[Release No. 34-74489; File No. SR-MIAX-2015-13]

Self-Regulatory Organizations; Miami International Securities Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

March 12, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on February 27, 2015, Miami International Securities Exchange LLC (“MIAX” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Options Fee Schedule.

The text of the proposed rule change is available on the Exchange’s Web site at http://www.miaxoptions.com/filter/wotitle/rule_filing, at MIAX’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its current MIAX Market Maker³ sliding

scale for transaction fees to: (i) Modify the volume thresholds in tiers 1, 2, 3; (ii) increase the transaction fee for volume tier 1; and (iii) increase the Priority Customer rebate incentive for tier 1.

The sliding scale for MIAX Market Maker transaction fees is based on the substantially similar fees of the Chicago Board Options Exchange, Incorporated (“CBOE”).⁴ Specifically, the program reduces a MIAX Market Maker’s per contract transaction fee based on percentages of total national Market Maker volume of any options classes that trade on the exchange during the calendar month, based on the following scale:

Tier	Percentage of national Market Maker volume	Transaction fee per contract
1 ...	0.00%–0.05%	\$0.25
2 ...	Above 0.05%–0.50%	0.17
3 ...	Above 0.50%–0.80%	0.12
4 ...	Above 0.80%–1.50%	0.07
5 ...	Above 1.50%	0.05

The sliding scale would apply to all MIAX Market Makers for transactions in all products except mini-options. By amending the volume tier calculations, the sliding scale will more closely align with that of CBOE.⁵ A MIAX Market Maker’s initial \$0.25 per contract rate will be reduced if the MIAX Market Maker reaches the volume thresholds set forth in the sliding scale in a month. As a MIAX Market Maker’s monthly volume increases, its per contract transaction fee would decrease. The Market Maker sliding scale will continue to apply to MIAX Market Maker (RMM, LMM, DLMM, PLMM, DPLMM) transaction fees in all products except mini-options. MIAX Market Makers will continue to be assessed a \$0.02 per executed contract fee for transactions in mini-options.

The Exchange believes the proposed sliding scale is objective in that the fee reductions are based solely on reaching stated volume thresholds. The specific volume thresholds of the tiers were set based upon business determinations and an analysis of current volume

Maker including RMM, LMM, PLMM, DLMM, and DPLMM.

levels. The specific volume thresholds and rates were set in order to encourage MIAX Market Makers to reach for higher tiers. The Exchange believes that the proposed changes to the tiered fee schedule may incent firms to display their orders on the Exchange and increase the volume of contracts traded here.

As mentioned above, the Exchange notes that the proposed sliding fee scale for MIAX Market Makers structured on contract volume thresholds is based on the substantially similar fees of the CBOE.⁶ The Exchange also notes that a number of other exchanges have tiered fee schedules which offer different transaction fee rates depending on the monthly ADV of liquidity providing executions on their facilities.⁷

The Exchange also proposes to increase the rebate incentive for Priority Customer orders to correspond with the increase in the transaction fee for tier 1 of the MIAX Market Maker sliding scale. The Exchange offers MIAX Market Makers the opportunity to reduce transaction fees by \$0.02 per contract in standard options if the Member or its affiliates of at least 75% common ownership between the firms as reflected on each firm’s Form BD, Schedule A, qualifies in a given month for Priority Customer Rebate Program volume tiers 3, 4, or 5 in the Fee Schedule. The Exchange proposes to amend the rebate incentive for Priority Customer orders in order to increase the rebate incentive for tier 1 to correspond with the increase in transaction fees for volume tier 1 of the MIAX Market Maker sliding scale. As proposed, any Member or its affiliates of at least 75% common ownership between the firms as reflected on each firm’s Form BD, Schedule A, that qualifies for Priority Customer Rebate Program volume tiers 3, 4, or 5 and is a MIAX Market Maker will be assessed \$0.23 per contract for tier 1, \$0.15 per contract for tier 2, \$0.10 per contract for tier 3, \$0.05 per contract for tier 4, and \$0.03 per contract for tier 5 for transactions in standard options in lieu of the applicable transaction fees in the Market Maker sliding scale.

The Exchange believes that these incentives will encourage MIAX Market Makers to transact a greater number of orders on the Exchange.

⁶ See Securities Exchange Act Release Nos. 55193 (January 30, 2007), 72 FR 5476 (February 6, 2007) (SR-CBOE-2006-111); 58321 (August 6, 2008), 73 FR 46955 (SR-CBOE-2008-78); 71295 (January 14, 2014), 79 FR 3443 (January 21, 2014) (SR-CBOE-2013-129).

