

maintenance costs). The comments that are submitted will be summarized and included in the CBP request for OMB approval. All comments will become a matter of public record. In this document, CBP is soliciting comments concerning the following information collection:

Title: Lien Notice.

OMB Number: 1651-0012.

Form Number: 3485.

Abstract: Section 564, Tariff Act of 19, as amended (19 U.S.C. 1564) provides that the claimant of a lien for freight can notify CBP in writing of the existence of a lien, and CBP shall not permit delivery of the merchandise from a public store or a bonded warehouse until the lien is satisfied or discharged. The claimant shall file the notification of a lien on CBP Form 3485, Lien Notice. This form is usually prepared and submitted to CBP by carriers, cartmen and similar persons or firms. The data collected on this form is used by CBP to ensure that liens have been satisfied or discharged before delivery of the freight from public stores or bonded

warehouses, and to ensure that proceeds from public auction sales are distributed to the lienholder. CBP Form 3485 is provided for by 19 CFR 141.112, and is accessible at http://forms.cbp.gov/pdf/CBP_Form_3485.pdf.

Current Actions: This submission is being made to extend the expiration date with no change to the burden hours. There are no changes to the information collected or to Form 3485.

Type of Review: Extension (without change).

Affected Public: Businesses.

Estimated Number of Respondents: 112,000.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 28,000.

Dated: January 21, 2015.

Tracey Denning,

Agency Clearance Officer, U.S. Customs and Border Protection.

Information Collection Request Sent to the Office of Management and Budget (OMB) for Approval; Migratory Birds and Wetlands Conservation Grant Programs

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) have sent an Information Collection Request (ICR) to OMB for review and approval. We summarize the

ICR below and describe the nature of the collection and the estimated burden and cost. This information collection is scheduled to expire on January 31, 2015. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. However, under OMB regulations, we may continue to conduct or sponsor this information collection while it is pending at OMB. **DATES:** You must submit comments on or before February 26, 2015.

ADDRESSES: Send your comments and suggestions on this information collection to the Desk Officer for the Department of the Interior at OMB-OIRA at (202) 395-5806 (fax) or OIRA_Submission@omb.eop.gov (email). Please provide a copy of your comments to the Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS BPHC, 5275 Leesburg Pike, Falls Church, VA 22041-3803 (mail), or hope_grey@fws.gov (email). Please include "1018-0100" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Hope Grey at hope_grey@fws.gov (email) or 703-358-2482 (telephone). You may review the ICR online at <http://www.reginfo.gov>. Follow the instructions to review Department of the Interior collections under review by OMB.

SUPPLEMENTARY INFORMATION:

Information Collection Request

OMB Control Number: 1018-0100.

Title: Migratory Birds and Wetlands Conservation Grant Programs.

Service Form Number(s): None.

Type of Request: Extension of a currently approved collection.

Description of Respondents: Domestic and foreign individuals, businesses, and other for-profit organizations; educational organizations; not-for-profit institutions; and Federal, State, tribal and local governments

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Activity	Number of respondents	Number of responses	Completion time per response (hours)	Total annual burden hours
NAWCA Small Grants—Applications	71	71	40	2,840

Activity	Number of respondents	Number of responses	Completion time per response (hours)	Total annual burden hours
NAWCA Small Grants—Reports	99	99	33	3,267
NAWCA U.S. Standard Grants—Applications	69	69	203	14,007
NAWCA Canadian and Mexican Standard Grants—Applications	27	27	80	2,160

NMBCA Reports	71	71	40	2,840
Totals	598	598		35,464

Estimated Annual Nonhour Burden Cost: None.

Abstract: The Division of Bird Habitat Conservation administers grant programs associated with the North American Wetlands Conservation Act (NAWCA), Public Law 101–233, and the Neotropical Migratory Bird Conservation Act (NMBCA), Public Law 106–247.

