

contractor by airmen who are the subject of an investigation, the email address has been burdened with many other types of requests (e.g., unspecified requests for “any air traffic data,” requests for other agency information, or requests by individuals who are not the subject of an investigation related to the approval, denial, suspension, modification, or revocation of an airman certificate). Because the email address is no longer an efficacious means for processing the requests for which it was intended, the FAA will no longer be using it and it will remove the instructions from the “Pilot’s Bill of Rights” hyperlink that directed airmen to that email address.

C. How Individuals Subject to an FAA Investigation Related to the Approval, Denial, Suspension, Modification, or Revocation of an Airman Certificate May Obtain Air Traffic Data in the Possession of a Government Contractor

Individuals who have received notification from an FAA investigator that they are the subject of an investigation related to the approval, denial, suspension, modification, or revocation of an airman certificate may access or otherwise obtain air traffic data by contacting the FAA investigator that provided them with that notification.

Issued in Washington, DC, on January 14, 2015.
