Therefore, the six-month period beginning on the date of the publication of the *Preliminary Determination* ended on January 21, 2015. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination.

Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of calcium hypochlorite from the PRC entered, or withdrawn from warehouse, for consumption after January 21, 2015, the date the provisional measures expired, and through the day preceding the date of publication of the ITC's final injury determination in the **Federal Register**.

#### Estimated Weighted-Average Dumping Margin

The weighted-average antidumping duty margin percentage is as follows:

Exporter	Weighted-average margin (percent)
PRC-Wide Entity .....	210.52 <sup>7</sup>

This notice constitutes the antidumping duty order with respect to calcium hypochlorite from the PRC, pursuant to section 736(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room 7043 of the main Commerce building, for copies of an updated list of antidumping duty orders currently in effect.

This order is published in accordance with sections 736(a) of the Act and 19 CFR 351.211(b).

<sup>6</sup> See *Preliminary Determination*, 79 FR 43393, 43394 (July 25, 2014).

<sup>7</sup> The following subsidy programs in the final determination of the concurrent countervailing duty investigation are export subsidies: Discounted Loans for Export-Oriented Enterprises (1.06 percent), Export Credits from China's Export-Import Bank (1.06 percent), Export Credit Insurance from China Export and Credit Insurance Corporation (Sinasure) (1.06 percent), Foreign Trade Development Fund (0.55 percent), Famous Brands Program (0.55 percent), Provision of Shipping for LTAR (5.34 percent). Therefore, we have offset the PRC-wide rate of 210.52 percent by the countervailing duty rate attributable to export subsidies (i.e., 9.62 percent).
