

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Addiction Technology Transfer Centers (ATTC) Network National Workforce Surveys—NEW

The ATTC Network, a nationwide, multidisciplinary resource that draws upon the knowledge, experience and latest research of recognized experts in the field of addictions and behavioral health, is a unique Center Substance Abuse Treatment (CSAT) initiative formed in 1993 in response to a shortage of well-trained addiction and behavioral health professionals in the public sector. The ATTC Network works to enhance the knowledge, skills and aptitudes of the addiction/behavioral health treatment and recovery services workforce by disseminating current health services research from the National Institute on Drug Abuse, National Institute on Alcohol Abuse and Alcoholism, National Institute of Mental Health, Agency for Healthcare Research and Quality, National Institute of Justice, and other sources, as well as other SAMHSA programs. To accomplish this, the ATTC Network: (1) Develops and updates state-of-the-art research based curricula and professional development training, (2) coordinates and facilitates meetings between Single State Authorities, Provider Associations and other key stakeholders, and (3) provides ongoing technical assistance to individuals and organizations at the local, regional and national levels.

In response to the emerging shortages of qualified addiction treatment and recovery services professionals, SAMHSA/CSAT instructed the ATTC National Office to lead the ATTC Network in the development and implementation of a national addiction treatment workforce data collection effort of those individuals who work in substance use specialty treatment services. The purpose of this survey and data collection is to gather information

to guide the formation of effective national, regional, state, and organizational policies and strategies aimed at successfully recruiting and retaining a sufficient number of adequately prepared providers who are able to respond to the growing needs of those affected by substance use and mental health disorders; including co-occurring disorders and trauma. This data collection will offer a unique perspective on the clinical treatment field so that CSAT and the ATTC Network can better understand current successful strategies and methodologies being used in the workforce and develop appropriate training for emerging trends in the field.

Although SAMHSA/CSAT is the primary target audience for data collection findings, it is expected that the data collected and resulting reports will also be useful to the ATTC Network, as well as to Single State Agencies, provider organizations, professional organizations, training and education entities, and individuals in the workforce.

Overview of Data Collection and Purposes

Data will be collected from two main sources: (1) Interviews with Single State Authorities (SSAs) in all fifty states (2) A national sample of agency directors or their designees, identified by CSAT in conjunction with the ATTC network, in the substance use disorders treatment field. Respondents will be asked to participate in telephone interviews. In addition to this original data collection, existing national data sets will also be utilized. Such data systems will include:

- Census 2000 datasets
- National Survey of Substance Abuse Treatment Services (N-SSATS)
- SAMHSA Treatment Gap Projection Analysis
- Treatment Episode Data
- Bureau of Labor datasets such as Current Employment Statistics
- Annapolis Coalition Data

Provider Association Survey: The provider association survey will be a single question web survey asking association directors to nominate providers that they believe are exemplary in recruitment, retention or staff development. The purpose of this survey is to triangulate responses from three sources, the SSA, the ATTC and the provider association to identify providers that are considered by all three to be exceptional in their ability to recruit, retain or provide staff development for SUD direct service employees.

State Substance Abuse Authorities Interview: Each state substance abuse authority or their designee will be interviewed to identify concerns regarding work force development, state level strategies to improve recruitment, retention and development of the addiction treatment workforce, changes that have occurred within the past five years and any treatment organization level practices that they think have been particularly successful. They will be asked to identify provider organizations that have exemplary practices to interview.

Program Director/Key Staff Interview: Based on identification by state SSA, state provider association nomination and ATTC/CSAT staff identification, a minimum of 60 addiction treatment provider organizations will be selected for telephone interviews. These organizations may be specialty addiction treatment programs, community mental health centers that provide addiction treatment services or primary care organizations that provide addiction treatment services. The purpose of these interviews is to identify exemplary practices in recruitment, retention and staff development for direct service staff working with patients with SUDs. An interview script has been developed to guide the question formation for the interviews.

Overview of Questions Related to Data Collection

The objectives of the national addiction treatment workforce data collection effort are to explore issues related to workforce development: (1) Staff training, recruitment and retention; (2) Professional development; and (3) Support for strategies and methodologies to prepare, recruit, retain, and sustain the workforce. To accomplish these objectives, CSAT outlined two primary questions to be addressed by the workforce data collection:

1. What are the anticipated workforce development needs for 2017–2022?

For the purposes of this data collection, the ATTC Network will identify the growth and capacity-building needs over the next five years of direct care staff, clinical supervisors, and administrators in agencies represented in the I-SATS registry.

