

implemented, roadway horizontal and vertical alignment, and preliminary interchange/intersection geometrics. Engineering and environmental conditions will be evaluated in order to determine an alignment that meets the transportation needs of the region while minimizing the impacts to the environment.

The Supplemental EIS will evaluate potential effects on the social, economic, natural and physical environments, including land use and socioeconomic conditions, ecological resources, and cultural resources. Potentially affected resources include: Agricultural, residential and commercial properties; streams, wetlands and floodplains; forested areas and potentially historic properties. Preliminary measures to minimize harm, estimates of probable construction costs and estimated right-of-way requirements will be developed as part of this study.

Public involvement is a critical component of the National Environmental Policy Act (NEPA) project development process and will occur throughout the development of the environmental document. This document will be made available for review by federal and state resource agencies and the public. Public informational meetings, local government meetings, property owner meetings and other community organization meetings will provide opportunities for public input. A public hearing will be held at the time the Draft Supplemental EIS is made available for public and agency review and comment. Public notice will be given of the time and place of public meetings and hearings. Comments or questions regarding this proposed action and the Supplemental EIS are invited from all interested parties and should be directed to the FHWA or the IDOT at the addresses provided above.

SUPPLEMENTARY INFORMATION:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

II. Exemption Decision

This notice addresses 11 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 11 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Ricky J. Childress (AL)
David L. Dykman (ID)
Milan D. Frasier (ID)
Harold J. Haier (NY)
Timothy L. Kelly (TX)
Lewis A. Kielhack (IL)
Robert T. Lanry (MA)
Joe A. McIlroy (NY)
Elmer R. Miller (IL)
Richard L. Moreland (MO)
Ronald M. Scott (IN)

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the requirements in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

III. Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 11 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (71 FR 63379; 72 FR 1051; 73 FR 75803; 73 FR 78423; 74 FR 6209; 75 FR 79083; 76 FR 4413; 77 FR 74734; 78 FR 797). Each of these 11 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the requirement specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two
