SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) Federal Emergency Management Agency (FEMA) proposes to update, rename, and reissue a current DHS system of records titled, “DHS/FEMA—004 Grant Management Information Files System of Records.” As part of the Department’s process for reviewing and streamlining compliance documentation and to increase transparency, DHS/FEMA is proposing to: 1) update the system of records to include only non-disaster grant programs and FEMA assistance to state, local, tribal, territorial, or other entities; and 2) rename the system of records notice to DHS/FEMA—004 Non-Disaster Grant Management Information Files System of Records.

The goal of FEMA’s non-disaster related grant programs is to provide funding to enhance the capacity of state, local, tribal, and territorial emergency responders to prevent, respond to, and recover from a weapon of mass destruction terrorism incident involving chemical, biological, radiological, nuclear, explosive devices, and cyber-attacks. FEMA’s non-disaster grant programs currently provide funds to all 50 states, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Commonwealth of Northern Mariana Islands, Guam, the U.S. Virgin Islands, certain types of non-profit organizations, and some private entities. FEMA non-disaster related grant programs are directed at a broad spectrum of state and local emergency responders, including firefighters,

emergency medical services, emergency management agencies, law enforcement, and public officials. The source of the information collected by FEMA generally comes from state, local, tribal and territorial governments, port authorities, transit authorities, non-profit organizations, and private companies seeking grant funding. The nature of data collected by FEMA includes basic public information about the agency or organization, the organization’s financial information, and the organization’s demonstrated need for the non-disaster grant funds.

Many of FEMA’s non-disaster related grant programs implement objectives addressed in the Robert T. Stafford Disaster Relief and Emergency Assistance Act; a series of post 9/11 laws as outlined in the Authorities Section; the post-Katrina Emergency Management Reform Act (PKEMRA) of 2006; and Homeland Security Presidential Directives (HSPD).

As part of the biennial review process for DHS/FEMA systems or records, DHS has updated and reissued this system of records as described below:

First, DHS/FEMA changed the system name to reflect the focus of the system of records on non-disaster-related grants. Second, DHS/FEMA streamlined the legal authorities to remove the reference to the National Flood Insurance Act and to add authorities under the Implementing Recommendations of the 9/11 Commission Act of 2007. Third, the purpose removes references to FEMA disaster related grants such as Public Assistance because these grants are part of the DHS/FEMA–009 Hazard Mitigation, Disaster Public Assistance, and Disaster Loan Programs system of records. Fourth, DHS/FEMA modified routine use (A) to include former employees of DHS and to eliminate redundant language; updated routine use (C) to specify that information may be shared with the General Services Administration (GSA); and modified routine uses (D) and (E) for clarification and non-substantive grammatical changes. Lastly, DHS/FEMA modified the record source categories to specifically reference the points of contact for the respective grant applicant organizations as a source of the information described in this notice.

Consistent with DHS’s information-sharing mission, information stored in the DHS/FEMA–004 Non-Disaster Grant Management Information Files System of Records may be shared with other DHS components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other

homeland security functions. In addition, information may be shared with appropriate federal, state, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in this system of records notice.

This updated system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which Federal Government agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals when systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors.

Below is the description of the DHS/FEMA-004 Non-Disaster Grant Management Information Files System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget and to Congress.
