Consolidated Federal Oil & Gas and Federal & Indian Coal Valuation Reform

AGENCY: Office of Natural Resources Revenue, Interior.

ACTION: Proposed rule; notice of extension of comment period.

SUMMARY: The Office of Natural Resources Revenue (ONRR) published a notice of proposed rulemaking in the **Federal Register** on January 6, 2015, (80 FR 608). ONRR invited the public to submit written comments by March 9, 2015. ONRR is granting a 60-day extension to the comment period in response to stakeholder requests.

DATES: You must submit comments on or before May 8, 2015.

ADDRESSES: You may submit comments to ONRR on the proposed rulemaking, as follows: (1) Electronically go to www.regulations.gov and enter "ONRR-2012-0004" in "Enter Keyword or ID," then click "Search;" (2) mail comments to Armand Southall, Regulatory Specialist, P.O. Box 25165, MS 61030A, Denver, Colorado 80225; or (3) hand-carry comments, or use an overnight courier service, to ONRR, Building 85, Room A-614, Denver Federal Center, West 6th Ave. and Kipling St., Denver, Colorado 80225. Please refer to the Regulation Identifier Number (RIN) 1012-AA13 in your comments. ONRR will post all comments.

FOR FURTHER INFORMATION CONTACT: Armand Southall, ONRR, telephone (303) 231-3221 or email armand.southall@onrr.gov.

SUPPLEMENTARY INFORMATION: The current Federal oil valuation regulations have been in effect since 2000, with a subsequent amendment relating, primarily, to the use of index pricing in some circumstances. The current Federal gas valuation regulations have been in effect since March 1, 1988, with various subsequent amendments relating, primarily, to the transportation allowance provisions. The current Federal and Indian coal valuation regulations have been in effect since March 1, 1989, with minor subsequent amendments relating, primarily, to the Federal black lung excise taxes, abandoned mine lands fees, State and local severance taxes, and washing and transportation allowance provisions. In the years since we wrote these regulations, the Secretary of the Interior's (Secretary) responsibility to determine the royalty value of minerals produced has not changed, but the industry and marketplace have changed dramatically. ONRR proposes these amendments to our valuation regulations to permit the Secretary to discharge the Department of the Interior's (Department) royalty valuation responsibility in an environment of continuing and accelerating change in the industry and in the marketplace. The Secretary's responsibilities regarding oil and gas production from Federal leases and coal production from

Federal and Indian leases require the development of flexible valuation methodologies that lessees can accurately comply with in a timely manner.

To increase the effectiveness and efficiency of our rules, ONRR is proposing proactive and innovative changes. We intend for this proposed rulemaking to provide regulations that (1) offer greater simplicity, certainty, clarity, and consistency in product valuation for mineral lessees and mineral revenue recipients; (2) are more understandable; (3) decrease industry's cost of compliance and ONRR's cost to ensure industry compliance; and (4) provide early certainty to industry and to ONRR that companies have paid every dollar due. Therefore, ONRR proposes to amend the current regulations at 30 CFR part 1202, subpart F, and part 1206, subparts C, D, F, and J, governing the valuation, for royalty purposes, of oil, gas, and coal produced from Federal leases and coal produced from Indian leases.

ONRR received requests for an extension to the comment deadline for this proposed rule. This action extends the comment period until May 8, 2015. ONRR believes that this extension allows adequate time for interested parties to submit comments. ONRR will review and carefully consider all comments that we receive on the proposed rule.

Dated: February 6, 2015.

Gregory J. Gould,

Director, Office of Natural Resources Revenue.

Special Local Regulations and Safety Zones; Recurring Marine Events and Fireworks Displays Within the Fifth Coast Guard District

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to amend the regulations established for recurring marine events and fireworks displays that take place within the Fifth Coast Guard District area of responsibility. Under that rule, the list

of recurring marine events requiring special local regulations or safety zones is updated with revisions, additional events, and removal of events that no longer take place in the Fifth Coast Guard District. When these regulations are enforced, certain restrictions are placed on marine traffic in specified areas. This rulemaking project promotes efficiency by eliminating the need to produce a separate rule for each individual recurring event, and serves to provide notice of the known recurring events requiring a special local regulation or safety zone throughout the year.

