National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Western Pacific Community Development Program Process

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 11, 2015.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Jarad Makaiau, (808) 944-2108 or Jarad.Makaiau@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The Federal regulations at 50 CFR part 665 authorize the Regional Administrator of the National Marine Fisheries Service (NMFS), Pacific Island Region to provide eligible western Pacific communities with access to fisheries that they have traditionally depended upon, but may not have the capabilities to support continued and substantial participation, possibly due to economic, regulatory, or other barriers. To be eligible to participate in the western Pacific community development program, a community must meet the criteria set forth in 50 CFR part 665.20, and submit a community development plan that describes the purposes and goals of the plan, the justification for proposed fishing activities, and the degree of involvement by the indigenous community members, including contact information.

This collection of information provides NMFS and the Western Pacific Fishery Management Council (Council) with data to determine whether a community that submits a community development plan meets the regulatory requirements for participation in the program, and whether the activities proposed under the plan are consistent with the intent of the program, the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable laws. The information is also important for evaluating potential impacts of the proposed community development plan activities on fish stocks, endangered species, marine mammals, and other components of the affected environment for the purposes of compliance with the National Environmental Policy Act, the Endangered Species Act and other applicable laws.

II. Method of Collection

The collection of information of a community development plan involves no forms, and respondents have a choice of submitting information by electronic transmission or by mail. Instructions on how to submit a community development plan can be found on the Council's Web site at <http://www.wpcouncil.org/community-development/western-pacific-community-development-program/>.

III. Data

OMB Control Number: 0648-0612.
Form Number: None.

Type of Review: Regular submission (extension of a currently approved collection).

Affected Public: Business or other for profit organizations; individuals or households.

Estimated Number of Respondents: 5.

Estimated Time per Response: 6 hours.

Estimated Total Annual Burden Hours: 30.

Estimated Total Annual Cost to Public: \$50 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 4, 2015.

RIN 0648-XD592

Determination of Overfishing or an Overfished Condition

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: This action serves as a notice that NMFS, on behalf of the Secretary of Commerce (Secretary), has found that the following stocks are subject to overfishing or are in an overfished condition: Gulf of Mexico Greater Amberjack is subject to overfishing and continues to be in an overfished

condition; Gulf of Mexico Gray Triggerfish is subject to overfishing but is not in an overfished condition; Puerto Rico Scups and Porgies is subject to overfishing; Puerto Rico Wrasses is subject to overfishing; and Gulf of Maine cod continues to be subject to overfishing and in an overfished condition. In addition, Pacific Bluefin Tuna, which is jointly managed by the Western Pacific Fisheries Management Council and the Pacific Fisheries Management Council, continues to be subject to overfishing and continues to be in an overfished condition.

NMFS, on behalf of the Secretary, notifies the appropriate fishery management council (Council) whenever it determines that overfishing is occurring, a stock is in an overfished condition, a stock is approaching an overfished condition, or when a rebuilding plan has not resulted in adequate progress toward ending overfishing and rebuilding affected fish stocks.

FOR FURTHER INFORMATION CONTACT: Regina Spallone, (301) 427-8568.

SUPPLEMENTARY INFORMATION: Pursuant to sections 304(e)(2) and (e)(7) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1854(e)(2) and (e)(7), and implementing regulations at 50 CFR 600.310(e)(2), NMFS, on behalf of the Secretary, must notify Councils whenever it determines that a stock or stock complex is overfished or approaching an overfished condition; or if an existing rebuilding plan has not ended overfishing or resulted in adequate rebuilding progress. NMFS also notifies Councils when it determines a stock or stock complex is subject to overfishing. Section 304(e)(2) further requires NMFS to publish these notices in the **Federal Register**.

NMFS has determined that the Gulf of Mexico stocks of Greater Amberjack and Grey Triggerfish are subject to overfishing and that Greater Amberjack continues to be in an overfished condition. The Gulf of Mexico Fishery Management Council (GMFMC) has been informed that they must end overfishing on these two stocks and that they must continue to rebuild the stock of Greater Amberjack.

NMFS has also determined that Puerto Rico Scups and Porgies, as well as Puerto Rico Wrasses, are subject to overfishing. The Caribbean Fishery Management Council (CFMC) has been informed that they must end overfishing on these two stock complexes.

NMFS has also determined that Gulf of Maine Cod continues to be subject to

overfishing and is in an overfished condition. The New England Fishery Management Council (NEFMC) has been informed that they must end overfishing and rebuild this stock.

In addition, NMFS has determined that the Pacific stock of Bluefin Tuna continues to be subject to overfishing and is in an overfished condition. This determination was based on an assessment conducted by the International Scientific Committee for Tuna and Tuna-like Species in the North Pacific Ocean (ISC), in conjunction with NOAA scientists. NMFS has confirmed that section 304(i) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) applies because (1) the overfishing and overfished condition of Bluefin Tuna is due largely to excessive international fishing pressure, and (2) there are no management measures (or efficiency measures) to end overfishing under an international agreement to which the U.S. is a party. NMFS has informed the Western Pacific Fishery Management Council and the Pacific Fishery Management Council of their obligations for international and domestic management under Magnuson-Stevens Act sections 304(i) and 304(i)(2) to address international and domestic impacts, respectively. The Councils must develop domestic regulations to address the relative impact of the domestic fishing fleet on the stock, and develop recommendations to the Secretary of State and Congress for international actions to end overfishing and rebuild Pacific Bluefin Tuna.

Dated: March 4, 2015.

Alan D. Risenhoover,

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
