a revision after this 60-day comment period has ended in order to obtain the full three-year clearance from OMB.

The purpose of the revision is to remove the information collection requirements that are contained in Section 47 CFR 25.119 from OMB Control No. 3060–1108. The information collection requirements were consolidated into collection 3060–0678. OMB approved the consolidation on August 15, 2014.

A consummation is a party's notification to the Commission that a

transaction (assignment or transfer of control of authorization) has been completed. A consummation is applicable to all international telecommunications and satellite services, such as International High Frequency (IHF), Section 214 Applications (ITC), and Submarine Cable Landing Licenses (SCL).

Without this collection of information, the Commission would not have critical information such as a change in a controlling interest in the ownership of the licensee. The Commission would not be able to carry out its duties under the Communications Act and to determine the qualifications of applicants to provide international telecommunications service, including applicants that are affiliated with foreign entities, and to determine whether and under what conditions the authorizations are in the public interest, convenience, and necessity. Furthermore, without this collection of information, the Commission would not be able to maintain effective oversight of U.S. providers of international telecommunications services that are affiliated with, or involved in certain co-marketing or similar arrangements with, foreign entities that have market power

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of the Managing Director.

FEDERAL COMMUNICATIONS COMMISSION

[PSHSB DA 14–1497]

The Public Safety and Homeland Security Bureau Seeks Comment on the Dismissal of Certain Proceedings as Dormant

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Public Safety and Homeland Security Bureau (PSHSB) seeks comment on whether certain long-pending petitions and requests identified in the Public Notice should be dismissed as dormant. PSHSB seeks to determine whether the long-term pending filings listed in the Attachment are candidates for dismissal because the items either have been abandoned, are no longer of interest to the filing party, or for which no further action is required or contemplated.

DATES: Comments are due thirty days after publication of this notice in the **Federal Register**. Reply comments are due forty-five days after publication of this notice in the **Federal Register**.

ADDRESSES: Interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using: (1) The Commission's Electronic Comment Filing System (ECFS); or (2) by filing paper copies. All filings should reference the docket number of this proceeding, PS Docket No. 14–1497.

FOR FURTHER INFORMATION CONTACT:

David Ward of the Public Safety and Homeland Security Bureau, at (202) 418–2336, *david.ward@fcc.gov*.
