

chemical products that may be used in direct wildland fire suppression operations prior to their use on lands managed by the FS. Safe products do not include ingredients that create an enhanced risk, in typical use, to either the firefighters involved or the public in general. Safety to the environment in terms of aquatic (fish, clean water) and terrestrial environments (wildlife, plants) is also considered.

Need and Use of the Information: FS will collect the listing of individual ingredients and quantity of these ingredients in the formulation of a product being submitted for evaluation in order to test the products using various Technical Data Sheets and other forms. The entity submitting the information provides the FS with the specific ingredients used in its product and identifies the specific source of supply for each ingredient. The information collected is specific mixing requirements and hydration requirements of gum-thickened retardants. The information provided will allow the FS to search the List of Known and Suspected Carcinogens, as well as the Environmental Protection Agency's List of Highly Hazardous Materials, to determine if any of the ingredients appear on any of these lists. Without the information FS would not be able to assess the safety of the wildland fire chemicals utilized on FS managed land, since the specific ingredients and the quantity of each ingredient used in a formulation would not be known.

Description of Respondents: Business or other for-profit.

Number of Respondents: 7.

Frequency of Responses: Reporting; Other (once).

SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in the food trade.

The CCPR is responsible for establishing maximum limits for pesticide residues in specific food items or in groups of food, establishing maximum limits for pesticide residues in certain animal feeding stuffs moving in international trade where this is justified for reasons of protection of human health, preparing priority lists of pesticides for evaluation by the Joint FAO/WHO Meeting on Pesticide Residues (JMPR), considering methods of sampling and analysis for the determination of pesticide residues in food and feed, considering other matters in relation to the safety of food and feed containing pesticide residues, and establishing maximum limits for environmental and industrial contaminants showing chemical or other similarity to pesticides in specific food items or groups of food.

The Committee is hosted by China.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the 47th Session of CCPR will be discussed during the public meeting:

- Matters referred to the committee by Codex and other subsidiary bodies
- Matters of interest arising from FAO and WHO
- Matters of interest arising from other international organizations
- Draft Maximum Residue Limits (MRLs) for pesticides
- Draft Revision to the Classification of Food and Feed (CFF) (vegetable commodity groups: Group 016—Roots and Tubers)

- Proposed draft revision to the CFF (vegetable commodity groups: Group 015—Pulses)
 - Proposed draft MRL's for Pesticides
 - Proposed draft Guidance on Performance criteria for methods of analysis for the determination of Pesticide residues
 - Proposed draft revision to the CFF (vegetable commodity groups: Groups 011 Fruiting vegetables, cucurbits and Group 014 Legume vegetables)
 - Proposed draft revision to the CFF—other commodity groups
 - Proposed draft Table 2: Examples of Selection of Representative Commodities—Vegetable commodity groups and other commodity groups
 - Establishment of Codex schedules and priority list of Pesticides for evaluation by JMPR
- Each issue listed will be fully described in documents distributed, or to be distributed, by the Secretariat prior to the Committee meeting. Members of the public may access or request copies of these documents (see **ADDRESSES**).

Public Meeting

At the March 16, 2015, public meeting, draft U.S. positions on the agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to Barbara Madden, U.S. Delegate for the 47th Session of the CCPR (see **ADDRESSES**). Written comments should state that they relate to activities of the 47th Session of the CCPR.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS Web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>.

Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.