DATES: Comments and related material must be received by the Coast Guard on or before March 16, 2015.

ADDRESSES: You may submit comments identified by docket number using any one of the following methods:

(1) Federal eRulemaking Portal:

<http://www.regulations.gov>.

(2) Fax: 202-493-2251.

(3) Mail or Delivery: Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590-0001. B. Regulatory History and Information

The special local regulations listed in 33 CFR 100.501 and safety zones listed in 33 CFR 165.506 were last amended on July 21, 2014 (79 FR 42197).

C. Basis and Purpose

This rulemaking is authorized by 33 U.S.C. 1231, 1233; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6, 160.5; Public Law 107-295, 116 Stat. 2064; and DHS Delegation No. 0170.1. It updates the list of permanent special local regulations at 33 CFR 100.501 and safety zones at 33 CFR 165.506, established for recurring marine events and fireworks displays at various locations within the Fifth Coast Guard District area of responsibility (AOR). The Fifth Coast Guard District AOR is defined in 33 CFR 3.25.

Publishing these regulatory updates in a single rulemaking promotes efficiency and provides the public with notice through publication in the **Federal Register** of the upcoming recurring marine events and fireworks displays and their accompanying regulations, special local regulations, and safety zones.

D. Discussion of Proposed Rule

Special Local Regulations

This rule would add 2 new special local regulations for marine events, remove 1 regulation and revise 10 previously established regulations for marine events listed in the Table to § 100.501. Other than changes to the dates and locations of certain events, the other provisions in 33 CFR 100.501 remain unchanged.

The Coast Guard proposes to revise regulations at 33 CFR 100.501 by adding 2 new special local regulations. The proposed special local regulations are listed in TABLE 1, including reference

by section as printed in the TABLE to § 100.501.

TABLE 1
[Special local regulated areas added to 33 CFR 100.501]

	Table to § 100.501 section	Location
1	(b.) 12	Rock Hall Harbor, Rock Hall, MD.
2	(b.) 23	Nanticoke River, Bivalve channel and harbor, Bivalve, MD.

One previously published special local regulation for marine event would be removed from 33 CFR 100.501, *i.e.* “Ragin on the River” power boat race

that took place on the Susquehanna River, near Port Deposit, MD. This rule would revise 10 preexisting special local regulations that involves

change to marine event date(s) and/or coordinates. These events are listed in TABLE 2, with reference by section as printed in the TABLE to § 100.501.

TABLE 2
[Changes to special local regulation date(s) and coordinates]

	Table to § 100.501 Section	Location	Revision (date/coordinates)

5	(b.) 6	Upper Potomac River, Washington, D.C.	dates.
6	(b.) 7	Severn River, Annapolis, MD	coordinates.
7	(b.) 15	Tred Avon River, Oxford, MD	dates, coordinates.
8	(b.) 17	Spa Creek, Annapolis, MD	dates.
9	(b.) 20	Patuxent River, Solomons, MD	dates.
10	(b.) 21	North Atlantic Ocean, Ocean City, MD	dates.

Based on the nature of marine events, large number of participants and spectators, and event locations, the Coast Guard has determined that the events listed in this rule could pose a risk to participants or waterway users if normal vessel traffic were to interfere with the event. Possible hazards include risks of participant injury or death resulting from near or actual contact with non-participant vessels traversing through the regulated areas. In order to protect the safety of all waterway users including event participants and spectators, this rule establishes special local regulations for the time and location of each marine event.

This rule prevents vessels from entering, transiting, mooring or anchoring within areas specifically designated as regulated areas during the periods of enforcement unless authorized by the Captain of the Port (COTP), or designated Coast Guard Patrol Commander. The designated “Patrol Commander” includes Coast Guard commissioned, warrant, or petty officer who has been designated by the COTP to act on their behalf. On-scene patrol commander may be augmented by local, State or Federal officials authorized to act in support of the Coast Guard.

Safety Zones

This rule would add 6 new safety zones, remove 1 safety zone and revise 11 previously established safety zones listed in the Table to § 165.506. Other than changes to the dates and locations of certain safety zones, the other provisions in 33 CFR 165.506 remain unchanged.

