

information; date received; date accessioned; accession type; description; project name; item total by discipline; catalog status; and, any catalog numbers in the accession.

(d) Inventories of DOI museum collections, including certain DOI required data: object found; item count; location; condition; date of inventory; and inventory method.

(e) Input on U.S. Department of the Interior Collections Housed at Non-Federal Facilities, which includes: the estimated number of DOI collections at the facility, if applicable; accession numbers of DOI collections; number of catalog records for DOI collections; type of museum catalog database used, if applicable; existence of DOI NAGPRA collections; inventory status; and research use. The information will be used by DOI to determine if DOI collections are located at the respondents' facilities, the nature of the collections, quantities, issues of complexity, and any other related factors.

(4) As required under 5 CFR 1320.8(d), a **Federal Register** notice soliciting comments on the information collection was published on March 14, 2014 (79 FR 14525). No comments were received. This notice provides the public with an additional 30 days in which to comment on the proposed information collection activity.

III. Request for Comments

The Department of the Interior invites comments on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agency's estimate of the burden of the collection and the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

"Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose, or provide information to or for a federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and

maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

All written comments, with names and addresses, will be available for public inspection. If you wish us to withhold your personal information, you must prominently state at the beginning of your comment what personal information you want us to withhold. We will honor your request to the extent allowable by law. If you wish to view any comments received, you may do so by scheduling an appointment with Property & Acquisition Management at the contact information provided in the **ADDRESSES** section. Valid picture identification is required for entry into the Department of the Interior, 1849 C Street NW., Washington, DC 20240.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Dated: January 27, 2015.

James G. McCaffery, III,
Acting Director, Office of Acquisition and Property Management.

Proposed Safe Harbor Agreement for Smith's Blue Butterfly and California Red-Legged Frog at Garrapata State Park, Monterey County, California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; receipt of permit application.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received, from the California Department of Parks and Recreation, Monterey District (applicant), an application for an enhancement of survival permit for the federally endangered Smith's blue butterfly and threatened California red-legged frog under the Endangered Species Act of 1973, as amended (Act). This permit application includes a proposed safe harbor agreement (agreement) between

the applicant and the Service. The agreement and permit application are available for public comment.

DATES: To ensure we are able to consider your comments, please send them to us by March 5, 2015.

ADDRESSES: The documents are available on our Web site: <http://www.fws.gov/ventura>. A limited number of printed copies are available by request. You may request documents or submit comments by any of the following methods.

- **Email:** fw8SHA_garrapata@fws.gov. Include "Garrapata State Park SHA" in the subject line of the message.

- **U.S. Mail:** Field Supervisor; U.S. Fish and Wildlife Service; Ventura Fish and Wildlife Office; 2493 Portola Road, Suite B; Ventura, CA 93003.

- **Fax:** Attn: Field Supervisor, (805) 644-3958.

FOR FURTHER INFORMATION CONTACT: Eric Morrisette, Senior Biologist, Ventura Fish and Wildlife Office at the address above or by telephone at (805) 644-1766.

SUPPLEMENTARY INFORMATION: We have received an application for an enhancement of survival permit for the federally endangered Smith's blue butterfly (*Euphilotes enoptes smithi*) and threatened California red-legged frog (*Rana draytonii*) under the Act. This permit application includes a proposed safe harbor agreement (agreement) between the applicant and the Service. The agreement and permit application are available for public comment.

Availability of Documents

You may obtain copies of the documents for review by using one of the methods in **ADDRESSES**, or by contacting the individual named in the **FOR FURTHER INFORMATION CONTACT** section. You also may make an appointment to view the documents at the Ventura Fish and Wildlife Office (see **ADDRESSES**) during normal business hours.

Background

Under a safe harbor agreement, participating landowners voluntarily undertake management activities on their property to enhance, restore, or maintain habitat benefiting species listed under the Act (16 U.S.C. 1531 *et seq.*). Safe harbor agreements, and the subsequent permits that are issued under section 10(a)(1)(A) of the Act, encourage private and other non-Federal property owners to implement conservation efforts for listed species by assuring property owners that they will not be subjected to increased land use

restrictions as a result of efforts to attract or increase the numbers or distribution of a listed species on their property. Application requirements and issuance criteria for permits through safe harbor agreements are found in 50 CFR 17.22(c) and 50 CFR 17.32(c).