³ “MIAX Market Maker” for purposes of the proposed sliding scale means any MIAX Market

Finally, the Exchange proposes to modify the name of the title of the column in the chart from “Contracts Per Month” to “Percentage Thresholds of National Market Maker Volume”. The Exchange believes that the new title more clearly describes the type of threshold methodology that is being used for the fee.

The proposed changes will become operative on March 1, 2015.

2. Statutory Basis

The Exchange believes that its proposal to amend its fee schedule is consistent with Section 6(b) of the Act⁸ in general, and furthers the objectives of Section 6(b)(4) of the Act⁹ in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members.

The proposed volume based discount fee structure is not discriminatory in that all MIAX Market Makers are eligible to submit (or not submit) liquidity, and may do so at their discretion in the daily volumes they choose during the course of the billing period. All similarly situated MIAX Market Makers are subject to the same fee structure, and access to the Exchange is offered on terms that are not unfairly discriminatory. Volume based discounts have been widely adopted by options and equities markets, and are equitable because they are open to all MIAX Market Makers on an equal basis and provide discounts that are reasonably related to the value of an exchange's market quality associated with higher volumes. The proposed fee levels and volume thresholds are reasonably designed to be comparable to those of other options exchanges employing similar fee programs, and also to attract additional liquidity and order flow to the Exchange.

The Exchange's proposal to provide MIAX Market Makers the opportunity to reduce transaction fees by \$0.02 per contract in standard options, provided certain criteria are met, is reasonable because the Exchange desires to offer all such market participants an opportunity to lower their transaction fees. The Exchange's proposal to offer MIAX Market Makers the opportunity to reduce transaction fees by \$0.02 per contract in standard options, provided certain criteria are met, is equitable and not unfairly discriminatory because the Exchange offers all market participants, excluding Priority Customers, a means to reduce transaction fees by qualifying for volume tiers in the Priority Customer

Rebate Program. The Exchange believes that offering all such market participants the opportunity to lower transaction fees by incentivizing them to transact Priority Customer order flow in turn benefits all market participants.

Finally, the Exchange believes that the proposed to change to the name of the title of the column in the chart from “Contracts Per Month” to “Percentage Thresholds of National Market Maker Volume” is reasonable in that the new title more clearly describes the type of threshold methodology that is being used for the fee.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and to attract order flow. The Exchange believes that the proposed rule change reflects this competitive environment because it modifies the Exchange's fees in a manner that encourages market participants to provide liquidity and to send order flow to the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁰ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Rule Filing History

On November 14, 2014, FINRA filed with the Securities and Exchange Commission (“Commission”) SR-FINRA-2014-048,⁸ a proposed rule change to adopt in the consolidated FINRA rulebook (“Consolidated FINRA Rulebook”)⁹ Rule 2242 (Debt Research

⁷ For a comparison of the changes of the rule text between the proposal as originally noticed and the proposal as amended by Amendment No. 1, see Exhibit 4 to SR-FINRA-2014-048.

⁸ See Securities Exchange Act Release No. 73623 (November 18, 2014), 79 FR 69905 (November 24, 2014) (Notice of Filing File No. SR-FINRA-2014-048) (“Proposing Release”). The comment period closed on December 15, 2014.

⁹ The current FINRA rulebook includes, in addition to FINRA Rules, (1) NASD Rules and (2) rules incorporated from NYSE (“Incorporated NYSE Rules”) (together, the NASD Rules and Incorporated NYSE Rules are referred to as the “Transitional Rulebook”). While the NASD Rules generally apply

Analysts and Debt Research Reports) to address conflicts of interest relating to the publication and distribution of debt research reports.

The Commission published the proposed rule change for public comment in the **Federal Register** on November 24, 2014. The Commission received five comment letters directed to the filing.¹⁰ Based on comments received, FINRA is filing this Amendment No. 1 to respond to the comments and to propose amendments, where appropriate. The Amendment also includes a few technical, non-substantive changes.

Proposal

As described in greater detail in the Proposing Release, the proposed rule change would adopt a tiered approach that, in general, would provide retail debt research recipients with extensive protections similar to those provided to recipients of equity research under current and proposed FINRA rules, with modifications to reflect the different nature and trading of debt securities,¹¹ while exempting from many of the provisions debt research distributed solely to eligible institutional investors.

Definitions

Most of the defined terms closely follow the defined terms for equity research in NASD Rule 2711, as amended by the equity research filing, with minor changes to reflect their application to debt research. The proposed definitions are set forth below.

to all FINRA members, the Incorporated NYSE Rules apply only to those members of FINRA that are also members of the NYSE (“Dual Members”). For more information about the rulebook consolidation process, see *Information Notice*, March 12, 2008 (Rulebook Consolidation Process).
