

DR funds, the calculated unmet business needs for each state are adjusted upwards by the proportion of total applications that were denied at the pre-process stage because of poor credit or inability to show repayment ability. Similar to housing, estimated damage is used to determine what unmet needs will be counted as severe unmet needs. Only properties with total real estate and content loss in excess of \$30,000 are considered severe damage for purposes of identifying the most impacted and distressed areas.

- Category 1: real estate + content loss = below \$12,000
- Category 2: real estate + content loss = \$12,000 to \$30,000
- Category 3: real estate + content loss = \$30,000 to \$65,000
- Category 4: real estate + content loss = \$65,000 to \$150,000
- Category 5: real estate + content loss = above \$150,000

To obtain unmet business needs, the amount for approved SBA loans is subtracted out of the total estimated damage.

Resiliency Needs

CDBG DR funds are often used to not only support rebuilding to pre-storm conditions, but also to build back much stronger. For the disasters covered by this Notice, HUD has required that grantees use their funds in a way that results in rebuilding back stronger so that future disasters do less damage and recovery can happen faster. To calculate these resiliency costs, HUD multiplied its estimates of total repair costs for seriously damaged homes, small businesses, and infrastructure by 30 percent for flooding disasters and 10 percent for other disasters.³ Total repair costs are the repair costs including costs covered by insurance, SBA, FEMA, and other federal agencies. The resiliency estimate is intended to reflect some of the unmet needs associated with building to higher standards such as elevating homes, voluntary buyouts, hardening, and other costs in excess of normal repair costs.

Housing and Small Business Construction Cost Adjustment

For grantees with housing construction costs above the national average, HUD increases their estimated housing and business construction costs using the same Marshall & Swift regional cost adjustment multipliers as used for HUD's annual calculation of

Total Development Costs developed for HUD's public housing repair programs. No estimate of damage is reduced by the multiplier (*ie.* if the Marshall & Swift adjustment is less than 1, the adjustment is set at 1).

SUPPLEMENTARY INFORMATION

I. Background

The Department of the Interior (DOI), Office of the Special Trustee for American Indians (OST), maintains the "Individual Indian Money (IIM) Trust Funds—Interior, OS-02," system of records. Due to a recent reorganization of OST and the Office of Historical Accounting, DOI is proposing to combine the OST Privacy Act system of records, "Individual Indian Money (IIM) Trust Funds—Interior, OS-02," with the OST Privacy Act system of records, "Accounting Reconciliation Tool (ART)—Interior, OS-11," for efficiency purposes and to promote the overall streamlining and management of DOI Privacy Act systems of records. The two systems have the same authorities and purpose, to manage the collection, distribution, and disbursement of Indian Trust land income; are managed by the same system manager within OST; and have the same or similar categories of records, categories of individuals, and routine uses.

The IIM system will assist OST in meeting the fiduciary responsibilities set forth in the American Indian Trust Fund Management Reform Act of 1994 including management of the receipt, investment, disbursement and administration of money held in trust for individual Indians and Alaskan Natives (or their heirs), and Indian Tribes; and ensure timely, accurate, and consistent responses to beneficiary inquiries. The system also assists the OST in providing litigation support in analyzing and reconciling the historical collection, distribution, and disbursement of income from IIM accounts, Indian trust land, and other revenue sources. The amendments to this system includes updating the system locations, categories of individuals covered by the system, categories of records in the system, authority for maintenance of the system, storage, safeguards, retention and disposal, system manager and address, notification procedures, records access and contesting procedures, records source categories, and updating the routine uses to include activities related to land consolidation of fractionated

lands. The Individual Indian Money (IIM) Trust Funds—Interior, OS–02 system notice was last published in the **Federal Register** on December 19, 2008, 73 FR 77824. The Accounting Reconciliation Tool (ART)—Interior, OS–11 system notice was last published in the **Federal Register** on July 31, 2008, 73 FR 44759. Upon final publication of the amended Individual Indian Money (IIM) Trust Funds—Interior, OS–02 system notice, DOI will publish a deletion notice for the Accounting Reconciliation Tool (ART)—Interior, OS–11 system notice to remove it from DOI's inventory of systems of records notices.

The amendments to the system will be effective as proposed at the end of the comment period (the comment period will end 40 days after the publication of this notice in the **Federal Register**), unless comments are received which would require a contrary determination. DOI will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended (5 U.S.C. 552a), embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals' personal information. The Privacy Act applies to records about individuals that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information about an individual is retrieved by the name or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a U.S. citizen or lawful permanent resident. As a matter of policy, DOI extends administrative Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of the DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such records within the agency. The amended system notice for

the "Individual Indian Money (IIM) Trust Funds—Interior, OS–02," is published in its entirety below.

In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
