

and Order, FCC 14–62, WT Docket Nos. 08–166 and 08–167 and ET Docket No. 10–24, “Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698–806 MHz Band.” This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: “large venue owner or operator” and “professional sound company.” To be eligible for a Part 74 license, a large venue owner or operator and a professional sound company must routinely use 50 or more low power auxiliary station devices, where the use of such devices is an integral part of major events or productions.

The Commission seeks OMB approval for a revision of this currently approved information collection to increase the number of respondents by 200 and the number of responses by 200 to reflect the estimated increase in licensed low power auxiliary station operators who will be subject to the requirement at section 74.832(j) to retain the station license in the licensee’s files or post it at the transmitter or control point of the stations.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the

quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before February 17, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–1155.

Title: Sections 15.713, 15.714, 15.715 and 15.717, TV White Space Broadcast Bands.

Form No.: Not Applicable.

Type of Review: Revision of an existing collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; Federal government; and state, local or tribal government.

Number of Respondents and

Responses: 2,000 respondents and 2,000 responses.

Estimated Time per Response: 2.0 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 154(1), 302, 303(c), 303(f), and 307.

Total Annual Burden: 4,000 hours.

Total Annual Cost: \$100,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting respondents to submit confidential information to the Commission.

Respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission’s rules.

Needs and Uses: On June 2, 2014, the Commission released a Second Report and Order, FCC 14–62, WT Docket Nos. 08–166 and 08–167 and ET Docket No. 10–24, “Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698–806 MHz Band.” This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: “large venue owner or operator” and “professional sound company.” The Commission is now requesting OMB approval for a revision of this information collection to increase by 200 the number of licensed low power auxiliary station operators who will be able to register in the database under 47 CFR 15.713(h)(8) to reflect the estimated of number of entities that will become eligible for a license under the Second Report and Order and which will register in the database. Because these newly-eligible licensees would likely have been able to register on an unlicensed basis under 47 CFR 15.713(h)(9) (and now will register as licensees instead), the Commission is also decreasing by 200 the number of unlicensed low power auxiliary station operators who will register in the database on an unlicensed basis under 47 CFR 15.713 (h)(9).

The Commission seeks Office of Management and Budget (OMB) approval for a revised information collection for an increase in the number of LPAS licensees that will register under 47 CFR 15.713(h)(8) and a decrease in the number of unlicensed wireless microphone users that will register on an unlicensed basis under 47 CFR 15.713(h)(9).

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before February 17, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the

information collection, contact Nicole Ongele at (202) 418–2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0512.

Title: ARMIS Annual Summary Report.

Report Number: FCC Report 43–01.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and

Responses: 53 respondents; 53 responses.

Estimated Time per Response: 88 hours for those that have not applied for conditional forbearance; 16 hours for those that have received conditional forbearance.

Frequency of Response: Annual reporting requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 219 and 220 of the Communications Act of 1934, as amended.

Total Annual Burden: 1,928 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

Ordinarily questions of a sensitive nature are not involved in the ARMIS Report 43–01. The Commission contends that areas in which detailed information is required are fully subject to regulation and the issue of data being regarded as sensitive will arise in special circumstances only. In such circumstances, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission’s rules.

Needs and Uses: The information contained in FCC Report 43–01 has helped the Commission fulfill its regulatory responsibilities. Automated reporting of these data greatly enhances the Commission’s ability to process and

analyze the extensive amounts of data provided in the reports. Automating and organizing data submitted to the Commission facilitate the timely and efficient analysis of revenue requirements, rates of return and price caps, and provide an improved basis for auditing and other oversight functions. Automated reporting also enhances the Commission’s ability to quantify the effects of policy proposals. The Commission has granted all carriers conditional forbearance from ARMIS 43–01. To obtain this forbearance, carriers must have a data retention compliance plan approved by the Commission and continue to file certain ARMIS 43–01 data related to pole attachments. Of the nine holding companies/affiliated carrier groups currently subject to ARMIS 43–01, four have requested and received conditional forbearance. The remaining five holding companies/affiliated carrier groups have not requested conditional forbearance, but we anticipate that they may do so in the future.
