The revised Principles and Guidelines, now referenced as the Principles, Requirements and Guidelines (PR&G), consist of three key components: (1) The Principles and Requirements (formerly called Principles and Standards), setting out broad policy and principles that guide investments; (2) the Interagency Guidelines, providing guidance to Federal agencies for determining the applicability of the Principles and Guidelines and for developing agency

specific implementing procedures for formulating, evaluating, and comparing water resources projects, programs, activities and related actions; and (3) the Agency Specific Procedures, outlining agency-specific procedures for incorporating the Principles and Requirements into agency missions and programs.

This notice informs the public that the Interagency Guidelines, the second key component of the modernized PR&G, are finalized and available at www.whitehouse.gov/administration/eop/ceq/initiatives/PandG. The draft Interagency Guidelines were published in the **Federal Register** with a request for comments on March 27, 2013. Subsequent to public review and comment period, the final version of the Interagency Guidelines was developed through a collaborative interagency process that promoted the open exchange of information and perspectives. The process has engaged the public through formal public review and workshops. The updated and modernized PR&G will improve Federal government decision making related to investment in water resource projects and, thus, improve how our country plans for infrastructure projects.

DATES: Effective June 15, 2015.

ADDRESSES: The Interagency Guidelines are available at www.whitehouse.gov/administration/eop/ceq/initiatives/PandG.
