Procedures for Providing Public Input:

Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Interested members of the public may submit relevant information on the topic of this advisory activity, for the group conducting the activity, for the SAB to consider during the advisory process. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for SAB committees and panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the DFO directly. **Oral Statements:** In general, individuals or groups requesting an oral presentation on a public teleconference will be limited to three minutes and an oral presentation at the face-to-face meeting will be limited to five minutes.

Interested parties wishing to provide comments should contact Dr. Diana Wong, DFO (preferably via email), at the contact information noted above, by February 25, 2015 to be placed on the list of public speakers for the teleconference and by April 8, 2015 to be placed on the list of public speakers for the face-to-face meeting. **Written Statements:** Written statements will be accepted throughout the advisory process; however, for timely consideration by Committee/Panel members, statements should be supplied to the DFO via email at the contact information noted above at least one week prior to a public meeting so that the information may be made available to the SAB Panel for their consideration. Written statements should be supplied in one of the electronic formats: Adobe Acrobat PDF, WordPerfect, MS PowerPoint, or Rich
