Needs and Uses: The information collection requirements that are approved under this collection are as follows:

47 CFR 73.1212 requires a broadcast station to identify at the time of broadcast the sponsor of any matter for which consideration is provided. For advertising commercial products or services, generally the mention of the name of the product or service constitutes sponsorship identification. In the case of television political advertisements concerning candidates for public office, the sponsor shall be identified with letters equal to or greater than four (4) percent of the vertical height of the television screen that airs for no less than four (4) seconds. In addition, when an entity rather than an

individual sponsors the broadcast of matter that is of a political or controversial nature, licensee is required to retain a list of the executive officers, or board of directors, or executive committee, etc., of the organization paying for such matter. Sponsorship announcements are waived with respect to the broadcast of "want ads" sponsored by an individual but the licensee shall maintain a list showing the name, address and telephone number of each such advertiser. These lists shall be made available for public inspection.

47 CFR 73.1212(e) states that, when an entity rather than an individual sponsors the broadcast of matter that is of a political or controversial nature, the licensee is required to retain a list of the executive officers, or board of directors, or executive committee, etc., of the organization paying for such matter in its public file. Pursuant to the changes contained in 47 CFR 73.1212(e) and 47 CFR 73.3526(e)(19), this list, which could contain personally identifiable information, would be located in a public inspection file to be located on the Commission's Web site instead of being maintained in the public file at the station. Burden estimates for this change are included in OMB Control Number 3060-0214.

47 CFR 76.1615 states that, when a cable operator engaged in origination cablecasting presents any matter for which money, service or other valuable consideration is provided to such cable television system operator, the cable television system operator, at the time of the telecast, shall identify the sponsor. Under this rule section, when advertising commercial products or services, an announcement stating the sponsor's corporate or trade name, or the name of the sponsor's product is sufficient when it is clear that the mention of the name of the product constitutes a sponsorship identification. In the case of television political advertisements concerning candidates for public office, the sponsor shall be identified with letters equal to or greater than four (4) percent of the vertical height of the television screen that airs for no less than four (4) seconds.

47 CFR 76.1715 state that, with respect to sponsorship announcements that are waived when the broadcast/origination cablecast of "want ads" sponsored by an individual, the licensee/operator shall maintain a list showing the name, address and telephone number of each such advertiser. These lists shall be made available for public inspection.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

Form No.: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit Institutions; Federal Government and State, local or tribal government.

Estimated Time per Response: 0.083 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement, and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Section 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 231 hours.

Total Annual Cost: \$24,860.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general there is no need for confidentiality with this collection of information.

Needs and Uses: On June 2, 2014, the Commission released a Second Report and Order, FCC 14-62, WT Docket Nos.

08-166 and 08-167 and ET Docket No. 10-24, "Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698-806 MHz Band." This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: "large venue owner or operator" and "professional sound company." To be eligible for a Part 74 license, a large venue owner or operator and a professional sound company must routinely use 50 or more low power auxiliary station devices, where the use of such devices is an integral part of major events or productions.

The Commission seeks OMB approval for a revision of this currently approved information collection to increase the number of respondents by 200 and the number of responses by 200 to reflect the estimated increase in licensed low power auxiliary station operators who will be subject to the requirement at section 74.832(j) to retain the station license in the licensee's files or post it at the transmitter or control point of the stations.

OMB Control No.: 3060-1155.

Title: Sections 15.713, 15.714, 15.715 and 15.717, TV White Space Broadcast Bands.

Form No.: Not Applicable.

Type of Review: Revision of an existing collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; Federal government; and state, local or tribal government.

Number of Respondents and

Responses: 2,000 respondents and 2,000 responses.

Estimated Time per Response: 2.0 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 154(1), 302, 303(c), 303(f), and 307.

Total Annual Burden: 4,000 hours.

Total Annual Cost: \$100,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting respondents to submit confidential information to the Commission. Respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: On June 2, 2014, the Commission released a Second Report and Order, FCC 14-62, WT Docket Nos. 08-166 and 08-167 and ET Docket No.

10-24, "Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698-806 MHz Band." This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: "Large venue owner or operator" and "professional sound company." The Commission is now requesting OMB approval for a revision of this information collection to increase by 200 the number of licensed low power auxiliary station operators who will be able to register in the database under 47 CFR 15.713(h)(8) to reflect the estimated number of entities that will become eligible for a license under the Second Report and Order and which will register in the database. Because these newly-eligible licensees would likely have been able to register on an unlicensed basis under 47 CFR 15.713(h)(9) (and now will register as licensees instead), the Commission is also decreasing by 200 the number of unlicensed low power auxiliary station operators who will register in the database on an unlicensed basis under 47 CFR 15.713 (h)(9).

The Commission seeks Office of Management and Budget (OMB) approval for a revised information collection for an increase in the number of LPAS licensees that will register under 47 CFR 15.713(h)(8) and a decrease in the number of unlicensed wireless microphone users that will register on an unlicensed basis under 47 CFR 15.713(h)(9).
