

regulations in 33 CFR 100.1101 in support of the annual marine event, the California Ironman Triathlon (Item 2 on Table 1 of 33 CFR 100.1101), held on March 28, 2015. The Coast Guard will enforce the special local regulations on the Harbor and Federal Channel in Oceanside on March 28, 2015 from 6:30 a.m. to 9:30 a.m. The triathlon course will commence at the Oceanside Harbor boat ramp then proceed outbound through the federal channel to the Oceanside Harbor Entrance, and then proceed back through the channel to the boat ramp.

Under the provisions of 33 CFR 100.1101, persons and vessels are prohibited from entering into, transiting through, or anchoring within this regulated area unless authorized by the Captain of the Port, or his designated representative. The Coast Guard may be assisted by other Federal, State, or local law enforcement agencies in enforcing this regulation.

This document is issued under authority of 5 U.S.C. 552(a) and 33 CFR 100.1101. In addition to this document in the **Federal Register**, the Coast Guard will provide the maritime community with advance notification of this enforcement period via the Local Notice to Mariners, Broadcast Notice to Mariners, and local advertising by the event sponsor.

If the Captain of the Port Sector San Diego or his designated representative determines that the regulated area need not be enforced for the full duration stated on this document, he or she may use a Broadcast Notice to Mariners or other communications coordinated with the event sponsor to grant general permission to enter the regulated area.

Dated: February 5, 2015.

J.S. Spaner,

Captain, U.S. Coast Guard, Captain of the Port San Diego.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2015-0113]

Drawbridge Operation Regulation; Appomattox River, Hopewell, VA

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulations.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating

schedule that governs the draw of the Seaboard System Railroad (CSX Railroad) Bridge, across Appomattox River, mile 2.5, Hopewell, VA. This deviation is necessary to conduct bridge upgrades. This temporary deviation allows the swing bridge to remain in the closed to navigation position to facilitate bridge upgrades.

DATES: This deviation is effective from 7 a.m. on March 7, 2015 to 8 p.m. on March 8, 2015.

ADDRESSES: The docket for this deviation, [USCG-2015-0113] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation. You may also visit the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Jim Rousseau, Bridge Administration Branch Fifth District, Coast Guard; telephone (757) 398-6557, email James.L.Rousseau2@uscg.mil. If you have questions on reviewing the docket, call Cheryl Collins, Program Manager, Docket Operations, 202-366-9826.

SUPPLEMENTARY INFORMATION: The CSX Corporation, who owns and operates this swing bridge, has requested a temporary deviation from the current operating regulations set out in 33 CFR 117.995 to facilitate bridge upgrades.

Under the regular operating schedule, the Seaboard System Railroad (CSX Railroad) Bridge, mile 2.5, in Hopewell, VA, must open on signal if at least 24 hour notice is given. The draw normally is in the closed to navigation position and only opens when proper notice is given. The Seaboard System Railroad (CSX Railroad) Bridge has a vertical clearance in the closed position to vessels of 10 feet above mean high water.

Under this temporary deviation, the drawbridge will be maintained in the closed to navigation position from 8 a.m. Saturday March 8, 2015, until 8 p.m. Sunday March 9, 2015. The bridge will operate under the normal operating schedule at all other times. Emergency openings cannot be provided. There are no alternate routes for vessels transiting this section of the Appomattox River but vessels may pass before 8 a.m. on March 8, 2015, and after 8 p.m. on March 9, 2015, with advance notice.

Appomattox River is used by a variety of vessels including commercial and recreational vessels. The Coast Guard has carefully coordinated the restrictions with these waterway users. The Coast Guard will also inform additional waterway users through our Local and Broadcast Notice to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impacts caused by the temporary deviation. Mariners able to pass under the bridge in the closed position may do so at any time. Mariners are advised to proceed with caution.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period.

This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 20, 2015

James L. Rousseau,

Bridge Program Manager, Fifth Coast Guard District.

Coast Guard

33 CFR Part 117

[Docket No. USCG-2014-1039]

RIN 1625-AA09

Drawbridge Operation Regulation; Chevron Oil Company Canal, Fourchon, LA

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is adding a special operating regulation governing the State Route 3090 (SR 3090) swing span bridge across the Chevron Oil Company Canal, mile 0.05, at Fourchon, Louisiana. Since construction of the bridge in 1972, the bridge has operated on a customary schedule requiring a one-hour advance notice without having a special operating regulation in place. This rule codifies the current custom and operating schedule of the bridge as a special operating regulation.

DATES: This rule is effective March 4, 2015.

