General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(b) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the

employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the plan;

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 23rd day of December 2014.

Director, Office of Exemption Determinations, Employee Benefits Security Administration, U.S. Department of Labor.

SUPPLEMENTARY INFORMATION:

I. Background

ETA requires grantees to submit Quarterly Progress Reports with a narrative summary of at least two progress measures and at least two implementation measures identified by the grantee in their project work plan. Every fourth quarter, grantees submit an Annual Performance Report with standardized outcome measures that will include aggregate data for program participants for the following ten outcome measures: unique participants served/enrolled; total number of participants who have completed a grant-funded program of study; total number still retained in their programs of study; total number retained in other education programs; total number of credit hours completed; total number of

earned credentials; total number pursuing further education after program of study completion; total number employed after program of study completion; total number retained in employment after program of study completion; and the total number of those employed at enrollment who receive a wage increase post-enrollment.

These reports help ETA gauge the effects of the TAACCCT grants, identify grantees that could serve as useful models, and target technical assistance appropriately.

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
