

to provide a list of the final guidance documents that issued in 2007, 1997, and 1987, and so on. CDRH will consider the information received from this retrospective review when determining priorities for updating guidance documents. Based upon this experience, CDRH will establish a process for ongoing periodic review of final guidance that takes into account the value provided by the review and the resource implications to conduct the review.

Under the GGP's regulation at § 10.115(f)(4), the public may, at any time, suggest that CDRH revise or withdraw an already existing guidance document. The suggestion should address why the guidance document should be revised or withdrawn and, if applicable, how it should be revised. Stakeholders are advised to examine the list or previously issued final guidances provided by CDRH on the annual agenda Web site but feedback on any guidance is appreciated.

### III. Web Site Location of Guidance Lists

This notice announces the Web site location of the two lists of guidance documents which CDRH is intending to publish during FY 2015. To access these two lists, visit FDA's Web site at <http://www.fda.gov/MedicalDevices/DeviceRegulationandGuidance/Overview/MDUFAIII/ucm321367.htm>. We note that the Agency is not required to publish every guidance on either list if the resources needed would be to the detriment of meeting quantitative review timelines and statutory obligations. The Agency is not precluded from issuing guidance documents that are not on either list.

FDA and CDRH priorities are subject to change at any time. Topics on this and past guidance priority lists may be removed or modified based on current priorities. CDRH's experience in guidance development has shown that there are many reasons that CDRH staff may not complete the entire agenda of guidances it undertakes. Staffs are frequently diverted from guidance development to other priority activities. In addition, at any time new issues may arise to be addressed in guidance that could not have been anticipated at the time the annual list is generated. These may involve newly identified public health issues.

### IV. Request for Comments

Interested persons may submit either electronic comments regarding this document to <http://www.regulations.gov> or written comments to the Division of Dockets Management (see **ADDRESSES**). It is only necessary to send one set of

comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday, and will be posted to the docket at <http://www.regulations.gov>.
