SUPPLEMENTARY INFORMATION: Under the PRA of 1995 (Pub. L. 104–13; 44 U.S.C. 3501–3521), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, VHA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of VHA’s functions, including whether the information will have practical utility; (2) the accuracy of VHA’s estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

Title: Using Peer Mentors to Support PACT Team Efforts to Improve Diabetes.
OMB Control Number: 2900–NEW.
Type of Review: New Data Collection.

Abstract: This project is being conducted under the auspices of the VISN 4 Demonstration Lab, which was funded by Patient Care Services to assess the Patient Aligned Care Team (PACT) model of care for Veterans. There is considerable interest in and urgency to implement the PACT model—reflecting both a desire to improve health care for Veterans and to sustain the VA’s leadership in health care quality. This study aims to contribute to these goals by evaluating the effects of the VA PACT initiative and by test new, innovative strategies for patient care that can be spread if proven effective.
