

metrics determination. Several demographic questions and coverage probes are included in this test to combine with results from other recent testing opportunities to achieve optimal coverage for decennial censuses and surveys.

The specific goal for the Non-ID Processing research is to continue evaluating enhancements to the Census Bureau's process to collect address information needed for real-time matching and geocoding of Non-ID responses. Testing enhancements to Non-ID processing will inform planning for the 2020 Census design, as well as the infrastructure required to support large scale, real-time processing of electronic Non-ID response data submitted via the Internet or a Census-provided questionnaire application designed for mobile devices.

The goal of the advertising and outreach component of the Savannah site Test is twofold; first, we are supporting the entire OSR test by educating respondents and motivating self-response in an effort increase response rates. Secondly, this is our first opportunity to evaluate the effects of new advertising media on response rates. Specifically we are interested in assessing digital and targeted digital advertising, mediums the Census Bureau did not employ in the 2010 Census but that are now available due to the evolution of technology. Results of this test will inform additional tests and will help the Census Bureau begin planning for the 2020 Census communications campaign.

The data collected from households and individuals during the 2015 Census Test will be used to research and evaluate new methodologies and systems to plan the 2020 Census. The Census Bureau will not publish any tabulations or population estimates using the results from this test. However, methodological papers may be written that include summary tallies of response characteristics or problems identified, and responses may be used to inform future research studies building upon the results of these tests. The Census Bureau plans to make the evaluation results of this study available to the general public.

In the Maricopa County site, where the Census Bureau will conduct NRFU, the 2015 Census Test is designed to collect information to:

- Research the cost and quality impacts of differing approaches to removing workload from the NRFU universe through the use of administrative records information.
- Research the cost and quality impacts of new NRFU contact strategies

that make use of adaptive design and a re-engineered management structure employing an Area Operations Support Center housed at the Regional Office, automated payroll, automated training, and minimal face-to-face contact between enumerators and supervisors. For these experimental panels enumerators also provide work-time availability in advance, and the system assigns them the optimal number of cases to attempt each day, as well as the routing they should employ.

We are continuing our research on differing approaches to removing workload from the NRFU universe. In one approach we will remove all cases (both occupied and vacant) from the NRFU workload when we have administrative records data for the address. In a second approach we will make one contact attempt (for those cases considered occupied based on administrative records) before removing them from NRFU. The goal is to determine how these approaches vary regarding costs and quality measures. Results from both of these alternative strategies will be compared to a control panel that will conduct NRFU operations similar to how it was done in the 2010 Census. The testing will also obtain detailed data on when and how enumerators use proxy respondents.

The Census Bureau will conduct an additional NRFU data collection activity in the Maricopa site with enumerator-owned commercially provided mobile devices. The use of employee owned equipment/services is commonly referred to as "Bring Your Own Device" or BYOD. After selecting enumerators for this study, a sample of up to 5,000 households will be contacted at the end of the NRFU field operation using this methodology. These will be additional households not included in the other test activities (e.g., the self-response phase). The objectives of this component of the test are to:

- Design, develop, deploy, and support secure software solutions that can be installed on employee's personally owned commercially available mobile devices;
- Conduct interviews of respondents using these employee owned mobile devices; and
- Capture lessons learned for future operations, including: focus groups with a sub-set of the respondents, questionnaires for the enumerators, and collecting feedback from the local census office.

Focus groups also will be conducted in the Maricopa site to ask respondents about their experiences with the 2015 Census Test. Respondents will be recruited into groups with regard to

their treatment and demographic characteristics (e.g., age, education). For example, respondents will be recruited into one of the groups of 8–12 participants by age and education as well as whether they were NRFU respondents or non-respondents. Participants also will be asked about their general concerns with government collection and protection of confidential data. For the Nonresponse Follow-up groups only, we will ask participants their reactions to enumerators using personal devices when conducting Census interviews. At the end of the focus groups, we will be asking participants for whom we have acquired additional data to verify whether this information is accurate.

All focus groups will be tape-recorded to facilitate a summary of the results. Participants will be asked to sign consent forms and give permission to be recorded. All participants will be informed that their response is voluntary and that the information they provide is confidential. Respondents will receive a \$75 stipend after the focus group concludes.

*Affected Public:* Individuals or households.

*Frequency:* One time.

*Respondent's Obligation:* Mandatory.

*Legal Authority:* Title 13, United States Code, Sections 141 and 193.

This information collection request may be viewed at [www.reginfo.gov](http://www.reginfo.gov). Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov) or fax to (202)395–5806.

