

Act (FERPA) (20 U.S.C. 1232g; 34 CFR part 99), which protects the privacy of students' education records.

1. **Contract Disclosure.** If the Department contracts with an entity to perform any function that requires disclosing records in this system to the contractor's employees, the Department may disclose the records to those employees who have received the appropriate level of security clearance from the Department. Before entering into such a contract, the Department will require the contractor to establish and maintain the safeguards required under the Privacy Act (5 U.S.C. 552a(m)) with respect to the records in the system.

2. **Research Disclosure.** The Director of IES may license confidential information from this system of records to qualified external researchers solely for the purpose of carrying out specific research that is compatible with the purpose(s) of this system of records. The researcher must maintain, under the Privacy Act and section 183(c) of the ESRA, safeguards with respect to such records.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

None.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The Department maintains records on CD-ROM, and the contractor (Abt Associates Inc.) and sub-contractors (Education Analytics, Westat) maintain data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system are indexed and retrieved by a unique number assigned to each individual that is cross-referenced by the individual's name on a separate list.

SAFEGUARDS:

All physical access to the Department's site and to the sites of the Department's contractor and subcontractors, where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a need-to-know basis and controls individual users' ability to access and alter records within the system.

The contractor and subcontractors have established a similar set of

procedures at their sites to ensure confidentiality of data. The contractor and subcontractors are required to ensure that print data identifying individuals are in files physically separated from other research data and electronic files identifying individuals are separated from other electronic research data files. The contractor and subcontractors maintain security of the complete set of all master data files and documentation. Access to individually identifiable data is strictly controlled. At each site, all hardcopy data are kept in locked file cabinets during nonworking hours and work on hardcopy data takes place in a single room, except for data entry.

Physical security of electronic data is also maintained. Security features that protect project data include: Password-protected accounts that authorize users to use the contractor's system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; and additional security features that the network administrators will establish for projects as needed. The Department's, contractor's, and subcontractors' employees who "maintain" (collect, maintain, use, or disseminate) data in this system must comply with the requirements of the Privacy Act, FERPA, and the confidentiality standards in section 183 of the ESRA (20 U.S.C. 9573).

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules (GRS 23, Item 8).

SYSTEM MANAGER AND ADDRESS:

Associate Commissioner, Evaluation Division, National Center for Education Evaluation and Regional Assistance, Institute of Education Sciences, U.S. Department of Education, 555 New Jersey Avenue NW., Room 502D, Washington, DC 20208-0001.

NOTIFICATION PROCEDURE:

If you wish to determine whether a record exists regarding you in the system of records, contact the system manager. Your request must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

RECORD ACCESS PROCEDURE:

If you wish to gain access to a record about you in this system of records, contact the system manager. Your request must meet the requirements of

the Department's Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

CONTESTING RECORD PROCEDURE:

If you wish to contest the content of a record regarding you in the system of records, contact the system manager. Your request for access to a record must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.7, including proof of identity.

RECORD SOURCE CATEGORIES:

This system will contain records on teachers, and students participating in a study of teaching preparation experiences and teacher effectiveness. Data will be obtained through human resource and student records maintained by the school districts and surveys of teachers.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-405]

Application To Export Electric Energy; Del Norte Energy LLC

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: Del Norte Energy LLC (Del Norte or Applicant) has applied for authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before March 4, 2015.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act

(42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. § 824a(e)).

On January 14, 2015, DOE received an application from Del Norte for authority to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. The Applicant is also requesting an expedited review of the Application and for DOE to issue the requested authorization no later than and effective February 28, 2015.

In its application, Del Norte states that it does not own or control any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that Del Norte proposes to export to Mexico would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on Del Norte's application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-405. An additional copy is to be provided directly to Sergio Julian Carrasco Astorga, Del Norte Energy LLC, 163 Humphrey Street, New Haven, CT 06511 and to Daniel E. Frank, Sutherland Asbill & Brennan LLP, 700 Sixth Street NW., Suite 700, Washington, DC 20001.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available by request to the addresses provided above or by accessing the program Web site at <http://energy.gov/node/11845>.

Issued in Washington, DC, on January 27, 2015.

Brian Mills,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

President's Council of Advisors on Science and Technology

AGENCY: Department of Energy, Office of Science.

ACTION: Notice of closed meeting.

SUMMARY: This notice announces a meeting of the President's Council of Advisors on Science and Technology (PCAST). Notice of this meeting is required under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2.

DATES: October 23, 2014.

ADDRESSES: The meeting was held at the White House, 1600 Pennsylvania Ave. NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Questions about the meeting should be directed to Dr. Ashley Predith at apredith@ostp.eop.gov, (202) 456-4444.

SUPPLEMENTARY INFORMATION: The President's Council of Advisors on Science and Technology (PCAST) is an advisory group of the nation's leading scientists and engineers, appointed by the President to augment the science and technology advice available to him from inside the White House, cabinet departments, and other Federal agencies. See the Executive Order at <http://www.whitehouse.gov/ostp/pcast>. PCAST is consulted about and provides analyses and recommendations concerning a wide range of issues where understandings from the domains of science, technology, and innovation may bear on the policy choices before the President. PCAST is co-chaired by Dr. John P. Holdren, Assistant to the President for Science and Technology, and Director, Office of Science and Technology Policy, Executive Office of the President, The White House; and Dr. Eric S. Lander, President, Broad Institute of the Massachusetts Institute of Technology and Harvard.

Type of Meeting: Closed.

Schedule and Agenda: The President's Council of Advisors on Science and Technology (PCAST) met with the President of the United States from 1:45-2:45 p.m. ET on October 23, 2014 at the White House. The location was chosen for the President's scheduling convenience and to maintain

Secret Service protection. This meeting was planned and held on short notice due to the urgency of the topic and a **Federal Register** Notice could not be published before the meeting. PCAST has the authority to hold closed meetings with the President.

Public Comments: It is the policy of the PCAST to accept written public comments of any length, and to accommodate oral public comments whenever possible. Written comments are accepted continuously. Information regarding how to submit comments and documents to PCAST is available at <http://whitehouse.gov/ostp/pcast> in the section entitled "Connect with PCAST."

Please note that because PCAST operates under the provisions of FACA, all public comments will be treated as public documents and will be made available for public inspection, including being posted on the PCAST Web site.

Issued in Washington, DC on January 27, 2015.
