DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request Renewal From OMB of One Current Public Collection of Information: Baseline Assessment for Security Enhancement (BASE) Program

AGENCY: Transportation Security
Administration, DHS.

ACTION: 60-day notice.

SUMMARY: The Transportation Security
Administration (TSA) invites public
comment on one currently approved
Information Collection Request (ICR),
Office of Management and Budget
(OMB) control number 1652-0062
abstracted below that we will submit to
OMB for revision in compliance with
the Paperwork Reduction Act (PRA).
TSA has combined two previously-
approved ICRs (1652-0061 and 1652-
0062) into this single request to simplify
the collection, increase transparency,
and reduce duplicative efforts. TSA
assesses the current security practices in
the transit and passenger rail and
highway and motor carrier industries by
way of its Baseline Assessment for
Security Enhancement (BASE) program,
which encompasses site visits and

interviews, and is part of the larger
domain awareness, prevention, and
protection program supporting TSA's
and the Department of Homeland
Security's (DHS) missions. This
voluntary collection allows TSA to
conduct transportation security-related
assessments during site visits with
surface transportation security and
operating officials.

DATES: Send your comments by April
13, 2015.

ADDRESSES: Comments may be emailed
to TSAPRA@tsa.dhs.gov or delivered to
the TSA PRA Officer, Office of
Information Technology (OIT), TSA-11,
Transportation Security Administration,
601 South 12th Street, Arlington, VA
20598-6011.

FOR FURTHER INFORMATION CONTACT:
Christina A. Walsh at the above address,
or by telephone (571) 227-2062.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork
Reduction Act of 1995 (44 U.S.C. 3501
et seq.), an agency may not conduct or
sponsor, and a person is not required to
respond to, a collection of information
unless it displays a valid OMB control
number. The ICR documentation is
available at <http://www.reginfo.gov>.
Therefore, in preparation for OMB
review and re-approval of the following
voluntary information collection, TSA is
soliciting comments to—

- (1) Evaluate whether the proposed
information request is necessary for the
proper performance of the functions of
the agency, including whether the
information will have practical utility;
- (2) Evaluate the accuracy of the
agency's estimate of the burden;
- (3) Enhance the quality, utility, and
clarity of the information to be
collected; and
- (4) Minimize the burden of the
collection of information on those who
are to respond, including using
appropriate automated, electronic,
mechanical, or other technological
collection techniques or other forms of
information technology.

Information Collection Requirement

Purpose of Data Collection

Under the Aviation and
Transportation Security Act (ATSA) and
delegated authority from the Secretary
of Homeland Security, TSA has broad
responsibility and authority for
“security in all modes of transportation
including security responsibilities over
modes of transportation that are
exercised by the Department of

Transportation.”¹ TSA is required to
“assess the security of each surface
transportation mode and evaluate the
effectiveness and efficiency of current
Federal Government surface
transportation security initiatives.” E.O.
13416, sec. 3(a) (Dec. 5, 2006). TSA is
also specifically empowered to develop
policies, strategies, and plans for
dealing with threats to transportation,²
ensure the adequacy of security
measures for the transportation of
cargo,³ oversee the implementation and
ensure the adequacy of security
measures at transportation facilities,⁴
and carry out other appropriate duties
relating to transportation security.⁵

TSA developed the Baseline
Assessment for Security Enhancement
(BASE) program in 2007, in an effort to
engage with surface transportation
entities to establish a “baseline” of
security and emergency response
operations. This program was initially
created for Public Transportation (PT)
BASE systems. However, based on the
success of the program, TSA developed
the Highway (HWY) BASE program in
2012, with full implementation in 2013.
This voluntary program has served to
evaluate and collect physical and
operational preparedness information
and critical assets and key point-of-
contact lists. The program also reviews
emergency procedures and domain
awareness training, and provides an
opportunity to share industry best
practices.

While many public transportation
systems have security and emergency
response plans or protocols in place,
there is no consistent approach to
evaluating the extent to which security
programs exist, nor the content of those
programs. As a result, there also are no
consistent data about these
transportation security programs, nor a
database that can be used to benchmark
the programs. The BASE program is
designed to address these issues.

¹ See Public Law 107-71, 115 Stat. 597 (Nov. 19,
2001), codified at 49 U.S.C. 114(d). The TSA
Administrator's current authorities under ATSA
have been delegated to him by the Secretary of
Homeland Security. Section 403(2) of the Homeland
Security Act (HSA) of 2002, Public Law 107-296,
116 Stat. 2315 (2002), transferred all functions of
TSA, including those of the Secretary of
Transportation and the Under Secretary of
Transportation of Security related to TSA, to the
Secretary of Homeland Security. Pursuant to DHS
Delegation Number 7060.2, the Secretary delegated
to the Assistant Secretary (now referred to as the
Administrator of TSA), subject to the Secretary's
guidance and control, the authority vested in the
Secretary with respect to TSA, including that in sec.
403(2) of the HSA.