ADDRESSES: Documents mentioned in this preamble are part of docket [USCG 2014-1039]. To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>

www.regulations.gov, type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rulemaking. You may also visit the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Donna Gagliano, Bridge Specialist, Coast Guard; telephone 504-671-2128, email Donna.Gagliano@uscg.mil. If you have questions on viewing the docket, call Cheryl Collins, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION:

A. Regulatory History and Information

The Coast Guard is issuing this final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule. This bridge has operated under one-hour notice for openings since put in place in 1972 without concern. Local community and waterway users are aware and accustomed to the operating schedule. In over 40 years of operation of this bridge, no complaints have been received by the Coast Guard. Waterway users understand how the bridge operates and this Final Rule simply codifies its operation. Completing the process of an NPRM is unnecessary because this operating practice is in use and accepted by the waterway users.

For the same reasons, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective in less than 30 days after publication in the **Federal Register** (FR). The bridge has been operating under the one-hour advance notification schedule for over 40 years. This final rule codifies the existing schedule in 33 CFR part 117. Therefore, providing a 30-day notice before making this rule effective is unnecessary.

B. Basis and Purpose

The SR 3090 swing span bridge, locally known as the Fourchon Bridge, across the Chevron Oil Company Canal, mile 0.05, at Fourchon, LA has a vertical clearance of 12.0 feet above Mean High Water elevation, 3.0 feet at Mean Sea Level in the closed-to-navigation position, unlimited in the open position. Presently, this bridge opens on signal if at least one-hour advanced notification is given to the Greater Lafourche Port Commission 24-hour dispatcher. This operating schedule has been in place since the bridge was constructed in 1972; however, this custom and operating schedule was never codified in subpart B, Specific Requirements, under 33 CFR part 117. This final rule codifies the existing operating schedule for the bridge. Since construction of the bridge, no complaints have been received by the Coast Guard from waterway users concerning the operation of the bridge.

Navigation on the waterway consists of oilfield related equipment, houseboats, shrimp boats, and other recreational craft. The bridge has opened on average one time per month for the passage of oil field equipment, houseboats, shrimp boats, and other recreational crafts. During the shrimp season, the bridge may open 8-10 times per month.

C. Discussion of Final Rule

Under 33 CFR 117.5, bridges are required to open on signal for the passage of vessels except as otherwise authorized or required. The SR 3090 bridge is currently untended and maintained in the closed-to-navigation position. The bridge opens for the passage of vessels if a one-hour advance notice to the Greater Lafourche Port Commission 24-hour dispatcher. Title 33 CFR 117.40 requires that, if approved, a description of the full operation of the advance one-hour notice on the drawbridge will be added to subpart B of this part.

This present operating schedule is known and understood by the local waterway users, but this operating schedule is not reflected in the CFR. This rule codifies this schedule as a Special Operating Requirement under 33 CFR part 117, subpart B.

The operation of the draw of the SR 3090 swing span bridge across the Chevron Oil Company Canal, mile 0.05, at Fourchon, LA is as follows: The draw of the SR 3090 bridge at Fourchon shall open on signal if at least one-hour notice is given.

D. Regulatory Analyses

We developed this Final Rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes or executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

The Coast Guard does not consider this rule to be "significant" under that Order because the rule only codifies the current operating schedule for the SR 3090 bridge which is already understood, known, and accepted by the local bridge and waterway users.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601-612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

This rule would affect the following entities, some of which may be small entities: The owners or operators of vessels who wish to transit the bridge. However, the affect would be negligible as this rule codifies the current custom and operating schedule of the bridge that mariners are accustomed to and the bridge would still be able to open with advance notice.

This Final Rule formalizes the drawbridge operation custom that has been in place since 1972. Therefore, mariners would not be affected given that they would not experience any alteration of current expectations with regard to current drawbridge operation.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for

compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule would not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This rule does not use a "significant energy action" under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01, and Commandant Instruction M16475.ID which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule involves the promulgation of special operating regulations or procedures for drawbridges. This rule is categorically

excluded, under figure 2-1, paragraph (32)(e), of the Instruction.

Under figure 2-1, paragraph (32)(e), of the Instruction, an environmental analysis checklist and a categorical exclusion determination are not required for this rule. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

List of Subjects in 33 CFR Part 117

Bridges.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

■ 1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 33 CFR 1.05-1; Department of Homeland Security Delegation No. 0170.1.

■ 2. Redesignate §§ 117.437 through 117.439 as §§ 117.438 through 117.440, respectively, and add new § 117.437 to read as follows:

§ 117.437 Chevron Oil Company Canal.

The draw of the SR 3090, mile 0.05, at Fourchon, shall open on signal if at least one-hour notice is given.

Dated: February 11, 2015.

Kevin S. Cook,

Rear Admiral, U.S. Coast Guard Commander, Eighth Coast Guard District.
