Edward B. Myers, Cassandra S. Bernstein, U.S. Department of Energy, Office of the Assistant General Counsel for Electricity and Fossil Energy, Forrestal Building, 1000 Independence Ave. SW., Washington, DC 20585, (202) 586-3397, (202) 586-9793.

SUPPLEMENTARY INFORMATION: DOE is authorized under the Natural Gas Act, 15 U.S.C. 717b(a), (c), to regulate the import and export of natural gas to or from the United States.¹ As the number of applicants and authorization holders regulated under these statutory provisions continues to increase, DOE/FE is aware that many such applicants and authorization holders neither reside in nor have a place of business or other corporate presence in the United States. Applications to import or export natural gas are informal adjudications conducted in accordance with DOE regulations, 10 CFR part 590, and the Administrative Procedure Act, 5 U.S.C. 551, *et seq.* Applicants therefore must be available to receive and respond to timely service of process of DOE/FE orders and other filings, including pleadings submitted by parties in application proceedings. Additionally, authorization holders are subject to continuing agency jurisdiction and to terms, conditions, and reporting and recordkeeping requirements set forth in each authorization. To monitor and enforce compliance with its authorizations, DOE/FE must have the means to serve legal process on authorization holders within the United States.

Accordingly, DOE/FE has determined that applicants and authorization holders that neither reside in nor have a place of business or other corporate presence in the United States must identify an agent within the jurisdiction of the United States to receive service of process regarding their pending application or existing authorization, respectively. As noted above, this action will help to ensure that all applicants and authorization holders are notified promptly of any agency or party filing in their proceeding, and that DOE/FE has the means to monitor and enforce compliance with the terms, conditions, and other requirements of its authorizations.

¹ The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. 717b) has been delegated to the Assistant Secretary for FE in Redlegation Order No. 00-006.02 issued on November 17, 2014.

Compliance with this procedural change shall be accomplished in the following manner: Within 30 days of the date of publication of this Notice in the **Federal Register**, all applicants and authorization holders that do not reside in the United States and do not have a place of business or other corporate presence in the United States must provide DOE/FE with the name, address, and telephone number of an agent in the United States designated to receive service of legal process in connection with their pending application(s) and/or existing authorization(s). This requirement does not apply to any such applicant and/or authorization holder that has already identified a U.S. agent in its existing proceeding in a filing or other correspondence with DOE/FE.

For purposes of complying with this procedural requirement, the U.S. agent may be a natural person residing in the United States, a U.S. corporation, or a foreign corporation registered to conduct business in the United States (including the applicant or authorization holder itself), provided that the domestic or foreign corporation has a business address in the United States and is authorized by its articles of incorporation to act as agent.

Submissions shall include the docket number and the order number(s) (if appropriate), the agent's name and complete U.S. address, and the consent of the applicant or authorization holder to service of process on the designated agent as long as the authority of the agent continues. This requirement shall be a continuing obligation of applicants and authorization holders. Accordingly, it shall be incumbent upon applicants and authorization holders to designate a new agent in the event an agent discontinues its service as agent.

Issued in Washington, DC, on February 26, 2015.

Director, Office of Oil and Gas Global Security and Supply, Office of Oil and Natural Gas.

Federal Energy Regulatory Commission

[Docket No. CP15-87-000]

Columbia Gas Transmission, LLC; Notice of Application

Take notice that on February 12, 2015, Columbia Gas Transmission, LLC (Columbia), 5151 San Felipe, Suite 2500, Houston, Texas 77056, filed in Docket No. CP15-87-000, an application pursuant to section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations, for a certificate of public convenience and necessity to construct and operate its Utica Access Project. Specifically, Columbia request to construct a 5-mile 24-inch diameter pipeline from Dominion Transmission, Inc's (DTI) Cornwell Compressor station to an intersection with Columbia's existing line X-52-M1 in Kanawha and Clay Counties, West Virginia. The proposal will provide 205 million cubic feet (MMcf) per day of firm transportation capacity to deliver natural gas to the proposed facilities to be constructed by DTI in Docket No. CP15-7-000. The estimated cost of the project is \$45.3 million, all as more fully set forth in the application, which is on file with the

Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to S. Diane Neal, Assistant General Counsel, Columbia Gas Transmission, LLC, 5151 San Felipe, Suite 2500, Houston, Texas 77056 or phone: (713) 386-3745.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 p.m. Eastern Time on March 19, 2015.

Dated: February 26, 2015.
