

manufacturers are required to record the names and addresses of the first purchasers (for purposes other than resale), together with the identification numbers of the tires on the new vehicle, and retain this information for not less than five years.

Description of the Need for the Information and the Use of the Information: The information is used by a tire manufacturer after it or the agency determines that some of its tires either fail to comply with an applicable safety standard or contain a safety related defect. With the information, the tire manufacturer can notify the first purchaser of the tire and provide them with any necessary information or instructions to remedy the non-compliance situation or safety defect.

Without this information, efforts to identify the first purchaser of tires that have been determined to be defective or nonconforming pursuant to sections 30118 and 30119 of title 49 U.S.C. would be impeded. Further, the ability of the purchasers to take appropriate action in the interest of motor vehicle safety may be compromised.

Description of the Likely Respondents (Including Estimated Number and Proposed Frequency of Response to the Collection of Information): We estimate that the collection of information affects 10 million respondents annually. This group consists of approximately 20 tire manufacturers, 59,000 new tire dealers and distributors, and 10 million consumers who choose to register their tire purchases with tire manufacturers. A response is required by motor vehicle manufacturers upon each sale of a new vehicle and by non-independent tire dealers with the each sale of a new tire. A consumer may elect to respond when purchasing a new tire from an independent tire dealer.

Estimate of the Total Annual Reporting and Recordkeeping Burden Resulting from the Collection of Information: The estimated burden is as follows:

New tire dealers and distributors:
59,000.
Consumers: 10,000,000.
Total tire registrations (manual):
54,000,000.
Total tire registration hours (manual):
225,000.
Recordkeeping hours (manual):
25,000.
Total annual tire registration and recordkeeping hours: 250,000.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of

the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is most effective if OMB receives it within 30 days of publication of this notice.

SUPPLEMENTARY INFORMATION: The following information is provided for each information collection: (1) Abstract for the affected annual report form; (2) title of the information collection; (3) OMB control number; (4) affected annual report form; (5) description of affected public; (6) estimate of total annual reporting and recordkeeping burden; and (7) frequency of collection. PHMSA will request a three-year term of approval for each information collection activity and, when approved by OMB, publish notice of the approval in the **Federal Register**.

PHMSA requests comments on the following information collection:

Title: Reporting Requirements for Hazardous Liquid Pipeline Operators: Hazardous Liquid Annual Report.

OMB Control Number: 2137-0614.

Current Expiration Date: 12/31/2015.

Type of Request: Renewal without change.

Abstract: Each operator must annually complete and submit Form PHMSA F 7000-1.1 for each type of hazardous liquid pipeline facility operated at the end of the previous year as required by 49 CFR 195.49. This Annual Report for Hazardous Liquid Pipeline Systems is required to be filed by June 15 of each year for the preceding calendar year. On the Annual Report form, PHMSA collects data concerning the number of miles of pipeline each operator has and other characteristics of each pipeline system. PHMSA also collects information on the number of anomalies identified and repaired using various types of pipe inspection and assessment methods.

Affected Public: Hazardous liquid pipeline operators.

Annual Reporting and Recordkeeping Burden:

Total Annual Responses: 447.

Total Annual Burden Hours: 8,457.

Frequency of collection: Annually.

Comments are invited on:

(a) The need for the proposed collection of information for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agency's estimate of the burden of the proposed

collection of information, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

Issued in Washington, DC, on February 12, 2015.

Alan K. Mayberry,

Deputy Associate Administrator for Policy and Programs.
