

Description of Respondents: Business or other for-profit; Individuals or households; Federal Government.

Number of Respondents: 2,131.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 128.

Animal and Plant Health Inspection Service

Title: Infectious Salmon Anemia (ISA)—Payment of Indemnity.

OMB Control Number: 0579-0192.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pest or diseases of livestock or poultry. Infectious Salmon Anemia (ISA) is a clinical disease resulting from infection with the ISA virus; signs include hemorrhaging, anemia, and lethargy. ISA poses a substantial threat to the economic viability and sustainability of salmon aquaculture in the United States and abroad. The Animal and Plant Health Inspection Service (APHIS) will collect information using VS Form 1-22 ISA Program Enrollment Form and VS Form 1-23 All Species Appraisal & Indemnity Claim Form.

Need and Use of the Information: APHIS uses the following information activities to reimburse aquaculture industry businesses; conduct biosecurity, protocols and audits; develop site-specific ISA action plans; compile fish inventories and mortality reports (and keep records of the inventories and reports); and conduct disease surveillance. Each program participant must sign an ISA Program Enrollment Form in which they agree to participate fully in USDA's and the State of Maine's ISA Program. APHIS will collect the owner's name and address, the number of fish for which the owner is seeking payment, and the appraised value of each fish. The owner must also certify as to whether the fish are subject to a mortgage. Without the information it would be impossible for APHIS to launch its program to contain and prevent ISA outbreaks in the United States.

Description of Respondents: Business or other for-profit.

Number of Respondents: 12.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 484.

Animal and Plant Health Inspection Service

Title: Importation of Clementines from Spain.

Omb Control Number: 0579-0203.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to regulate the importation of plants, plant products, and other articles to prevent the introduction of injurious plant pests. The regulations in "Subpart—Fruits and Vegetables," 7 CFR 319.56 through 319.56-67, prohibits or restrict the importation of certain fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pest, including fruit flies. Under the regulations, clementines from Spain are subject to certain conditions before entering the United States to ensure that exotic plant pest, such as the Mediterranean fruit fly, are not introduced into the United States.

Need and Use of the Information: APHIS uses the following information collection activities to allow the importation of clementines from Spain when the requirements include: Provisions that the clementines be grown in accordance with a Mediterranean fruit fly management program established by the Government of Spain; Trapping and Control Records; Phytosanitary Certificate; Labeling and Traceback; Cold Treatment Data for Consignments; Trust Fund; and Grower Registration and Agreement.

Failure to collect this information would cripple APHIS' ability to ensure that clementines from Spain are not carrying fruit flies.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 4,508.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 6,507.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

March 11, 2015.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13 on or after the date of publication of this notice. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the

information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, Washington, DC, New Executive Office Building, 725-17th Street NW., Washington, DC 20250. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OClO, Mail Stop 7602, Washington, DC 20250-7602.

Comments regarding these information collections are best assured of having their full effect if received by April 16, 2015. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Marketing Service

Title: Regulations Governing the Inspection and Grading of Manufactured or Processed Dairy Products—Recordkeeping.

OMB Control Number: 0581-0110.

Summary of Collection: The Agricultural Marketing Act of 1946 directs the Department to develop programs that will provide and enable the marketing of agricultural products. One of these programs is the USDA voluntary inspection and grading program for dairy products where these dairy products are graded according to U.S. grade standards by an USDA grader. The dairy products so graded may be identified with the USDA grade mark. Dairy processors, buyers, retailers, institutional users, and consumers have requested that such a program be developed to assure the uniform quality of dairy products purchased. In order for any service program to perform

satisfactorily, there must be written guides and rules, which in this case are regulations for the provider and user.

Need and Use of the Information: The Agricultural Marketing Service will collect information to ensure that the dairy inspection program products are produced under sanitary conditions and buyers are purchasing a quality product. The information collected through recordkeeping are routinely reviewed and evaluated during the inspection of the dairy plant facilities for USDA approval. Without laboratory testing results required by recordkeeping, the inspectors would not be able to evaluate the quality of dairy products.

Description of Respondents: Business or other for-profit.

Number of Respondents: 487.

Frequency of Responses:

Recordkeeping.

Total Burden Hours: 1,388.

Charlene Parker,

Departmental Information Collection Clearance Officer.

