

provided, when submitting an annual compliance report under paragraph (g) of § 64.606 of the Commission's rules, must certify under penalty of perjury that all information required under the Commission's rules and orders has been provided and all statements of fact, as well as all documentation contained in the annual compliance report submission, are true, accurate, and complete.

(G) *Notification of Service Cessation.* The *Second Report and Order and Order* requires the applicant for certification must give its customers at least 30 days notice that it will no longer provide service should the Commission determine that the applicant's certification application does not qualify for certification under paragraph (a)(2) of § 64.606 of the Commission's rules.

(H) *Notification on Web site.* The *Second Report and Order and Order* requires the provider must provide notification of temporary service outages to consumers on an accessible Web site, and the provider must ensure that the information regarding service status is updated on its Web site in a timely manner.

On October 17, 2011, in document FCC 11–155, the Commission released a Memorandum Opinion and Order (*MO&O*), published at 76 FR 67070, October 31, 2011, addressing the petition for reconsideration filed by Sorenson Communications, Inc. (Sorenson). Sorenson concurrently filed a PRA comment challenging two aspects of the information collection requirements as being too burdensome. The Commission modified two aspects of information collection requirements contained in the July 28, 2011 *Second Report and Order and Order* to lessen the burdens on applicants for VRS certification and VRS providers to provide certain documentation to the Commission. In the *MO&O*, the Commission revised the language in the rules to require that providers that operate five or more domestic call centers only submit copies of proofs of purchase, leases or license agreements for technology and equipment used to support their call center functions for five of their call centers that constitute a representative sample of their centers, rather than requiring copies for all call centers. Further, the Commission clarifies that the rule requiring submission of a list of all sponsorship arrangements relating to iTRS only requires that a certification applicant include on the list associated written agreements, and does not require the applicant to provide copies of all written agreements.

Therefore, the information collection requirements listed above in section (A) 6 and 8 were revised to read as follows:

6. A description of the technology and equipment used to support their call center functions—including, but not limited to, automatic call distribution, routing, call setup, mapping, call features, billing for compensation from the TRS Fund, and registration—and for each core function of each call center for which the applicant must provide a copy of technology and equipment proofs of purchase, leases or license agreements in accordance with paragraphs (a)–(d) listed below, a statement whether such technology and equipment is owned, leased or licensed (and from whom if leased or licensed);

(a) For VRS providers operating five or fewer call centers within the United States, a copy of each proof of purchase, lease or license agreement for all technology and equipment used to support their call center functions—for each call center operated by the applicant within the United States;

(b) For VRS providers operating more than five call centers within the United States, a copy of each proof of purchase, lease or license agreement for technology and equipment used to support their call center functions for a representative sampling (taking into account size (by number of communications assistants) and location) of five call centers operated by the applicant within the United States; a copy of each proof of purchase, lease or license agreement for technology and equipment used to support their call center functions for all call centers operated by the applicant within the United States must be retained by the applicant for three years from the date of the application, and submitted to the Commission upon request;

(c) For VRS providers operating call centers outside of the United States, a copy of each proof of purchase, lease or license agreement for all technology and equipment used to support their call center functions for each call center operated by the applicant outside of the United States; and

(d) A complete copy of each lease or license agreement for automatic call distribution.

8. For all applicants, a list of all sponsorship arrangements relating to Internet-based TRS, including on that list a description of any associated written agreements; copies of all such arrangements and agreements must be retained by the applicant for three years from the date of the application, and submitted to the Commission upon request.

Under the Commission’s existing rules, a noncommercial educational (“NCE”) broadcast station may not conduct fundraising activities to benefit any entity besides the station itself if the activities would substantially alter or suspend regular programming.
