DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Privacy Act of 1974; System of Records Notice

AGENCY: Office of the Secretary (OS), Department of Health and Human Services (HHS).

ACTION: Notice to establish a new system of records and delete an existing system of records.

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, as amended (5 U.S.C. 552a), HHS is establishing a new department-wide system of records, "Records about Restricted Dataset Requesters," System Number 09-90-1401, to cover records about individuals within and outside HHS who request restricted datasets and software products from HHS (e.g., for health-related scientific research and study purposes), when HHS maintains the requester records in a system from which they are retrieved directly by an individual requester's name or other personal identifier. The System of Records Notice (SORN) previously published at 78 FR 32654 for "Online Application Ordering for Products from the Healthcare Cost and Utilization Project (HCUP)," System Number 09-35-0003, is being deleted and replaced by this new department-wide SORN.

DATES: Effective Dates: The department-wide SORN proposed in this Notice is effective upon publication, with the exception of the routine uses. The routine uses will be effective 30 days after publication of this Notice, unless comments are received that warrant revisions to this Notice. Written comments on the routine uses should be submitted within 30 days. The deletion of System Number 09-35-0003 will be effective 30 days after publication of this Notice.

ADDRESSES: The public should address written comments to: Beth Kramer, HHS Privacy Act Officer, Mary E. Switzer

Building—Room 2210, 330 C Street SW., Washington, DC 20201, beth.kramer@hhs.gov. Comments will be available for public viewing at the same location. To review comments in person, please contact Beth Kramer at beth.kramer@hhs.gov or (202) 690-6941.

FOR FURTHER INFORMATION CONTACT: Beth Kramer, HHS Privacy Act Officer, Mary E. Switzer Building—Room 2210, 330 C Street SW., Washington, DC 20201, beth.kramer@hhs.gov.

SUPPLEMENTARY INFORMATION: The new system of records will cover records about individuals within and outside HHS who request restricted datasets and software products from HHS, when HHS maintains the requester records in a system from which they are retrieved directly by an individual requester's name or other personal identifier. "Restricted" datasets and software products are those that HHS makes affirmatively available to qualified members of the public but provides subject to restrictions, because they contain identifiable data and/or anonymized data that has the potential, when combined with other data, to identify the particular individuals, such as patients or providers, whose information is represented in the data. The datasets and products are made available through an on-line or paper-based ordering and delivery system that provides them to qualified requesters electronically or by mail.

The restrictions are necessary to protect the privacy of individuals whose information is represented in the datasets or software products. The restrictions typically limit the data requester to using the data for research, analysis, study, and aggregate statistical reporting; prohibit any attempt to identify any individual or establishment represented in the data; and require specific security measures to safeguard the data from unauthorized access. HHS is required by law to impose, monitor, and enforce the restrictions (see, for example, provisions in the Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA), 44 U.S.C. 3501 at note). To impose and enforce the restrictions, it is necessary to collect information about the data requesters.

Currently, this system of records covers data requester records in ordering and delivery systems administered by three HHS Operating Divisions, but only to the extent that the records pertain to requesters seeking *restricted* datasets. These ordering and delivery systems retrieve requester records directly by personal identifier:
