

sugar; (2) exported as an ingredient in sugar containing products; or (3) used in production of certain polyhydric alcohols. The information requirements set forth in the regulation are necessary to enable FAS to administer the licensing program in full compliance with the regulation and to ensure that licensed imports do not enter the commercial sugar market in circumvention of the TRQ for raw cane sugar.

Need and Use of the Information: FAS will collect information to verify that the world-priced sugar is actually exported and not diverted onto the domestic market, thereby undermining the objectives of politically sensitive U.S. sugar policies. This collection enables USDA to monitor participants in an effort to ensure compliance with program parameters. Without the collection, there would be increased opportunity to divert sugar onto the domestic market.

Foreign Agricultural Service

Title: Certificate to Import Specialty Sugars under the Tariff-Rate Quota for Refined Sugar.

OMB Control Number: 0551-0025.

Summary of Collection: The collect of information is necessary to fulfill the legal obligations of the regulation at 15 CFR part 2011 subpart B to issue specialty sugar certificates, letters to importers signed by the Foreign Agricultural Service (FAS) Certifying Authority, and ensuring that U.S. importers comply with the program's requirements. The regulation sets forth the terms and conditions under which the Certifying Authority in FAS issues certificates to importers allowing them to enter specialty sugars under the tariff-rate quota (TRQ) for refined sugar.

Need and Use of the Information: The collected information will be used to: (1) Determine whether applicants for the program meet the regulation's eligibility criteria; (2) ensure that sugar to be imported is specialty sugar and meets the requirements of the regulation; (3) audit participants' compliance with the regulation; and (4) prevent entry of world-priced program sugar from entering the domestic commercial market instead of domestic specialty sugar market. The Certifying Authority needs the information to manage, plan, evaluate, and account for program activities. Less frequent collection or no collection would impede administration

of the specialty sugar certificate program and reduce or eliminate imports essential to U.S. organic food and beverages processors.

Description of Respondents: Business or other for-profit.

Notice of Proposed Fee Increase; Federal Lands Recreation Enhancement Act, (Title VIII, Pub. L. 108-447)

AGENCY: Ashley National Forest, USDA Forest Service.

ACTION: Notice of Proposed Fee Increase.

SUMMARY: The Ashley National Forest is proposing to increase the fee for Christmas tree permits from \$10.00 to \$15.00 per tag. This increase is proposed and will be determined upon further analysis and public comment. Funds from fees would be used for the continued operation of the Christmas tree program, including visitor services, maps, and law enforcement.

DATES: Comments will be accepted through May 30, 2015. Increased fees would begin November 2015.

ADDRESSES: Send comments to: Lesley Tullis, Environmental Coordinator, Ashley National Forest, 355 North Vernal Avenue, Vernal, Utah 84078 (email comments-intermtn-ashley@fs.fed.us; please put "Christmas trees" in the subject line).

FOR FURTHER INFORMATION CONTACT: Louis Haynes, Public Affairs Officer, at 435-789-1181. Information about proposed fee changes can also be found on the Ashley National Forest Web site: <http://www.fs.usda.gov/ashley>.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108-447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established.

Once public involvement is complete, the fee increases will be reviewed by a Recreation Resource Advisory Committee prior to a final decision and implementation.

Dated: February 24, 2015.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Mariner Opinions of the Right Whale Mandatory Ship Reporting System.

OMB Control Number: 0648-xxxx.

Form Number(s): None.

Type of Request: Regular (request for a new information collection).

Number of Respondents:

Average Hours per Response:

Burden Hours:

Needs and Uses: This request is for a new information collection.

The North Atlantic right whale (*Eubalaena glacialis*) is an endangered marine mammal found primarily in waters off the northeastern coast of the United States to Canada. Fatal collisions with large ships are the primary threat to the recovery of this species. In 1998 the United States proposed to the International Maritime Organization (IMO) the establishment of two Mandatory Ship Reporting (MSR) systems in key right whale habitat areas. Under the proposed MSR all vessels 300 gross tons or greater are required to send a message to a shore-based station when entering either of two prescribed habitat areas. The IMO endorsed the proposal and the MSR systems were established in July 1999. Each reporting ship is required to provide vessel name, call sign, course, speed, location, destination, and route (e.g., waypoints). An automatically-generated message is sent directly to the reporting vessel that includes information on right whale locations and procedural guidance to help prevent vessel/whale collisions; mariners are also informed about additional regulations established to protect whales from vessel strikes. The two-way exchange is mediated by satellite-linked communications systems.

Although the program has been in effect for over 15 years, the U.S. Government has not assessed the role, if any, that the MSR has in reducing ship collisions with right whales. In addition, mariners have not been polled to assess possible difficulties involved in the reporting itself. The goal of this information collection is to determine if (a) the reporting procedures are adequately clear to the mariner; (b) the reporting itself is onerous or unwieldy (e.g., it may interfere with other vessel operations); and (c) mariners use the information being sent to them and if so, how it is used to avoid collisions with North Atlantic right whales.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sarah Brabson,

NOAA PRA Clearance Officer.
