

If EPA decides to hold a public hearing, a public notice of the date, time and place of the hearing will be made at least 30 days prior to the hearing. Any person may provide written or oral statements and data pertaining to the proposed permit at the public hearing.

SUPPLEMENTARY INFORMATION: A copy of the proposed permit, fact sheet, and this **Federal Register** Notice may be found on the EPA Region 6 Web site: <http://www.epa.gov/region6/water/npdes/cafo/index.htm>, or obtained by contacting Ms. Rosborough via email at rosborough.evelyn@epa.gov or 214-665-2145. The Agency's current administrative record on the proposal is available for examination at the Region's Dallas offices during normal working hours by providing Ms. Rosborough 24 hours advance notice. When the final general permit is issued, notice will be published in the **Federal Register**. The final general permit will be effective on the date specified in the **Federal Register** and expires five years from that date.

Other Legal Requirements

A. State Certification. Under section 401(a)(1) of the CWA, EPA may not issue an NPDES permit until the State in which the discharge will occur grants or waives certification to ensure compliance with appropriate requirements of the CWA and State law. EPA will seek certification from the New Mexico Environment Department prior to issuing a final permit.

B. Endangered Species. Endangered Species Act Section 7(a)(2) consultation between EPA and the U.S. Fish and Wildlife Service concluded in May 29, 2009, with USFWS concurring with EPA's biological evaluation that reissuance of the 2009 New Mexico CAFO general permit "might affect but would be unlikely to adversely affect" several aquatic and aquatic dependent species federally listed in the state. This draft permit continues those conditions of eligibility for applicants in Bernalillo, Chavez, Eddy, Sandoval, San Juan and Valencia Counties that were developed in consultation and made part of the 2009 general permit. EPA has reviewed listings since 2009 of new species and critical habitat and has determined that reissuance of the permit with the prior agreed conditions is not likely to adversely affect any listed threatened or endangered species or designated critical habitat. EPA will meet its responsibility to fulfill the section 7 of the ESA requirements prior to reissuance of this general permit.

C. Historic Preservation. EPA determined, under Section 106 of the National Historic Preservation Act of

1966 (NHPA), that issuance of the 2009 general permit was a federal undertaking without adverse effects. EPA finds no changes to this determination and will ensure that its NHPA Section 16 obligation is fulfilled regarding reissuance of the general permit.

E. Regulatory Flexibility Act. The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, requires that EPA prepare a regulatory flexibility analysis for regulations that have a significant impact on a substantial number of small entities. The permit reissuance proposed today is not a "rule" subject to the Regulatory Flexibility Act. EPA prepared a regulatory flexibility analysis on the promulgation of the 2003 NPDES Permit Regulation and Effluent Limitation Guidelines and Standards for concentrated animal feeding operations (CAFOs) on which many of the permit's effluent limitations are based. In 2013, EPA completed review of the Guidelines and Standards pursuant to section 610 of the Regulatory Flexibility Act (RFA) and concluded that (1) there is a continued need for the CAFO regulations, and (2) revisions to minimize the regulations' impacts on small entities are not warranted at this time.

Notice of Issuance of Final Air Permits for Statoil Gulf Services, LLC and Anadarko Petroleum Corporation

AGENCY: Environmental Protection Agency.

ACTION: Notice of final actions.

SUMMARY: This notice is to announce that the Environmental Protection Agency (EPA) issued a final Outer Continental Shelf (OCS) air quality permit numbered OCS-EPA-R4012-M1 for Statoil Gulf Services, LLC (Statoil) on August 14, 2014, and an OCS air quality permit numbered OCS-EPA-R4015 for Anadarko Petroleum Corporation (Anadarko) on September 16, 2014.

ADDRESSES: The final permits, the EPA's response to public comments for these permits, if applicable, and supporting information are available at <http://www.epa.gov/region4/air/permits/index.htm>. These materials are also available for review at the EPA Regional Office and upon request in writing. The EPA requests that you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule an inspection or to submit a written request for copies of these materials. The Regional Office's official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m. excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Please contact Ms. Heather Ceron, Air Permits Section Chief, Air Planning Branch, Air, Pesticides and Toxics Management Division, Region 4, U.S. Environmental Protection Agency, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. The telephone number is (404) 562-9185. Ms. Ceron can also be reached via electronic mail at ceron.heather@epa.gov.

SUPPLEMENTARY INFORMATION: On July 9, 2014, EPA Region 4 requested public comments on a preliminary determination to issue an OCS air permit modification for Statoil's existing OCS air quality permit numbered OCS-EPA-R4012. During the public comment period, which ended on August 8, 2014, the EPA received no comments.

On June 20, 2014, EPA Region 4 requested public comments on a preliminary determination to issue an OCS air quality permit for the Anadarko EGOM (Eastern Gulf of Mexico) project. The EPA received a total of 14 comments from 1 commenter (Anadarko) during the public comment period, which closed on July 21, 2014.

The EPA reviewed each comment received for the Anadarko EGOM project and prepared a Response to Comments document. Since no comments were received for the Statoil project, a Response to Comment document was not prepared. After consideration of the expressed view of all interested persons, the pertinent federal statutes and regulations, the applications and supplemental information submitted by the applicants, and additional material relevant to the applications and contained in the Administrative Records, the EPA made final determinations in accordance with 40 CFR parts 55 and 71 to issue final air permits.

The EPA must follow the administrative procedures in 40 CFR part 124 used to issue PSD permits

when processing OCS permit applications under Part 55. 40 CFR 55.6(a)(3). The EPA must also follow the administrative procedures of 40 CFR part 71 when issuing permits to OCS sources subject to Title V requirements. 40 CFR 71.4(d). Under 40 CFR 124.19(l)(3) and 40 CFR 71.11(l)(7), notice of any final Agency action regarding a subject permit must be published in the **Federal Register**. Section 307(b)(1) of the CAA provides for review of final Agency action that is locally or regionally applicable in the United States Court of Appeals for the appropriate circuit. Such a petition for review of final Agency action must be filed on or before 11:59 p.m. on the 60th day from the date of notice of such action in the **Federal Register**. For purposes of judicial review under the CAA, final Agency action occurs when a final permit is issued or denied by the EPA and Agency review procedures are exhausted, per 40 CFR 124.19(l)(2) and 40 CFR 71.11(l)(5).

The Statoil permit became effective on August 14, 2014.

Any person who filed comments on the Anadarko draft permit was provided the opportunity to petition the Environmental Appeals Board by October 15, 2014. No petitions were submitted for this permit. Therefore, the Anadarko permit became effective on October 16, 2014.

Dated: December 11, 2014.
