National Agricultural Statistics Service

Title: Agricultural Labor Survey.

OMB Control Number: 0535-0109.

Summary of Collection: The 1938 Agricultural Adjustment Act, as amended in 1948, requires USDA to compute parity prices of farm products. This computation uses an index of Prices Paid by Farmers which in turn is composed of five indexes, one of which is an index of wage rates. These estimates measure actual agricultural wage rates and the year-to-year changes. General authority for these data collection activities is granted under U.S. Code title 7, section 2204. Agricultural labor statistics are an integral part of National Agricultural Statistics Service (NASS) primary function of collecting, processing, and disseminating current state, regional, and national agricultural statistics. Comprehensive and reliable agricultural labor data are also needed by the Department of Labor in the administration of the "H-2A" program (non-immigrants who enter the United States for temporary or seasonal agricultural labor) and for setting "Adverse Effect Wage Rates." The Agricultural Labor Survey is the only timely and reliable source of information on the size of the farm worker population. NASS will collect information using a survey.

Need and Use of the Information: NASS will collect information on wage rate estimates and the year-to-year changes in these rates and how changes in wage rates help measure the changes in costs of production of major farm commodities. NASS will also collect Standard Occupational Classifications data information for field workers, livestock workers, supervisors and other workers to measure the availability of national farm workers. The information is used by farm worker organizations to help set wage rates and negotiate labor contracts as well as determine the need for additional workers and to help ensure federal assistance for farm worker assistance programs supported with government funding.

Description of Respondents: Farms.

Number of Respondents: 13,000.

Frequency of Responses: Reporting: Quarterly; Annually.

Total Burden Hours: 12,634.

Departmental Information Collection Clearance Officer.
