### **Proposed Information Collection; Comment Request**

**AGENCY:** Corporation for National and Community Service.

**ACTION:** Notice.

**SUMMARY:** The Corporation for National and Community Service (CNCS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. Sec. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirement on respondents can be properly assessed.

Currently, CNCS is soliciting comments concerning its proposed Senior Corps Foster Grand Parent pilot case study instrument. The study involves interviews and focus groups with FGP grantees, volunteers and stakeholder's to better understand their experiences implementing evidence based education models. The information will allow CNCS Senior Corps administrators to understand these processes as it considers broadening the use of evidence based national education models.

Copies of the information collection request can be obtained by contacting the office listed in the addresses section of this notice.

**DATES:** Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by March 2, 2015.

**ADDRESSES:** You may submit comments, identified by the title of the information collection activity, by any of the following methods:

- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

### **Background**

CNCS has contracted with ICF international to implement case studies of selected FGP grantees that are implementing two similar national education models in various service sites. The case study instrument will involve interviews and focus groups with current and former FGP project administrators, staff including site supervisors and volunteer coordinators and volunteers at two sites implementing each of two different models—Jumpstart and Reading Partners.

The information is designed to allow CNCS Senior Corps administrators to understand the process and experiences of grantees as they implement national education models including member

and beneficiary recruitment, member training, program structure and processes, program modifications specific to FGP, scope and reach of the various projects, and observed outcomes for members and beneficiaries.

Potential sites for inclusion in the study have been drawn from existing and former grantees implementing two national models, Jumpstart and Reading Partners.

Interview and focus group data will be collected via taped and written responses to telephone conversations.

Data analysis will focus on identifying and understanding factors associated with the process (opportunity costs, benefits, obstacles and preparation) related to the decision to use a model approach to tutoring and educational interventions.
