[Docket No. DEA-392]

**Importer of Controlled Substances  
Registration: Cerilliant Corporation**

**ACTION:** Notice of registration.

**SUMMARY:** Cerilliant Corporation applied to be registered as an importer of basic classes of controlled substances. The DEA grants Cerilliant Corporation registration as an importer of the controlled substances.

**SUPPLEMENTARY INFORMATION:** By notice dated September 25, 2014, and

published in the **Federal Register** on October 7, 2014, 79 FR 60499, Cerilliant Corporation, 811 Paloma Drive, Suite A, Round Rock, Texas 78665-2402, applied to be registered as an importer of certain basic classes of controlled substances. No comments or objections were submitted for this notice. Comments and requests for hearings on applications to import narcotic raw material are not appropriate. 72 FR 3417, (January 25, 2007).

The Drug Enforcement Administration (DEA) has considered the factors in 21 U.S.C. 823, 952(a) and 958(a) and determined that the registration of Cerilliant Corporation to import the basic classes of controlled

substances is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on May 1, 1971. The DEA investigated the company's maintenance of effective controls against diversion by inspecting and testing the company's physical security systems, verifying the company's compliance with state and local laws, and reviewing the company's background and history.

Therefore, pursuant to 21 U.S.C. 952(a) and 958(a), and in accordance with 21 CFR 1301.34, the above-named company is granted registration as an importer of the basic classes of controlled substances:

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

Under section 101 of the Federal Mine Safety and Health Act of 1977, a mine

operator may petition and the Secretary of Labor (Secretary) may modify the application of a mandatory safety standard to that mine if the Secretary determines that: (1) An alternative method exists that will guarantee no less protection for the miners affected than that provided by the standard; or (2) that the application of the standard will result in a diminution of safety to the affected miners.

MSHA bases the final decision on the petitioner’s statements, any comments and information submitted by interested persons, and a field investigation of the conditions at the mine. In some instances, MSHA may approve a petition for modification on the condition that the mine operator complies with other requirements noted in the decision.
