An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control

number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Rural Housing Service

Title: 7 CFR 1901-E, Civil Rights Compliance Requirements.

OMB Control Number: 0575-0018.

Summary Of Collection: Rural Development (RD) is required to provide Federal financial assistance through its farmer, housing, and community and business programs on an equal opportunity basis. The laws implemented in 7 CFR 1901-E, require the recipients of Rural Development's Federal financial assistance to collect various types of information by race, color, and national origin.

Need and Use of the Information: RD will use the information to monitor a recipient's compliance with the civil rights laws, and to determine whether or not service and benefits are being provided to beneficiaries on an equal opportunity basis. This information is made available to USDA officials, officials of other Federal agencies and to Congress for reporting purposes. Without the required information, RD and its recipient will lack the necessary documentation to demonstrate that their programs are being administered in a nondiscriminatory manner and in full compliance with the civil rights laws.

Description of Respondents: Individuals or households; Not-for-profit institutions; Business or other for-profit; Farms; State, Local or Tribal Government.

Number of Respondents: 27,000.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 560,276.

Forest Service

Title: Qualified Product List for Wild Land Fire Chemicals.

OMB Control Number: 0596-0182.

Summary of Collection: In the Forest Service (FS) Manual 5162, its objective is, "To have available and utilize adequate types and quantities of qualified fire chemical products to accomplish fire management activities safely, efficiently, and effectively." To accomplish their objective, FS evaluates

chemical products that may be used in direct wildland fire suppression operations prior to their use on lands managed by the FS. Safe products do not include ingredients that create an enhanced risk, in typical use, to either the firefighters involved or the public in general. Safety to the environment in terms of aquatic (fish, clean water) and terrestrial environments (wildlife, plants) is also considered.

Need and Use of the Information: FS will collect the listing of individual ingredients and quantity of these ingredients in the formulation of a product being submitted for evaluation in order to test the products using various Technical Data Sheets and other forms. The entity submitting the information provides the FS with the specific ingredients used in its product and identifies the specific source of supply for each ingredient. The information collected is specific mixing requirements and hydration requirements of gum-thickened retardants. The information provided will allow the FS to search the List of Known and Suspected Carcinogens, as well as the Environmental Protection Agency's List of Highly Hazardous Materials, to determine if any of the ingredients appear on any of these lists. Without the information FS would not be able to assess the safety of the wildland fire chemicals utilized on FS managed land, since the specific ingredients and the quantity of each ingredient used in a formulation would not be known.

Description of Respondents: Business or other for-profit.

Number of Respondents: 7.

Frequency of Responses: Reporting: Other (once).

Total Burden Hours: 11.

SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in the food trade.

The CCPR is responsible for establishing maximum limits for pesticide residues in specific food items or in groups of food, establishing maximum limits for pesticide residues in certain animal feeding stuffs moving in international trade where this is justified for reasons of protection of human health, preparing priority lists of pesticides for evaluation by the Joint FAO/WHO Meeting on Pesticide Residues (JMPR), considering methods of sampling and analysis for the determination of pesticide residues in food and feed, considering other matters in relation to the safety of food and feed containing pesticide residues, and establishing maximum limits for environmental and industrial contaminants showing chemical or other similarity to pesticides in specific food items or groups of food.

The Committee is hosted by China.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the 47th Session of CCPR will be discussed during the public meeting:

- Matters referred to the committee by Codex and other subsidiary bodies
- Matters of interest arising from FAO and WHO
- Matters of interest arising from other international organizations
- Draft Maximum Residue Limits (MRLs) for pesticides
- Draft Revision to the Classification of Food and Feed (CFF) (vegetable commodity groups: Group 016—Roots and Tubers)
