

Designated Areas

There is a need to update direction for managing designated Inventoried Roadless Areas, eligible Wild and Scenic Rivers, designated Research Natural Areas, and for managing designated wilderness.

There is a need to provide direction on management of areas that may be recommended for wilderness, during the interim period while Congress is considering designation.

There is a need to provide direction for areas that may be recommended for various other designations.

Infrastructure

There is a need to update direction on the management of infrastructure and for road maintenance in watersheds identified as being impaired or at-risk.

Land Status and Ownership, Use and Access

There is a need to update direction for obtaining legal access that addresses public, private landowner, tribal, land grant, and management needs and for progressing toward a contiguity of the land base and a reduction of small unmanageable tracts.

Energy, Minerals and Special Uses

There is a need to provide updated direction regarding management of recreational mining, mineral exploration and extraction, and the use of common minerals.

There is a need to update plan direction for managing existing or proposed transmission corridors and renewable energy generation.

There is a need to provide direction addressing safety concerns pertinent to maintenance activities associated with existing energy and communication corridors.

Public Involvement

The Cibola NF initiated public engagement activities in October 2012 and held 29 public meetings and collaborative work sessions through July 2014 to explain the plan revision process and to solicit comments, opinions, data, and ideas from members of the public, governmental entities, tribes, land grants, and non-governmental organizations. Six of these meetings introduced and explained the Cibola's Forest Plan revision effort and called for input and data pertinent to the assessment of conditions, trends, and risks to sustainability. Ten meetings were held to explain the draft assessment report subsequent to its release in April 2014 and to solicit comments, and 13 collaborative work sessions followed, focusing on the needs

for change to the 1985 Cibola Forest Plan, based on findings from the assessment and comments received. Attendance at the 29 meetings numbered approximately 600, and nearly 1,800 comment letters or forms were received either at the meetings or by email, postal mail, Web-form, or a Web-based interactive mapping tool. Comments received were displayed on Web-based public reading rooms. Public input on both the assessment report and initial needs-for-change statements was used to update both documents. Information to the public was provided by a dedicated Forest Plan revision Web page and through mailings, flyers, news releases, Twitter, and radio and television interviews. Any comments related to the Cibola's assessment report that are received following the publication of this Notice may be considered in the affected environment sections of the draft and final environmental impact statements.

Scoping Process

Written comments received in response to this notice will be analyzed to complete the identification of the needs for change to the existing plan, further develop the proposed action (initial development of the proposed revised plan), and identify potential significant issues. Significant issues will, in turn, form the basis for developing alternatives to the proposed action. Comments on the preliminary needs for change and proposed action will be most valuable if received by April 3, 2015, and should clearly articulate the reviewer's opinions and concerns. Development of the proposed revised plan and associated EIS will occur with opportunities for public engagement throughout the revision process.

Comments received in response to this notice, including the names and addresses of those who comment, will be part of the public record. Comments submitted anonymously will be accepted and considered in the NEPA process; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent environmental documents. See the below Objection process material, particularly the requirements for filing an objection, for how anonymous comments are handled during the objection process. Refer to the Forest's Web site http://www.fs.usda.gov/detail/cibola/landmanagement/planning/?cid=fsbdev3_065627 for information on when public meetings will be scheduled for refining the proposed action and

identifying possible alternatives to the proposed action.

Applicable Planning Rule

Preparation of the revised Forest Plan for the Cibola National Forest began with the assessment of the conditions and trends of the Forest's ecological, social, and economic resources, initiated under the planning procedures contained in the 2012 Forest Service planning rule (36 CFR 219 (2012)).

Permits or Licenses Required To Develop the Proposed Action

No permits or licenses are needed for the development or revision of a forest plan.

Decisions Will Be Subject to Objection

The decision to approve the revised Forest Plan for the Cibola National Forest Mountain Ranger Districts will be subject to the objection process identified in 36 CFR part 219 Subpart B (219.50 to 219.62). According to 36 CFR 219.53(a), those who may file an objection are individuals and entities who have submitted substantive formal comments related to plan revision during the opportunities provided for public comment during the planning process.

Documents Available for Review

The Needs for Change documentation, the Assessment Report including specialist reports, summaries of the public meetings and public meeting materials, and public comments are posted on the Forest's Web site at: http://www.fs.usda.gov/detail/cibola/landmanagement/planning/?cid=fsbdev3_065627.