The Coast Guard proposes to revise the regulations at 33 CFR 165.506 by adding 6 new safety zone locations to the permanent regulations listed in this section. The new safety zones are listed in TABLE 3, including reference by section as printed in the Table to § 165.506.

TABLE 3

5	(d.) 17	Pasquotank River, Elizabeth City, NC.
6	(d.) 18	Atlantic Intracoastal Waterway, Bogue Inlet, Swansboro, NC.

One safety zone would be removed from 33 CFR 165.506, specifically, the

fireworks display that took place over the Potomac River, near Newburg, MD.

The rule would revise 11 preexisting safety zones that involves change to event date(s) and coordinates. These

revised safety zones are shown in Table 4, with reference by section as printed in the Table to § 165.506.

TABLE 4
[Changes to safety zone date(s) and coordinates]

11	(c.) 9	North Atlantic Ocean, Virginia Beach, VA	dates.

Each year, organizations in the Fifth Coast Guard District sponsor fireworks displays in the same general location and time period. Each event uses a barge or an on-shore site near the shoreline as the fireworks launch platform. A safety zone is used to control vessel movement within a specified distance surrounding the launch platforms to ensure the safety of persons and property. Coast Guard personnel on scene may allow boaters within the safety zone if conditions permit.

The enforcement period for these safety zones is from 5:30 p.m. to 1 a.m. local time. However, vessels may enter, remain in, or transit through these safety zones during this time frame if authorized by the COTP or designated Coast Guard patrol commander on scene, as provided for in 33 CFR 165.23. This rule provides for the safety of life on navigable waters during the events.

E. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

We expect the economic impact of this rule to be so minimal that a full

Regulatory Evaluation is unnecessary. This finding is based on the short amount of time that vessels will be restricted from regulated areas, and the small size of these areas that are usually positioned away from high vessel traffic zones. Generally vessels would not be precluded from getting underway, or mooring at any piers or marinas currently located in the vicinity of the regulated areas. Advance notifications would also be made to the local maritime community by issuance of Local Notice to Mariners, Broadcast Notice to Mariners, Marine information and facsimile broadcasts so mariners can adjust their plans accordingly. Notifications to the public for most events will typically be made by local newspapers, radio and TV stations. The Coast Guard anticipates that these special local regulated areas and safety zones will only be enforced one to three times per year.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities some of which may be small entities: The owners and operators of vessels intending to transit or anchor in these regulated areas during the times the zones are enforced.

These special local regulated areas and safety zones will not have a significant economic impact on a substantial number of small entities for the following reasons: The Coast Guard will ensure that small entities are able to operate in the areas where events are occurring to the extent possible while ensuring the safety of event participants and spectators. The enforcement period will be short in duration and, in many of the areas, vessels can transit safely around the regulated area. Generally, blanket permission to enter, remain in, or transit through these regulated areas will be given, except during the period that the Coast Guard patrol vessel is present. Before the enforcement period, we will issue maritime advisories widely.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045,

Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment.

This rule involves implementation of regulations within 33 CFR part 100 that apply to organized marine events on the navigable waters of the United States. Some marine events by their nature may introduce potential for adverse impact on the safety or other interest of waterway users or waterfront infrastructure within or close proximity to the event area. The category of water activities includes but is not limited to sail boat regattas, boat parades, power boat racing, swimming events, crew racing, and sail board racing. This section of the rule is categorically excluded from further review under paragraph 34(h) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist

supporting this determination and a Categorical Exclusion Determination are not required for this section of the rule.

This rule involves implementation of regulations at 33 CFR part 165 that establish safety zones on navigable waters of the United States for fireworks events. These safety zones are enforced for the duration of fireworks display events. The fireworks are generally launched from or immediately adjacent to navigable waters of the United States. The category of activities includes fireworks launched from barges or at the shoreline that generally rely on the use of navigable waters as a safety buffer. Fireworks displays may introduce potential hazards such as accidental discharge of fireworks, dangerous projectiles, and falling hot embers or other debris. This section of the rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.
