

On May 1, 2015, the committee will discuss key issues related to a potential pre- to postmarket shift in clinical data requirements for modifications to cochlear implants in pediatric patients. These issues are categorized into three broad areas for discussion:

1. Cochlear implant changes (e.g. sound processing features, patient characteristics) that may be suitable for this pre- to postmarket shift in clinical data requirements.

2. Appropriate premarket clinical data requirements to support pre- to postmarket shift (e.g. leveraging clinical data from adults and/or older children.)

3. Clinical study design considerations (e.g. study endpoints and test metrics, subject characteristics) for postmarket studies to confirm safety and effectiveness and inform future labeling.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its Web site prior to the meeting, the background material will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on FDA's Web site after the meeting. Background material is available at <http://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee meeting link.

This notice is issued under the Federal Advisory Committee Act (5 U.S.C. app. 2) and 21 CFR part 14, relating to the advisory committees.

Dated: March 24, 2015.