North American Wetlands Conservation Act Grants

NAWCA provides matching grants to organizations and individuals who have developed partnerships to carry out wetlands conservation projects in the United States, Canada, and Mexico for the benefit of wetlands-associated migratory birds and other wildlife. There is a Standard and a Small Grants Program. Both are competitive grants programs and require that grant requests be matched by partner contributions at no less than a 1-to-1 ratio. Funds from U.S. Federal sources may contribute to a project, but are not eligible as a match.

The Standard Grants Program supports projects in Canada, the United States, and Mexico that involve long-term protection, restoration, and enhancement of wetlands and associated uplands habitats. In Mexico, partners may also conduct projects involving technical training, environmental education and outreach, organizational infrastructure development, and sustainable-use studies.

The Small Grants Program operates only in the United States. It supports the same types of projects and adheres to the same selection criteria and administrative guidelines as the U.S. Standard Grants Program. However, project activities are usually smaller in scope and involve fewer project dollars. Grant requests may not exceed \$75,000, and funding priority is given to grantees or partners new to the NAWCA Grants Program.

We publish notices of funding availability on Grants.gov (<http://www.grants.gov>), as well as in the Catalog of Federal Domestic Assistance

(<https://www.cfda.gov>). To compete for grant funds, partnerships submit applications that describe in substantial detail project locations, project resources, future benefits, and other characteristics that meet the standards established by the North American Wetlands Conservation Council and the requirements of NAWCA. Materials that describe the program and assist applicants in formulating project proposals are available on our Web site at <http://www.fws.gov/birdhabitat/Grants/NAWCA>. Persons who do not have access to the Internet may obtain instructional materials by mail. We have not made any major changes in the scope and general nature of the instructions since OMB first approved the information collection in 1999.

Neotropical Migratory Bird Conservation Act

NMBCA establishes a matching grant program to fund projects that promote the long-term conservation of neotropical migratory birds and their habitats in the United States, Canada, Latin America, and the Caribbean. Principal conservation actions supported are:

- Protection and management of populations.
- Maintenance, management, protection, and restoration of habitat.
- Research and monitoring.
- Law enforcement.
- Community outreach and education.

We publish notices of funding availability on Grants.gov as well as in the Catalog of Federal Domestic Assistance. To compete for grant funds, partnerships submit applications that describe in substantial detail project locations, project resources, future benefits, and other characteristics that meet the standards established by the U.S. Fish and Wildlife Service and the requirements of NMBCA.

Materials that describe the program and assist applicants in formulating project proposals for consideration are available on our Web site at <http://www.fws.gov/birdhabitat/Grants/>

NMBCA. Persons who do not have access to the Internet may obtain instructional materials by mail. We have not made any major changes in the scope and general nature of the instructions since OMB first approved the information collection in 2002.

Comments Received and Our Responses

Comments: On October 22, 2014, we published in the **Federal Register** (79 FR 63159) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on December 22, 2014. We received one comment. The commenter objected to the grant programs, but did not address the information collection requirements. We have not made any changes to the information collection.

Request for Public Comments

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: January 21, 2015.

Tina A. Campbell,

Chief, Division of Policy and Directives
Management, U.S. Fish and Wildlife Service.

Arctic National Wildlife Refuge, Alaska; Revised Comprehensive Conservation Plan and Final Environmental Impact Statement

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a revised comprehensive conservation plan (plan/CCP) and final environmental impact statement (EIS) for the Arctic National Wildlife Refuge (refuge, NWR) for a 30-day public review. In this revised plan and final EIS, we describe how we propose to manage the refuge for the next 15 years. **DATES:** The review period will end February 26, 2015. We are not soliciting comments on the plan during this review period.

ADDRESSES: You may submit questions or requests for more information by any one of the following methods:

- *Email:* ArcticRefugeCCP@fws.gov. Include "Arctic National Wildlife Refuge Revised CCP and Final EIS" in the subject line of the message.
- *Fax:* Attention: Arctic CCP, Planning Team Leader, Arctic National Wildlife Refuge, (907) 456-0428.
- *U.S. Mail:* Attention: Stephanie Brady, Arctic CCP, Arctic National Wildlife Refuge, 101 12th Ave., Rm. 236, Fairbanks, AK 99701.
- *In-Person Drop Off:* You may drop off questions during regular business hours at the above addresses.

