

and approval by the representatives of appropriate federal, state and local agencies. The permittee shall allow duly authorized officers and employees of such agencies free and unrestricted access to said facilities in the performance of their official duties.

Article 3. The permittee shall comply with all applicable federal, state, and local laws and regulations regarding the connection, operation, and maintenance of the United States facilities and with all applicable industrial codes. The permittee shall obtain all requisite permits from state and local government entities and relevant federal agencies.

Article 4. Connection, operation, and maintenance of the United States facilities hereunder shall be subject to the limitations, terms, and conditions issued by any competent agency of the United States Government. The permittee shall continue the operations hereby authorized and conduct maintenance in accordance with such limitations, terms, and conditions. Such limitations, terms, and conditions could address, for example, environmental protection and mitigation measures, safety requirements, export or import and customs regulations, measurement capabilities and procedures, requirements pertaining to the pipeline's capacity, and other pipeline regulations.

Article 5. Upon the termination, revocation, or surrender of this permit, and unless otherwise agreed by the Secretary of State or the Secretary's delegate, the United States facilities in the immediate vicinity of the international boundary shall be removed by and at the expense of the permittee within such time as the Secretary of State or the Secretary's delegate may specify, and upon failure of the permittee to remove, or to take such other action with respect to, this portion of the United States facilities as ordered, the Secretary of State or the Secretary's delegate may direct that possession of such facilities be taken and that they be removed or other action taken, at the expense of the permittee; and the permittee shall have no claim for damages by reason of such possession, removal, or other action.

Article 6. When, in the opinion of the President of the United States, the national security of the United States demands it, due notice being given by the Secretary of State or the Secretary's delegate, the United States shall have the right to enter upon and take possession of any of the United States facilities or parts thereof; to retain possession, management, or control thereof for such length of time as may appear to the President to be necessary;

and thereafter to restore possession and control to the permittee. In the event that the United States shall exercise such right, it shall pay to the permittee just and fair compensation for the use of such United States facilities upon the basis of a reasonable profit in normal conditions, and the cost of restoring said facilities to as good condition as existed at the time of entering and taking over the same, less the reasonable value of any improvements that may have been made by the United States.

Article 7. Any change of ownership or control of the United States facilities or any part thereof shall be immediately notified in writing to the United States Department of State, including the submission of information identifying the new owner or controlling entity. This permit shall remain in force subject to all the conditions, permissions and requirements of this permit and any amendments thereto unless subsequently terminated or amended by the Secretary of State or the Secretary's delegate.

Article 8. (1) The permittee is responsible for acquiring any right-of-way grants or easements, permits, and other authorizations as may become necessary and appropriate.

(2) The permittee shall save harmless and indemnify the United States from any claimed or adjudged liability arising out of construction, connection, operation, or maintenance of the facilities, including but not limited to environmental contamination from the release or threatened release or discharge of hazardous substances and hazardous waste.

(3) The permittee shall maintain the United States facilities and every part thereof in a condition of good repair for their safe operation, and in compliance with prevailing environmental standards and regulations.

Article 9. The permittee shall take all necessary measures to prevent or mitigate adverse impacts on, or disruption of, the human environment in connection with connection, operation and maintenance of the United States facilities. Such measures will include any mitigation and control plans that are already approved or that are approved in the future by the Department of State or other relevant federal or state agencies, and any other measures deemed prudent by the permittee.

Article 10. The permittee shall file with the appropriate agencies of the United States Government such statements or reports under oath with respect to the United States facilities, and/or permittee's activities and operations in connection therewith as

are now, or may hereafter, be required under any laws or regulations of the United States Government or its agencies. The permittee shall file electronic Export Information where required.

Article 11. The permittee shall provide information upon request to the Department of State with regard to the United States facilities. Such requests could include, for example, information concerning current conditions or anticipated changes in ownership or control, construction, connection, operation, or maintenance of the U.S. facilities.

IN WITNESS WHEREOF, I, the Under Secretary of State for Economic Growth, Energy, and the Environment, have hereunto set my hand this 19th day of November, 2014 in the City of Washington, District of Columbia.  
Catherine A. Novelli

**FOR FURTHER INFORMATION CONTACT:**

Blane Workie or Daeleen Chesley, Office of the Secretary, Office of the Assistant General Counsel for Aviation Enforcement and Proceedings (C-70), Department of Transportation, 1200 New Jersey Ave. SE., Washington, DC 20590, 202 366-9342 (voice) or at [Blane.Workie@dot.gov](mailto:Blane.Workie@dot.gov) or [Daeleen.Chesley@dot.gov](mailto:Daeleen.Chesley@dot.gov).

**SUPPLEMENTARY INFORMATION:**

**Title:** Renewal of Aviation Consumer Protection Division Webpage On-Line Complaint Form.

**OMB Control Number:** 2105-0568.

**Type of Request:** Request to renew an OMB control number for a current information collection form.

**Abstract:** The Department of Transportation's (Department) Office of the Assistant General Counsel for Aviation Enforcement and Proceedings (Enforcement Office) has broad authority under 49 U.S.C., Subtitle VII, to investigate and enforce consumer protection and civil rights laws and regulations related to air transportation. The Enforcement Office, including its Aviation Consumer Protection Division (ACPD), monitors compliance with and investigates violations of the Department of Transportation's aviation economic, consumer protection, and civil rights requirements.

Among other things, the office is responsible for receiving and investigating service-related consumer complaints filed against airlines and other travel-related companies. Once received, the complaints are reviewed by the office to determine the extent to which these entities are in compliance with federal aviation consumer

protection and civil rights laws and what, if any, action should be taken.

The key reason for this request is to enable consumers to continue to file their complaints (or comments) to the Department using an on-line form, whether via their personal computer or on their mobile device. If the information collection form is not available, the Department may receive fewer complaints from consumers. The lack of consumer-driven information could inhibit the office's ability to effectively investigate both individual complaints against airlines and other air travel-related companies. It would also impact the Department's Enforcement Office's ability to become aware of patterns and practices that may develop in violation of our rules. The information collection continues to further the objectives of 49 U.S.C. 41712, 40101, 40127, 41702, and 41705 to protect consumers from unfair or deceptive practices, to protect the civil rights of air travelers, and to ensure safe and adequate service in air transportation.

Filing a complaint using a web-based form is voluntary and minimizes the burden on respondents. Based on CY14 information, 14,479 of the 17,308 cases filed with the ACPD were filed electronically (83.7%). Consumers can also choose to file a complaint with the Department using regular mail or by phone message. The type of information requested on the form includes complainant's name, address, phone number (including area code), email address, and name of the airline or company about which she/he is complaining, as well as the flight date and flight itinerary (where applicable) of complainant's trip. A consumer may also use the form to give a description of a specific air-travel related problem or to ask for air-travel related information from the ACPD. The Department has limited its informational request to that necessary to meet its program and administrative monitoring and enforcement activities.

**Respondents:** Consumers that Choose to File an On-Line Complaint with the Aviation Consumer Protection Division.

**Estimated Number of Respondents:** 14,479 (based on CY 2014 data).

**Estimated Total Burden on Respondents:** 3,619.75 hours, 217,185 minutes (based on 15 minutes per respondent to fill out the on-line form).

The information collection is available for inspection in [regulations.gov](http://www.regulations.gov), as noted in the **ADDRESSES** section of his document.

**Comments are Invited on:** (a) Whether the collection of information is necessary for the proper performance of