Dated: January 8, 2015.

**BILLING CODE 3510–07–P**

## DEPARTMENT OF COMMERCE

### Patent and Trademark Office

[Docket No.: PTO–P–2014–0064]

### Extension of the Extended Missing Parts Pilot Program

**AGENCY:** United States Patent and Trademark Office, Commerce.

**ACTION:** Notice.

**SUMMARY:** The United States Patent and Trademark Office (USPTO) implemented a pilot program (Extended

Missing Parts Pilot Program) in which an applicant, under certain conditions, can request a 12-month time period to pay the search fee, the examination fee, any excess claim fees, and the surcharge (for the late submission of the search fee and the examination fee) in a nonprovisional application. The Extended Missing Parts Pilot Program benefits applicants by permitting additional time to determine if patent protection should be sought—at a relatively low cost—and by permitting applicants to focus efforts on commercialization during this period. The Extended Missing Parts Pilot Program benefits the USPTO and the public by adding publications to the body of prior art, and by removing from the USPTO's workload those nonprovisional applications for which applicants later decide not to pursue examination. The USPTO is extending the Extended Missing Parts Pilot Program until December 31, 2015, to better gauge whether the Extended Missing Parts Program offers sufficient benefits to the patent community for it to be made permanent. The requirements of the program have not changed.

**DATES: Duration:** The Extended Missing Parts Pilot Program will run through December 31, 2015. Therefore, any certification and request to participate in the Extended Missing Parts Pilot Program must be filed before December 31, 2015. The USPTO may further extend the pilot program (with or without modifications) depending on the feedback received and the continued effectiveness of the pilot program.

**FOR FURTHER INFORMATION CONTACT:** Eugenia A. Jones, Senior Legal Advisor, Office of Patent Legal Administration, Office of the Deputy Commissioner for Patent Examination Policy, by telephone at (571) 272-7727, or by mail addressed to: Mail Stop Comments—Patents, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, marked to the attention of Eugenia A. Jones.

Inquiries regarding this notice may be directed to the Office of Patent Legal Administration, by telephone at (571) 272-7701, or by electronic mail at [PatentPractice@uspto.gov](mailto:PatentPractice@uspto.gov).

**SUPPLEMENTARY INFORMATION:** On December 8, 2010, after considering written comments from the public, the USPTO changed the missing parts examination procedures in certain nonprovisional applications by implementing a pilot program (*i.e.*, Extended Missing Parts Pilot Program). See *Pilot Program for Extended Time Period To Reply to a Notice to File*

*Missing Parts of Nonprovisional Application*, 75 FR 76401 (Dec. 8, 2010), 1362 Off. Gaz. Pat. Office 44 (Jan. 4, 2011). The USPTO has previously extended the Extended Missing Parts Pilot Program. See *Extension of the Extended Missing Parts Pilot Program*, 76 FR 78246 (Dec. 16, 2011), 1374 Off. Gaz. Pat. Office 113 (Jan. 10, 2012); *Extension of the Extended Missing Parts Pilot Program*, 78 FR 2256 (Jan. 10, 2013), 1387 Off. Gaz. Pat. Office 46 (Feb. 5, 2013); *Extension of Extended Missing Parts Pilot Program*, 79 FR 642 (Jan. 6, 2014), 1398 Off. Gaz. Pat. Office 197 (Jan. 28, 2014).

The USPTO is further extending the Extended Missing Parts Pilot Program until December 31, 2015. The USPTO may further extend the Extended Missing Parts Pilot Program, or may discontinue the pilot program after December 31, 2015, depending on the results of the program. The requirements of the program, which have not been modified, are reiterated below. Applicants are strongly cautioned to review the pilot program requirements before making a request to participate in the Extended Missing Parts Pilot Program.

The USPTO cautions all applicants that, in order to claim the benefit of a prior provisional application, the statute requires a nonprovisional application filed under 35 U.S.C. 111(a) to be filed within 12 months after the date on which the corresponding provisional application was filed. See 35 U.S.C. 119(e). It is essential that applicants understand that the Extended Missing Parts Pilot Program cannot and does not change this statutory requirement. Title II of the Patent Law Treaties Implementation Act of 2012 (PLTIA) amended the provisions of title 35, United States Code, including 35 U.S.C. 119(e), to implement the Patent Law Treaty (PLT). See Public Law 112-211, §§ 20-203, 126 Stat. 1527, 1533-37 (2012). In the rulemaking to implement the PLT and title II of the PLTIA, the Office provided that an applicant may file a petition under 37 CFR 1.78(b) to restore the benefit of a provisional application filed up to fourteen months earlier. See *Changes To Implement the Patent Law Treaty*, 78 FR 62367, 62368-69 (Oct. 21, 2013) (final rule). Any petition to restore the benefit of a provisional application must include the benefit claim, the petition fee, and a statement that the delay in filing the subsequent application was unintentional. This change was effective on December 18, 2013, and applies to any application filed before, on, or after December 18, 2013. However, if a petition under 37 CFR 1.78(b) to restore