As necessary or appropriate, the material available on this site will be further adjusted as part of the planning process using the provisions of the 2012 planning rule.

Authority: 16 U.S.C. 1600–1614; 36 CFR part 219 [77 FR 21260–21273].

Responsible Official.

Dated: February 2, 2015.

Elaine Kohrman,
Forest Supervisor.

BILLING CODE 3410–11–P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of

information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Region Logbook Family of Forms.

OMB Control Number: 0648–0213.

Form Number(s): None.

Type of Request: Regular (revision and extension of a currently approved information collection).

Number of Respondents: 543.

Average Hours per Response: Catcher Vessel trawl gear daily fishing logbook (DFL), 18 minutes per active response and 5 minutes per inactive response; Catcher vessel longline or pot gear DFL, 28 minutes per active response and 5 minutes per inactive response; 41 minutes per active response and 5 minutes per inactive response for Catcher/processor Longline and Pot Gear daily cumulative production logbook (DCPL); 23 minutes for Buying Station Report; 5 minutes for Shoreside Processor Check-in/Check-out Report; 20 minutes for Product Transfer Report and 14 minutes for Vessel Activity Report.

Burden Hours: 12,510.

Needs and Uses: The Magnuson-Stevens Fishery Conservation and Management Act 16 U.S.C. 1801 *et seq.* authorizes the North Pacific Fishery Management Council (Council) to prepare and amend fishery management plans for any fishery in waters under its jurisdiction. National Marine Fisheries Service, Alaska Region (NMFS) manages: (1) The crab fisheries in the Exclusive Economic Zone (EEZ) waters off the coast of Alaska under the Fishery Management Plan for Bering Sea and Aleutian Islands Crab; (2) groundfish under the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Management Area; and (3) groundfish under the Fishery Management Plan for Groundfish of the Gulf of Alaska. The International Pacific Halibut Commission (IPHC) and NMFS manage fishing for Pacific halibut (*Hippoglossus stenolepis*) through regulations established under the authority of the Northern Pacific Halibut Act of 1982. The IPHC promulgates regulations governing the halibut fishery under the Convention between the United States and Canada for the Preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea.

Vessels required to have a Federal Fisheries Permit (FFP) are issued free daily fishing DFLs for harvesters and DCPLs for processors to record groundfish, Crab Rationalization Program (CR) crab, Individual Fishing

Quota (IFQ) halibut, IFQ sablefish, Western Alaska Community Development Quota Program (CDQ) halibut, and prohibited species catch (PSC) information. Catcher vessels under 60 ft (18.3 m) length overall are not required to maintain DFLs. Multiple self-copy logsheets within each logbook are available for distribution to the harvester, processor, observer program, and NOAA Fisheries Office for Law Enforcement. The longline or pot gear logbooks have an additional logsheet for submittal to the IPHC.

In addition to the logbooks, this collection includes the buying station report, check-in/out for shoreside processors, product transfer report, and U.S. vessel activity report.

Revision: Paper logbooks for catcher processors with trawl gear and motherhips have been discontinued and replaced by eLogs in OMB Control No. 0648–0515.

Affected Public: Business and other for-profit organizations; individuals or households.

Frequency: Daily and on occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Dated: February 4, 2015.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Cooperative Game Fish Tagging Report.

OMB Control Number: 0648–0247.

Form Number(s): NOAA 88–162.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 10,000.

Average Hours per Response: 2 minutes.

Burden Hours: 333.

Needs and Uses: This request is for extension of a current information collection.

The Cooperative Game Fish Tagging Program was initiated in 1971 as part of a comprehensive research program resulting from passage of Public Law 86–359, Study of Migratory Game Fish, and other legislative acts under which the National Marine Fisheries Service (NMFS) operates. The Cooperative Tagging Center attempts to determine the migration patterns of, and other biological information for, billfish, tunas, and swordfish. The fish tagging report is provided to the angler with the tags, and he/she fills out the card with the information when a fish is tagged and mails it to NMFS. Information on each species is used by NMFS to determine migratory patterns, distance traveled, stock boundaries, age, and growth. These data are necessary input for developing management criteria by regional fishery management councils, states, and NMFS.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Dated: February 4, 2015.