We have worked with the applicant to develop the proposed agreement for the conservation of the Smith's blue butterfly and California red-legged frog on the property subject to the agreement (enrolled property), which is owned and managed by the applicant. The enrolled property is Garrapata State Park in Monterey County, California. Within the 2,902 acres of land within the enrolled property, habitat for the Smith's blue butterfly and California red-legged frog will be restored, enhanced, and managed under a written agreement between the applicant and Service. We expect that the activities proposed in the agreement will result in an increase in suitable habitat for these species and provide for their increase in number and their expansion into additional areas that are currently not occupied, thus resulting in a net conservation benefit for these species.

The agreement provides for the restoration, enhancement, and management of habitat suitable for the Smith's blue butterfly and California red-legged frog at the enrolled property. The proposed duration of the agreement is 15 years, and the proposed term of the enhancement of survival permit is 15 years. The agreement fully describes the proposed management activities to be undertaken by the applicant and the net conservation benefits expected to be gained for the Smith's blue butterfly and California red-legged frog.

Upon approval of the agreement and satisfactory completion of all other applicable legal requirements, and consistent with the Service's Safe Harbor Policy published in the **Federal Register** on June 17, 1999 (64 FR 32717), the Service would issue a permit to the applicant authorizing take of the Smith's blue butterfly and California red-legged frog incidental to the implementation of the management activities specified in the agreement; incidental to surveys and monitoring; and incidental to the return to pre-agreement conditions (baseline).

Management activities included in the agreement will provide for the restoration, enhancement, and management of native habitats within the enrolled property. The objective of such activities is to enhance the populations of Smith's blue butterflies and California red-legged frogs by increasing the quality and quantity of suitable habitat on the enrolled

property. Take of Smith's blue butterflies and California red-legged frogs incidental to the aforementioned activities is unlikely; however, it is possible that in the course of such activities or other lawful activities on the enrolled property, the applicant could incidentally take Smith's blue butterflies or California red-legged frogs thereby necessitating take authority under the permit.

Baseline conditions have been determined for the enrolled property based on the occurrence of the Smith's blue butterfly and California red-legged frog and the extent of suitable habitat for the respective species as provided in the agreement. The applicant must maintain baseline conditions on the enrolled property in order to receive coverage regarding incidental take of Smith's blue butterflies and California red-legged frogs. The agreement and requested permit would allow the applicant to return to baseline conditions after the end of the term of the agreement and prior to the expiration of the 15-year permit, if so desired by the applicant.

Public Review and Comments

The Service has made a preliminary determination that the proposed agreement and permit application are eligible for categorical exclusion under the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*). We explain the basis for this determination in an Environmental Action Statement, which also is available for public review.

Individuals wishing copies of the permit application, copies of our draft Environmental Action Statement, and copies of the agreement, including a map of the proposed permit area, should contact the Ventura Fish and Wildlife Office (see **ADDRESSES**).

If you wish to comment on the permit application or the agreement, you may submit your comments to one of the addresses listed in the **ADDRESSES** section of this document. Comments and materials received, including names and addresses of respondents, will be available for public review, by appointment, during normal business hours at the address in the **ADDRESSES** section above and will become part of the public record, under section 10(c) of the Act.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying

information from public review, we cannot guarantee that we will be able to do so.

We will evaluate this permit application, associated documents, and comments we receive to determine whether the permit application meets the requirements of section 10(a) of the Act and NEPA regulations. If we determine that the requirements are met, we will sign the proposed agreement and issue an enhancement of survival permit under section 10(a)(1)(A) of the Act to the applicant for take of the Smith's blue butterfly and California red-legged frog incidental to otherwise lawful activities in accordance with the terms of the agreement. We will not make our final decision until after the end of the 30-day comment period and will fully consider all comments we receive during the comment period.

The Service provides this notice under section 10(c) of the Act and under implementing regulations for NEPA (40 CFR 1506.6).

Stephen P. Henry,

Field Supervisor, Ventura Fish and Wildlife Office.

Agency Information Collection Activities: Request for Comments

AGENCY: U.S. Geological Survey (USGS), Interior.

ACTION: Notice of a revision of a currently approved information collection, 1028-0048, Did You Feel It? Earthquake.

SUMMARY: We (the U.S. Geological Survey) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act (PRA) of 1995, and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This collection is scheduled to expire on May 31, 2015.

DATES: To ensure that your comments are considered, we must receive them on or before April 6, 2015.

ADDRESSES: You may submit comments on this information collection to the Information Collection Clearance