the benefit claim of a prior provisional application is required, the application is not eligible for participation in the Extended Missing Parts Pilot Program.

### I. Requirements

In order for an applicant to be provided a 12-month (non-extendable) time period to pay the search and examination fees and any required excess claims fees in response to a Notice to File Missing Parts of Nonprovisional Application under the Extended Missing Parts Pilot Program, the applicant must satisfy the following conditions: (1) The applicant must submit a certification and request to participate in the Extended Missing Parts Pilot Program with the nonprovisional application on filing, preferably by using Form PTO/AIA/421, titled "Certification and Request for Extended Missing Parts Pilot Program"; (2) the application must be an original (*i.e.*, not a Reissue) nonprovisional utility or plant application filed under 35 U.S.C. 111(a) within the duration of the pilot program; (3) the nonprovisional application must directly claim the benefit under 35 U.S.C. 119(e) and 37 CFR 1.78 of a prior provisional application filed within the previous 12 months, and the specific reference to the provisional application must be in an application data sheet under 37 CFR 1.76 (*see* 37 CFR 1.78(a)(3)); and (4) the applicant must not have filed a nonpublication request.

As required for all nonprovisional applications, the applicant will need to satisfy filing date requirements and publication requirements. In the rulemaking to implement the PLT and title II of the PLTIA, the Office provided that an application (other than an application for a design patent) filed on or after December 18, 2013, is not required to include a claim to be entitled to a filing date. See *Changes To Implement the Patent Law Treaty*, 78 FR 62367, 62638 (Oct. 21, 2013) (final rule). This change was effective on December 18, 2013, and applies to any application filed under 35 U.S.C. 111 on or after December 18, 2013. However, if an application is filed without any claims, the Office of Patent Application Processing will issue a notice giving the applicant a two-month (extendable) time period within which to submit at least one claim in order to avoid abandonment (*see* 37 CFR 1.53(f)). The Extended Missing Parts Pilot Program does not change this time period. In accordance with 35 U.S.C. 122(b), the USPTO will publish the application promptly after the expiration of 18 months from the earliest filing date for which benefit is sought. Therefore, the

nonprovisional application should also be in condition for publication as provided in 37 CFR 1.211(c). The following are required in order for the nonprovisional application to be in condition for publication: (1) The basic filing fee; (2) the executed inventor's oath or declaration in compliance with 37 CFR 1.63 or an application data sheet containing the information specified in 37 CFR 1.63(b); (3) a specification in compliance with 37 CFR 1.52; (4) an abstract in compliance with 37 CFR 1.72(b); (5) drawings in compliance with 37 CFR 1.84 (if applicable); (6) any application size fee required under 37 CFR 1.16(s); (7) any English translation required by 37 CFR 1.52(d); and (8) a sequence listing in compliance with 37 CFR 1.821–1.825 (if applicable). The USPTO also requires any compact disc requirements to be satisfied and an English translation of the provisional application to be filed in the provisional application if the provisional application was filed in a non-English language and a translation has not yet been filed. If the requirements for publication are not met, the applicant will need to satisfy the publication requirements within a two-month extendable time period.

As noted above, applicants should request participation in the Extended Missing Parts Pilot Program by using Form PTO/AIA/421. For utility patent applications, the applicant may file the application and the certification and request electronically using the USPTO electronic filing system, EFS-Web, and selecting the document description of "Certification and Request for Missing Parts Pilot" for the certification and request on the EFS-Web screen. Form PTO/AIA/421 is available on the USPTO Web site at <http://www.uspto.gov/forms/aia0421.pdf>. Information regarding EFS-Web is available on the USPTO Web site at <http://www.uspto.gov/patents/ebc/index.jsp>.