You will find the plan and EIS, as well as information about the planning process and a summary of the revised plan, on the planning Web site: <http://arctic.fws.gov/ccp.htm>.

FOR FURTHER INFORMATION CONTACT: Stephanie Brady, (907) 306-7448.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the comprehensive conservation planning process for Arctic National Wildlife Refuge, which we began by publishing

a notice of intent in the **Federal Register** (75 FR 17763) on April 7, 2010. For more about the initial process and the history of this refuge, see that notice.

Background

The Alaska National Interest Lands Conservation Act (ANILCA) requires us to develop a CCP for each national wildlife refuge in Alaska. The purpose of developing a CCP is to provide refuge managers with a strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System (NWRS), consistent with sound principles of fish and wildlife management, conservation, legal mandates, and Service policies. In addition to outlining broad management direction for conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. In general, we review and update CCPs in Alaska every 15 to 20 years.

ANILCA lists specific purposes for each refuge in Alaska. These purposes provide the foundation for developing and prioritizing the management goals and objectives for each Alaskan refuge. The planning process is a way for us and the public to evaluate management goals and objectives that will ensure the best possible approach to wildlife, plant, and habitat conservation while providing for wildlife-dependent recreation opportunities that are compatible with each refuge's establishing purposes and the mission of the NWRS.

Additional Information

The revised plan may be found at <http://arctic.fws.gov/ccp.htm>. The document incorporates an EIS, prepared in accordance with the National Environmental Policy Act (NEPA) (43 U.S.C. 4321 *et seq.*).

Alternatives Considered

The revised plan and final EIS includes detailed information about the refuge, planning process, issues, and management alternatives considered. The final EIS includes discussions of six alternatives for refuge management. All six alternatives address three significant issues: Wilderness recommendations, Wild and Scenic River recommendations, and Kongakut River visitor use management. The Service's preferred alternative is described in the revised Plan and final EIS.

Alternative A: Current Management (No Action)

This alternative reflects the current management direction of Arctic NWR. It provides the baseline against which to compare other alternatives. Under Alternative A, the refuge would continue to be managed according to the direction included in the 1988 plan. Current goals and objectives would not be changed.

- *Wilderness*—No new areas would be recommended for Wilderness designation.
- *Wild and Scenic Rivers*—No new rivers would be recommended for inclusion in the Wild and Scenic Rivers System.

- *Kongakut River Visitor Use Management*—Managers would continue to manage visitors using the following practices: Group size limits for guided groups (7 hikers, 10 floaters); and No group size limits for non-guided groups, although we recommend using commercial limits; Information on low-impact camping and other best practices would continue to be available on the Refuge Web site. Commercial service providers would continue to have special use permits with occasional compliance checks by the Service.

Monitoring of physical and social conditions and visitor impacts would continue to occur occasionally. Air operator permit holders would be required to land on non-vegetated surfaces and asked to follow all Federal Aviation Administration (FAA) advisories during flight operations. The Service would prepare a Public Use Management Plan (as required by the 1988 plan).

Alternative B

- *Wilderness*—Recommend the Brooks Range Wilderness Study Area to Congress for Wilderness designation.

- *Wild and Scenic Rivers*—Recommend the Hulahula, Kongakut, and Marsh Fork Canning Rivers to Congress for inclusion into the National Wild and Scenic Rivers System.

- *Kongakut River Visitor Use Management*—Under this alternative, and immediately upon plan approval, we would proceed with two concurrent step-down plans: A Visitor Use Management Plan (VUMP) and a Wilderness Stewardship Plan (WSP). In addition to the practices identified under Alternative A, we would implement interim measures. The refuge would expand monitoring of degraded sites, work with guides to reduce visitor volume, work with air operators to disperse flights over high-use areas, publish a schedule of when guides will