Small Diameter Graphite Electrodes From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2013-2014

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On November 19, 2014, the Department of Commerce (the Department) published in the **Federal Register** the preliminary results of the administrative review of the antidumping duty order on small diameter graphite electrodes from the People's Republic of China (PRC), covering the period February 1, 2013, through January 31, 2014.¹ We invited parties to comment on the *Preliminary Results*. We received no comments from interested parties. Accordingly, for the final results, we continue to find that during the period of review (POR) Henan Sanli Carbon Products Co., Ltd. (Henan Sanli) made sales of subject merchandise at less than normal value.

DATES: *Effective Date:* March 17, 2015.

¹ See *Small Diameter Graphite Electrodes From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review: 2013-2014*, 79 FR 68856 (November 19, 2014) (*Preliminary Results*) and accompanying Preliminary Decision Memorandum (*Preliminary Decision Memorandum*).

FOR FURTHER INFORMATION CONTACT:

Michael A. Romani, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington DC 20230; telephone: (202) 482-0198.

Background

On November 19, 2014, the Department published the *Preliminary Results* of this review. The Department gave interested parties an opportunity to comment on the *Preliminary Results*.² We received no comments from interested parties.

We conducted this review in accordance with sections 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The merchandise covered by the order includes all small diameter graphite electrodes of any length, whether or not finished, of a kind used in furnaces, with a nominal or actual diameter of 400 millimeters (16 inches) or less, and whether or not attached to a graphite pin joining system or any other type of joining system or hardware. The merchandise covered by the order also includes graphite pin joining systems for small diameter graphite electrodes, of any length, whether or not finished, of a kind used in furnaces, and whether or not the graphite pin joining system is attached to, sold with, or sold separately from, the small diameter graphite electrode. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes are most commonly used in primary melting, ladle metallurgy, and specialty furnace applications in industries including foundries, smelters, and steel refining operations. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes that are subject to the order are currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 8545.11.0010,³ 3801.10,⁴

² *Id.* at 68857.

³ The scope described in the order refers to the HTSUS subheading 8545.11.0000. We note that, starting in 2010, imports of small diameter graphite electrodes are classified in the HTSUS under subheading 8545.11.0010 and imports of large diameter graphite electrodes are classified under subheading 8545.11.0020.

⁴ HTSUS subheading 3801.10 was added to the scope of the *SDGE Order* based on a determination in *Small Diameter Graphite Electrodes From the People's Republic of China: Affirmative Final Determination of Circumvention of the Antidumping Duty Order*, 77 FR 47596 (August 9, 2012) (first circumvention determination). The products covered by the first circumvention

and 8545.11.0020.⁵ The HTSUS numbers are provided for convenience and customs purposes, but the written description of the scope is dispositive.

Final Results of Review

The Department made no changes to its *Preliminary Results*. As a result, the Department determines that Henan Sanli is not entitled to a separate rate and should remain part of the PRC-wide entity.⁶ The rate previously established for the PRC-wide entity in this proceeding is 159.64 percent.⁷

Assessment

The Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review.⁸ Consistent with our determination that Henan Sanli is part of the PRC-wide entity, we will instruct CBP to apply an *ad valorem* assessment rate of 159.64 percent to all entries of subject merchandise during the POR which were exported by Henan Sanli.

The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of the final results of review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse,

determination are SDGE (or graphite pin joining system) that were 1) produced by UK Carbon and Graphite Co., Ltd. (UKCG) from PRC-manufactured artificial/synthetic graphite forms, of a size and shape (e.g., blanks, rods, cylinders, billets, blocks, etc.); 2) which required additional machining processes (i.e., tooling and shaping) that UKCG performed in the United Kingdom (UK), and 3) were re-exported to the United States as UK-origin merchandise.

⁵ HTSUS subheading 8545.11.0020 was added to the scope of the *SDGE Order* based on a determination in *Small Diameter Graphite Electrodes from the People's Republic of China: Affirmative Final Determination of Circumvention of the Antidumping Duty Order and Rescission of Later-Developed Merchandise Anticircumvention Inquiry*, 78 FR 56864 (September 16, 2013) (second circumvention determination). The products covered by the second circumvention determination are SDGE produced and/or exported by Jilin Carbon Import and Export Company with an actual or nominal diameter of 17 inches.

⁶ Pursuant to the Department's change in practice, the Department no longer considers the non-market economy entity as an exporter conditionally subject to administrative reviews. See *Preliminary Results* at note 3 and *Preliminary Decision Memorandum* at 4.

⁷ See *Final Determination of Sales at Less Than Fair Value and Affirmative Determination of Critical Circumstances: Small Diameter Graphite Electrodes from the People's Republic of China*, 74 FR 2049, 2053-54 (January 14, 2009).

⁸ See 19 CFR 351.212(b)(1).