The utility application including the certification and request to participate in the pilot program may also be hand-carried to the USPTO or filed by mail, for example, by Priority Mail Express® in accordance with 37 CFR 1.10. However, applicants are advised that, effective November 15, 2011, as provided in the Leahy-Smith America Invents Act, a new additional fee of \$400.00 for a non-small entity (\$200.00 for a small entity) is due for any nonprovisional utility patent application that is not filed by EFS-Web. See Public Law 112–29, § 10(h), 125 Stat. 283, 319 (2011). This non-electronic filing fee is due on filing of the utility application or within the two-

month (extendable) time period to reply to the Notice to File Missing Parts of Nonprovisional Application. Applicants will not be given the 12-month time period to pay the non-electronic filing fee. Therefore, utility applicants are strongly encouraged to file their utility applications via EFS-Web to avoid this additional fee.

For plant patent applications, the applicant must file the application including the certification and request to participate in the pilot program by mail or hand-carried to the USPTO since plant patent applications cannot be filed electronically using EFS-Web. See *Legal Framework for Electronic Filing System—Web (EFS-Web)*, 74 FR 55200 (Oct. 27, 2009), 1348 Off. Gaz. Pat. Office 394 (Nov. 24, 2009).

## II. Processing of Requests

If the applicant satisfies the requirements (discussed above) on filing of the nonprovisional application and the application is in condition for publication, the USPTO will send the applicant a Notice to File Missing Parts of Nonprovisional Application that sets a 12-month (non-extendable) time period to submit the search fee, the examination fee, any excess claims fees (under 37 CFR 1.16(h)–(j)), and the surcharge under 37 CFR 1.16(f) (for the late submission of the search fee and examination fee). The 12-month time period will run from the mailing date, or notification date for e-Office Action participants, of the Notice to File Missing Parts. For information on the e-Office Action program, see *Electronic Office Action*, 1343 Off. Gaz. Pat. Office 45 (June 2, 2009), and [http://www.uspto.gov/patents/process/status/e-Office\\_Action.jsp](http://www.uspto.gov/patents/process/status/e-Office_Action.jsp). After an applicant files a timely reply to the Notice to File Missing Parts within the 12-month time period and the nonprovisional application is completed, the nonprovisional application will be placed in the examination queue based on the actual filing date of the nonprovisional application.

For a detailed discussion regarding treatment of applications that are not in condition for publication, processing of improper requests to participate in the program, and treatment of authorizations to charge fees, see *Pilot Program for Extended Time Period To Reply to a Notice to File Missing Parts of Nonprovisional Application*, 75 FR 76401, 76403–04 (Dec. 8, 2010), 1362 Off. Gaz. Pat. Office 44, 47–49 (Jan. 4, 2011).

## III. Important Reminders

Applicants are reminded that the disclosure of an invention in a

provisional application should be as complete as possible because the claimed subject matter in the later-filed nonprovisional application must have support in the provisional application in order for the applicant to obtain the benefit of the filing date of the provisional application.

Furthermore, the nonprovisional application as originally filed must have a complete disclosure that complies with 35 U.S.C. 112(a) and is sufficient to support the claims submitted on filing and any claims submitted later during prosecution. New matter cannot be added to an application after the filing date of the application. See 35 U.S.C. 132(a). In the rulemaking to implement the PLT and title II of the PLTIA, the Office provided that, in order to be accorded a filing date, a nonprovisional application (other than an application for a design patent) must include a specification with or without claims. See *Changes To Implement the Patent Law Treaty*, 78 FR 62367, 62369 (Oct. 21, 2013) (final rule). This change was effective on December 18, 2013, and applies to any application filed under 35 U.S.C. 111 on or after December 18, 2013. Although a claim is not required in a nonprovisional application (other than an application for a design patent) for filing date purposes and the applicant may file an amendment adding additional claims as prescribed by 35 U.S.C. 112 and drawings as prescribed by 35 U.S.C. 113 later during prosecution, the applicant should consider the benefits of submitting a complete set of claims and any necessary drawings on filing of the nonprovisional application. This would reduce the likelihood that any claims and/or drawings added later during prosecution might be found to contain new matter. Also, if a patent is granted and the patentee is successful in litigation against an infringer, provisional rights to a reasonable royalty under 35 U.S.C. 154(d) may be available only if the claims that are published in the patent application are substantially identical to the patented claims that are infringed, assuming timely actual notice is provided. Thus, the importance of the claims that are included in the patent application publication should not be overlooked.

Applicants are also advised that the extended missing parts period does not affect the 12-month priority period provided by the Paris Convention for the Protection of Industrial Property (Paris Convention). Accordingly, any foreign filings must, in most cases, still be made within 12 months of the filing date of the provisional application if the

applicant wishes to rely on the provisional application in the foreign-filed application or if protection is desired in a country requiring filing within 12 months of the earliest application for which rights are left outstanding in order to be entitled to priority.