2. What are the common strategies and methodologies to prepare, retain, and maintain the workforce?

Identification of potentially effective strategies used to prepare and recruit individuals to enter the workforce (as

previously defined), and encourage them to remain in the workforce and stay current on clinical and other job related skills (e.g., evidence based practices).

Information collected from this workforce data collection will help CSAT and the ATTC Network to better understand the needs of the workforce and categorize some best practices for

providing support to the field now and in the future. Emerging trends in addiction and/or co-occurring and trauma treatment and the existence of mental health problems in substance use disorder treatment and recovery services will be identified and shared with those in the addiction/behavioral health treatment field so appropriate training and funding can be allocated.

The information from this data collection will also help CSAT identify areas where deficiencies in substance use and/or co-occurring disorder and trauma treatment exist and provide assistance to regions (and states) to help them develop and adopt strategies for addressing this.

The chart below summarizes the annualized burden for this project.

Type of respondent	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours
SSA Telephone Interview	60	1	60	1	60
Provider Organization Key Staff Telephone Interviews	60	1	60	1	60
Provider Association Survey	50	1	50	.25	12.5
TOTAL	170	170	132.5

Written comments and recommendations concerning the proposed information collection should be sent by May 11, 2015 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: *OIRA_Submission@omb.eop.gov*. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202-395-7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

Summer King,
Statistician.

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2014-0997]

Imposition of Conditions of Entry for Certain Vessels Arriving to the United States From Libya

AGENCY: Coast Guard, DHS.

ACTION: Notice.

SUMMARY: The Coast Guard announces that it will impose conditions of entry on vessels arriving from all ports in Libya. Conditions of entry are intended to protect the United States from vessels arriving from countries that have been found to have deficient port anti-terrorism measures in place.

DATES: The policy announced in this notice will become effective April 24, 2015.

FOR FURTHER INFORMATION CONTACT: For information about this document call or email Michael Brown, International Port Security Evaluation Division, United States Coast Guard, telephone 202-372-1081. For information about viewing or

submitting material to the docket, call Cheryl Collins, Program Manager, Docket Operations, telephone 202-366-9826, toll free 1-800-647-5527.

SUPPLEMENTARY INFORMATION:

Discussion

The authority for this notice is 5 U.S.C. 552(a), 46 U.S.C. 70110, and DHS Delegation No. 0170.1(II)(97)(f). As delegated, section 70110 authorizes the Coast Guard to impose conditions of entry on vessels arriving in U.S. waters from ports that the Coast Guard has not found to maintain effective anti-terrorism measures.

The Coast Guard does not find ports in Libya maintaining effective anti-terrorism measures and finds that Libya's legal regime, designated authority oversight, access control and cargo control are all deficient. Our determination applies to all ports in Libya.

Accordingly, beginning April 24, 2015, the conditions of entry shown in the following Table will apply to any vessel that visited any Libyan port in its last five port calls.

TABLE—CONDITIONS OF ENTRY—VESSEL VISITING LIBYAN PORT EIN LAST FIVE PORT CALLS

No.	Each vessel must:
1	Implement measures per the vessel's security plan equivalent to Security Level 2 while in a port in Libya. As defined in the International Maritime Organization's International Ship and Port Facility Security (ISPS) Code and incorporated herein, "Security Level 2" refers to the "level for which appropriate additional protective security measures shall be maintained for a period of time as a result of heightened risk of a security incident."
2	Ensure that each access point to the vessel is guarded and that the guards have total visibility of the exterior (both landside and waterside) of the vessel while the vessel is in ports in Libya.
3	Guards may be provided by the vessel's crew; however, additional crewmembers should be placed on the vessel if necessary to ensure that limits on maximum hours of work are not exceeded and/or minimum hours of rest are met, or provided by outside security forces approved by the vessel's master and Company Security Officer. As defined in the ISPS Code and incorporated herein, "Company Security Officer" refers to the "person designated by the Company for ensuring that a ship security assessment is carried out; that a ship security plan is developed, submitted for approval, and thereafter implemented and maintained and for liaison with port facility security officers and the ship security officer."
4	Attempt to execute a Declaration of Security while in a port in Libya.
5	Log all security actions in the vessel's security records.
