

facilities. The planning area includes lands designated as a Wilderness Study Area, a Special Recreation Management Area (SRMA) and an Area of Critical Environmental Concern (ACEC). Most recreational use occurs on the 25 percent of the project planning area that has these special designations. The BLM Planning for Recreation and Visitor Services Handbook states that SRMAs may need to develop additional guidance in a Recreation Area Management Plan (RAMP) for addressing complex implementation issues not specifically addressed in the RMP for an area. In this case, information collected at the SASD will provide guidance when writing a RAMP that will provide specific direction for on-the-ground implementation of the RMP.

In 2013, a site-specific study was conducted by the University of Idaho and the BLM at the BLM-managed Egin Lakes Campground, which is located within the SRMA and ACEC. This study

collected data on visitor demographics, visitor views on facilities and resource conditions, and visitor expectations for the campground and the surrounding area. The proposed visitor use survey will supplement the 2013 data with additional information on subjects such as existing and proposed management actions, issuance of Special Recreation Permits, conflicts between visitors, and travel management issues. For this new information collection, the University of Idaho will serve as the lead investigator and utilize a similar approach as in the previous study. Methods include administering onsite questionnaires to visitors on a stratified random sampling basis and distributing mail-back questionnaires (with an online option) to identified interests in the area (for example, local elected officials, recreation and environmental groups, and visitors whose contact information we gathered during 2014). The questionnaire will ask respondents about user conflicts, observable resource

impacts, attitudes toward various resource values, sources of information about the campground sites, perspectives on facilities, commercial activities and associated management, and basic demographic data including level of education, age, and organizational affiliations. The survey will be conducted during the summer season (May through October), when visitation rates are highest.

III. Request for Comments

OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act (44 U.S.C. 3501-3521), require that interested members of the public and affected agencies be provided an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d) and 1320.12(a)). The BLM will request that the OMB approve this information collection activity for a 3-year term. Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) The accuracy of the agency's burden estimates; (3) Ways to enhance the quality, utility and clarity of the information collection; and (4) Ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information. A summary of the public comments received will accompany the BLM's submission of the information collection request to OMB. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that

your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
