

three identified in Alternative B. Whereas the facilities for public use will mainly be off site and associated with the administrative Visitors Center site for both Alternatives A and B, Alternative C adds facilities to the refuges proper to provide for basic visitor use and to promote wildlife-dependent recreation, mainly fishing and wildlife observation and photography. The refuges would add a maintenance compound on each refuge and visitor services facilities to promote access and use. These include adding a system of trails for each refuge and providing fishing access via a primitive boat launch at Coon Bayou. To enhance wildlife viewing, a photography observation platform and/or photo blinds would be constructed at each refuge.

The Service would expand its survey and monitoring of priority species as proposed in Alternative B to obtain baseline data for native species, none of which have been inventoried or their presence documented (*e.g.*, selected mammals, fish, reptiles, amphibians and invertebrates). Also, active habitat management (*e.g.*, cooperative farming, moist soil management) could occur. Nuisance animal control and invasive plant species management would continue as described in Alternative B and conducted opportunistically.

Alternative C includes adding the positions proposed in Alternative B plus three others: A Federal Wildlife Officer position, a Visitor Services Specialist, and an office/administrative assistant or clerk position, which, among administrative duties, would serve as a receptionist at the Visitor Center. With additional staffing, the Visitor Center could be open more hours.
