

No. 47) to exclude evidence and testimony concerning their redesigns, and the ALJ's refusal to make a determination as to whether those redesigns infringe the asserted claims of the '712 patent. Responses to the petitions were filed on October 22, 2014.

On December 2, 2014, the Commission determined to review the final ID in part and requested briefing on issues it determined to review, and on remedy, the public interest, and bonding. 79 *Fed. Reg.* 72700-02 (Dec. 8, 2014). Specifically, with respect to the '712 patent, the Commission determined to review: (1) The ID's construction of the "exhaust" and "exhaust means" limitations in claims 10 and 16, and related findings regarding infringement of claims 10-16; (2) the ID's findings regarding infringement of claims 1, 4, and 6-8 by the accused Dyna-Glo grills imported by respondent GHP Group, Incorporated; (3) the ID's findings regarding infringement of claims 1, 2, 4-8, 10, 11, and 13-15 by the accused Char-Broil Model No. 463724512 grill; and (4) the ID's finding that the '712 patent was not shown to be invalid.

On December 12, 2014, A&J and OUII each filed initial written submissions regarding issues on review, remedy, the public interest, and bonding. On the same day, the respondents jointly filed their initial written submission regarding issues on review, remedy, the public interest, and bonding. Responses to the initial written submissions were filed on December 19, 2014.

Having examined the record of this investigation, including the parties' submissions and responses thereto, the Commission has determined that 35 U.S.C. 112, ¶ 6 applies to the "exhaust means" and "exhaust" limitations in claims 10 and 16. Based on the Commission's interpretation of claims 10-16, the Commission has determined (i) that the accused Brinkmann 810-3821 grill infringes claims 10, 11, 13, 15, and 16; (ii) that the accused Academy/Huige grills infringe claims 10-13, 15, and 16; and (iii) that the other accused Brinkmann grills, the OLP/Kingsun redesigned grills, the OLP/Kingsun original grills, and the Char-Broil/Fudeer grills do not infringe any of claims 10-16 of the '712 patent. The Commission vacates the ID's finding that the DGB730SNB-D grill does not infringe claims 1, 4, and 6-8 of the '712 patent. The Commission also reverses the ID's finding that the DGJ810CSB-D grill does not infringe claims 1, 4, and 6-8 of the '712 patent. With respect to the accused Char-Broil/Fudeer grill, Model No. 463724512, the Commission has determined to affirm, with modified

reasoning, the ID's finding that the grill does not infringe any asserted claims of the '712 patent. The Commission has further determined to affirm, with modified reasoning, the ID's finding that the asserted claims of the '712 patent have not been proven invalid as obvious. Accordingly, the Commission has found a violation of section 337 as to respondents Brinkmann, OLP, Kingsun, Academy, and Huige, and defaulted respondent Keesung.

The Commission has determined that the appropriate form of relief is a limited exclusion order prohibiting the unlicensed entry of covered multiple mode outdoor grills and parts thereof manufactured by, for, or on behalf of Brinkmann, OLP, Kingsun, Academy, Huige, and Keesung, or any of their affiliated companies, parents, subsidiaries, licensees, or other related business entities, or their successors or assigns. The Commission has also determined to issue cease and desist orders prohibiting Brinkmann, OLP, and Academy from further importing, selling, and distributing articles that infringe certain claims of the '712 patent in the United States. The orders include the following exemptions: (1) Conduct licensed or authorized by the owner of the '712 patent; (2) conduct related to covered products imported by or for the United States; and (3) the importation, distribution, and sale of parts for use in the maintenance, service, or repair of covered products purchased prior to the effective date of the orders. The Commission has carefully considered the submissions of the parties and has determined that the public interest factors enumerated in section 337(d)(1), (f)(1), and (g)(1) do not preclude issuance of its orders.

Finally, the Commission has determined that excluded multiple mode outdoor grills and parts thereof may be imported and sold in the United States during the period of Presidential review (19 U.S.C. 1337(j)) with the posting of a bond of 100 percent of the entered value for all covered articles manufactured by, for, or on behalf of Keesung, and the posting of a bond of zero percent for all covered articles manufactured by, for, or on behalf of Brinkmann, OLP, Kingsun, Academy, and Huige. The Commission's Orders and Opinion were delivered to the President and to the United States Trade Representative on the day of their issuance.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of

Practice and Procedure (19 CFR part 210).

Issued: February 3, 2015.

By order of the Commission.

Lisa R. Barton,

Secretary to the Commission.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-295 and 50-304; NRC-2015-0024]

ZionSolutions, LLC, Zion Nuclear Power Station, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an exemption in response to an October 27, 2014, request from ZionSolutions, LLC (ZS), for Zion Nuclear Power Station (ZNPS), Units 1 and 2 (Docket Nos. 50-295 and 50-304), from the requirement to investigate and report to the NRC when ZS does not receive notification or receipt of a shipment, or part of a shipment, of low-level radioactive waste within 20 days after transfer.

ZionSolutions is currently in the process of decommissioning the ZNPS site. Inherent to the decommissioning process, large volumes of slightly contaminated debris are generated and require disposal at distant locations. Historical data from the experiences of other decommissioning reactor sites indicates that rail transportation time to waste disposal facilities frequently exceeded the 20-day reporting requirement. The licensee requested that the time period for it to receive acknowledgement that the shipment has been received by the intended recipient be extended from 20 to 45 days to avoid an excessive administrative burden because of required investigations and reporting arising from rail shipments that frequently take more than 20 days to reach their destination.