For additional reminders, see *Pilot Program for Extended Time Period To Reply to a Notice to File Missing Parts of Nonprovisional Application*, 75 FR 76401, 76405 (Dec. 8, 2010), 1362 Off. Gaz. Pat. Office 44, 50 (Jan. 4, 2011).

Dated: January 7, 2015.

**Michelle K. Lee,**

*Deputy Under Secretary of Commerce for Intellectual Property and Deputy Director of the United States Patent and Trademark Office.*

**BILLING CODE 3510-16-P**

## DEPARTMENT OF DEFENSE

### Office of the Secretary

[Docket ID: DoD-2014-OS-0084]

### Submission for OMB Review; Comment Request

**ACTION:** Notice.

**SUMMARY:** The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

**DATES:** Consideration will be given to all comments received by February 12, 2015.

**FOR FURTHER INFORMATION CONTACT:** Fred Licari, 571-372-0493.

#### SUPPLEMENTARY INFORMATION:

*Title, Associated Form and OMB Number:* Joint Services Support (JSS) System; OMB Control Number 0704-XXXX.

*Type of Request:* New Collection.  
*Number of Respondents:* 12,000.  
*Responses per Respondent:* 1.  
*Annual Responses:* 12,000.  
*Average Burden per Response:* 10 minutes.

*Annual Burden Hours:* 2,000.

*Needs and Uses:* The information collection requirement is necessary for the National Guard Bureau and its participating programs (Yellow Ribbon Reintegration Program (Guard and Reserve Component-wide), Family Program, Employer Support Program, financial Management Awareness Program, Sexual Assault Prevention and Response Program, Psychological Health Program, and Warrior Support Program) to ensure key activities may be

associated with system-registrants for program management, accountability, reporting and support purposes. Examples of use of such information include: Validating event registration and attendance, enabling users to login to system to facilitate outreach and communication activities, enabling leadership across the participating programs, with oversight and reporting.

In addition, JSS plans on collecting Civilian Employer Information (CE) from Service members. Defense Manpower Data Center (DMDC) will be ceasing its CEI Web site as of October 1, 2012. The service components as a result have been tasked to take over the collection of CEI prior to this date.

JSS in particular helps the Yellow Ribbon Reintegration Program and (in the future) also help Employer Support for the Guard and Reserve, reporting program activities, as required by a congressional mandate.

*Affected Public:* Individuals or Households; Federal Government; State, Locale or Tribal Government.

*Frequency:* On occasion.

*Respondent's Obligation:* Voluntary.

*OMB Desk Officer:* Ms. Jasmeet Seehra.

Written comments and recommendations on the proposed information collection should be sent to Ms. Jasmeet Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

You may also submit comments, identified by docket number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

*Instructions:* All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

*DOD Clearance Officer:* Mr. Frederick Licari.

Written requests for copies of the information collection proposal should be sent to Mr. Licari at WHS/ESD Directives Division, 4800 Mark Center Drive, East Tower, Suite 02G09, Alexandria, VA 22350-3100.

Dated: January 8, 2015.

**Aaron Siegel,**

*Alternate OSD Federal Register Liaison Officer, Department of Defense.*

### Office of the Secretary

### Defense Acquisition University Board of Visitors; Notice of Federal Advisory Committee Meeting

**AGENCY:** Defense Acquisition University, DoD.

**ACTION:** Meeting notice.

**SUMMARY:** The Department of Defense is publishing this notice to announce a Federal Advisory Committee meeting of the Defense Acquisition University Board of Visitors. This meeting will be open to the public.

**DATES:** Wednesday, January 28, 2015, from 9:00 a.m. to 12:00 p.m.

**ADDRESSES:** DAU Headquarters, 9820 Belvoir Road, Fort Belvoir, VA 22060.

**FOR FURTHER INFORMATION CONTACT:** Caren Hergenroeder, Protocol Director, DAU. Phone: 703-805-5134. Fax: 703-805-5940. Email: [caren.hergenroeder@dau.mil](mailto:caren.hergenroeder@dau.mil).

**SUPPLEMENTARY INFORMATION:** This meeting is being held under the provisions of the Federal Advisory Committee Act of 1972 (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), and 41 CFR 102-3.150.

*Purpose of the Meeting:* The purpose of this meeting is to report back to the Board of Visitors on continuing items of interest.
