Sunscreen Feedback Letters; Notice of Availability Under the Sunscreen Innovation Act

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; request for comments.

We are taking this action under the Sunscreen Innovation Act (SIA).

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of six sunscreen feedback letters on its Web site that contain the Agency’s tentative determinations and feedback on safety and effectiveness data submitted to demonstrate that certain active ingredients are GRASE and not misbranded for use in OTC sunscreen drug products. We are taking this action under the SIA (Pub. L. 113-195), enacted November 26, 2014. Before the SIA was enacted, these sunscreen feedback letters were issued to persons seeking OTC monograph status for nonprescription sunscreen active ingredients using the Time and Extent Application (TEA) process under FDA regulations in 21 CFR 330.14, and were also previously made available to the public in the docket.

The SIA amended the Federal Food, Drug, and Cosmetic Act (FD&C Act) to, among other things, provide an alternative process for FDA to review the safety and effectiveness of nonprescription sunscreen active ingredients. The SIA establishes new procedures for establishing the conditions under which sunscreens containing active ingredients that have been reviewed through the SIA process and found in a final sunscreen order to be GRASE and not misbranded may be marketed in the United States.

Section 586C(b)(3) of the FD&C Act, as added by the SIA, provides that

sunscreen feedback letters issued before the SIA was enacted are deemed to be proposed sunscreen orders. Proposed sunscreen orders contain FDA’s tentative determination that a nonprescription sunscreen active ingredient or combination of nonprescription sunscreen active ingredients: (A) Is GRASE and not misbranded if marketed in accordance with such order; (B) is not GRASE and is misbranded; or (C) is not GRASE and is misbranded because the data are insufficient to classify the active ingredient or combination of ingredients as GRASE and not misbranded, and additional data are necessary to allow FDA to determine otherwise. All of the proposed sunscreen orders addressed in this notice have been tentatively classified under category (C), as described in the previous sentence. Accordingly, additional data will be needed to support a determination that any or all of the active ingredients they address are GRASE and not misbranded.

II. Sunscreen Feedback Letters Deemed To Be SIA Proposed Orders

The six feedback letters that are deemed to be proposed orders under the SIA are identified in Table 1. They can be viewed electronically on FDA’s Web site at <http://www.fda.gov/Drugs/ResourcesForYou/Consumers/BuyingUsingMedicineSafely/UnderstandingOver-the-CounterMedicines/ucm239463.htm>, under the heading “FDA Regulatory Action on Sunscreen.” Related documents, including safety and efficacy data submissions, can be accessed in the corresponding dockets, identified in Table 1, at <http://www.regulations.gov>. The letters and associated information may also be viewed by visiting FDA’s Division of Dockets Management (see **ADDRESSES**).
