

## B. Docket Content

1. *Review dockets.* The registration review dockets contain information that the Agency may consider in the course of the registration review. The Agency may include information from its files including, but not limited to, the following information:

- An overview of the registration review case status.
- A list of current product registrations and registrants.
- **Federal Register** notices regarding any pending registration actions.
- **Federal Register** notices regarding current or pending tolerances.
- Risk assessments.
- Bibliographies concerning current registrations.
- Summaries of incident data.
- Any other pertinent data or information.

Each docket contains a document summarizing what the Agency currently knows about the pesticide case and a preliminary work plan for anticipated data and assessment needs. Additional documents provide more detailed information. During this public comment period, the Agency is asking that interested persons identify any additional information they believe the Agency should consider during the registration reviews of these pesticides. The Agency identifies in each docket the areas where public comment is specifically requested, though comment in any area is welcome.

2. *Other related information.* More information on these cases, including the active ingredients for each case, may be located in the registration review schedule on the Agency's Web site at [http://www.epa.gov/oppsrrd1/registration\\_review/schedule.htm](http://www.epa.gov/oppsrrd1/registration_review/schedule.htm). Information on the Agency's registration review program and its implementing regulation may be seen at [http://www.epa.gov/oppsrrd1/registration\\_review](http://www.epa.gov/oppsrrd1/registration_review).

3. *Information submission requirements.* Anyone may submit data or information in response to this document. To be considered during a pesticide's registration review, the submitted data or information must meet the following requirements:

- To ensure that EPA will consider data or information submitted, interested persons must submit the data or information during the comment period. The Agency may, at its discretion, consider data or information submitted at a later date.
- The data or information submitted must be presented in a legible and useable form. For example, an English translation must accompany any

material that is not in English and a written transcript must accompany any information submitted as an audiographic or videographic record. Written material may be submitted in paper or electronic form.

- Submitters must clearly identify the source of any submitted data or information.
- Submitters may request the Agency to reconsider data or information that the Agency rejected in a previous review. However, submitters must explain why they believe the Agency should reconsider the data or information in the pesticide's registration review.

As provided in 40 CFR 155.58, the registration review docket for each pesticide case will remain publicly accessible through the duration of the registration review process; that is, until all actions required in the final decision on the registration review case have been completed.

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0633]

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of

information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before February 17, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

**SUPPLEMENTARY INFORMATION:**

*Respondents:* Business or other for-profit entities; Not-for-profit Institutions; Federal Government and State, local or tribal government.

*Number of Respondents and Responses:* 2,784 respondents and 2,784 responses.

*Estimated Time per Response:* 0.083 hours.

*Frequency of Response:* On occasion reporting requirement, recordkeeping requirement, and third party disclosure requirement.

*Obligation to Respond:* Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Section 154(i) of the Communications Act of 1934, as amended.

*Total Annual Burden:* 231 hours.

*Total Annual Cost:* \$24,860.

*Privacy Act Impact Assessment:* No impact(s)

*Nature and Extent of Confidentiality:* In general there is no need for confidentiality with this collection of information.

*Needs and Uses:* On June 2, 2014, the Commission released a Second Report

and Order, FCC 14–62, WT Docket Nos. 08–166 and 08–167 and ET Docket No. 10–24, “Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698–806 MHz Band.” This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: “large venue owner or operator” and “professional sound company.” To be eligible for a Part 74 license, a large venue owner or operator and a professional sound company must routinely use 50 or more low power auxiliary station devices, where the use of such devices is an integral part of major events or productions.

The Commission seeks OMB approval for a revision of this currently approved information collection to increase the number of respondents by 200 and the number of responses by 200 to reflect the estimated increase in licensed low power auxiliary station operators who will be subject to the requirement at section 74.832(j) to retain the station license in the licensee’s files or post it at the transmitter or control point of the stations.

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1155]

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the

quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before February 17, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*.

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

**SUPPLEMENTARY INFORMATION:**

*OMB Control No.:* 3060–1155.

*Title:* Sections 15.713, 15.714, 15.715 and 15.717, TV White Space Broadcast Bands.

*Form No.:* Not Applicable.

*Type of Review:* Revision of an existing collection.

*Respondents:* Business or other for-profit entities; not-for-profit institutions; Federal government; and state, local or tribal government.

*Number of Respondents and*

*Responses:* 2,000 respondents and 2,000 responses.

*Estimated Time per Response:* 2.0 hours.

*Frequency of Response:* On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

*Obligation to Respond:* Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 154(1), 302, 303(c), 303(f), and 307.

*Total Annual Burden:* 4,000 hours.

*Total Annual Cost:* \$100,000.

*Privacy Act Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* The Commission is not requesting respondents to submit confidential information to the Commission.

Respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission’s rules.

*Needs and Uses:* On June 2, 2014, the Commission released a Second Report and Order, FCC 14–62, WT Docket Nos. 08–166 and 08–167 and ET Docket No. 10–24, “Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698–806 MHz Band.” This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: “large venue owner or operator” and “professional sound company.” The Commission is now requesting OMB approval for a revision of this information collection to increase by 200 the number of licensed low power auxiliary station operators who will be able to register in the database under 47 CFR 15.713(h)(8) to reflect the estimated of number of entities that will become eligible for a license under the Second Report and Order and which will register in the database. Because these newly-eligible licensees would likely have been able to register on an unlicensed basis under 47 CFR 15.713(h)(9) (and now will register as licensees instead), the Commission is also decreasing by 200 the number of unlicensed low power auxiliary station operators who will register in the database on an unlicensed basis under 47 CFR 15.713 (h)(9).

The Commission seeks Office of Management and Budget (OMB) approval for a revised information collection for an increase in the number of LPAS licensees that will register under 47 CFR 15.713(h)(8) and a decrease in the number of unlicensed wireless microphone users that will register on an unlicensed basis under 47 CFR 15.713(h)(9).
