Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Title: Subsidized and Transitional Employment Demonstration (STED) and Enhanced Transitional Jobs Demonstration (ETJD).

[OMB No.: 0970-0413]

Description: The Administration for Children and Families (ACF) within the U.S. Department of Health and Human Services (HHS) is conducting a national evaluation called the Subsidized and Transitional Employment Demonstration (STED). At the same time, the Employment and Training Administration (ETA) within the Department of Labor (DOL) is conducting an evaluation of the Enhanced Transitional Jobs Demonstration (ETJD). These evaluations will inform the Federal government about the effectiveness of subsidized and transitional employment programs in helping vulnerable populations secure unsubsidized jobs in the labor market and achieve self-sufficiency. The projects will evaluate thirteen subsidized and transitional employment programs nationwide, including a test of the effects of an expanded Earned Income Tax Credit for low-income individuals without dependent children. ACF and ETA are

collaborating on the two evaluations. In 2011, ETA awarded grants to seven transitional jobs programs as part of the ETJD, which is testing the effect of combining transitional jobs with enhanced services to assist ex-offenders and noncustodial parents improve labor market outcomes, reduce criminal recidivism and improve family engagement.

The STED and ETJD projects have complementary goals and are focusing on related program models and target populations. Thus, ACF and ETA have collaborated on the design of data collection instruments to promote consistency across the projects. In addition, two of the seven DOL-funded ETJD programs are being evaluated as part of the STED project. ACF is submitting information collection requests on behalf of both collaborating agencies.

Data for the study is being and will continue to be collected from the following three major sources: Baseline forms, follow-up surveys (at 6, 12, and 30 months after study entry), and implementation research and site visits. Data collection for all but one STED site has been reviewed and approved by OMB (see OMB #0970-0413).

This notice is specific to a request for approval of the contact information form and baseline information form for a new STED site. These forms will collect important demographic and other information from all study participants in this site prior to the point of random assignment. These data will be important for describing the study sample and for estimating program effects for particular groups of interest.

Respondents: Study participants in the treatment and control groups at one additional STED site.
