Information Collection Request Title: The Hospital Preparedness Program

OMB No.: 0990-0391.

Abstract: The Science Healthcare Preparedness Evaluation and Research (SHARPER), part of the Department of Health and Human Services (HHS), Assistant Secretary for Preparedness and Response (ASPR), Office of Emergency Management (OEM), Division of National Healthcare Preparedness Programs (NHPP), in conjunction with the Hospital Preparedness Program (HPP) is seeking a reinstatement with change on a currently approved clearance by the Office of Management of Budget (OMB) for a Generic Data Collection Form to

serve as the cornerstone of its effort to assess awardee program under the HPP Cooperative Agreement (CA) Program. Program data are gathered from awardees as part of their Ad-hoc and End-of-Year Progress Reports and other similar information collections (ICs) which have the same general purpose, account for awardee spending and program on all activities conducted in pursuit of achieving the HPP Grant goals.

This data collection effort is crucial to HPP's decision-making process regarding the continued existence, design and funding levels of this program. Results from these data analyses enable HPP to monitor healthcare emergency preparedness and progress towards national preparedness goals. HPP supports priorities outlined by the National Preparedness Goal (the Goal) established by the Department of Homeland Security (DHS) in 2005. The Goal guides entities at all levels of government in the development and maintenance of capabilities to prevent, protect against, respond to and recover from major events. Additionally, the Goal will assist entities at all levels of government in the development and maintenance of the capabilities to identify, prioritize and protect critical infrastructure.

Likely Respondents: Hospital Preparedness Program Awardees.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Data collection activity	Number of respondents	Number of responses	Response time (hours)	Total annual burden hours (for all awardees)	3-Year total (for all awardees)
Generic and Future Program Data Information Collection(s)	62	1	58	3,596
Total	3,596	10,788

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on

proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the

quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Primary and Behavioral Health Care Integration Program (OMB No. 0930-0340)—Revision

The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services, (CMHS) is requesting a revision from the Office of Management and Budget (OMB) for data collection activities associated with their Primary and Behavioral Health Care Integration

(PBHCI) Program. Specifically, SAMHSA is requesting approval to only collect information on grantee quarterly reports.

The purpose of the PBHCI grant program is to improve the overall wellness and physical health status of people with serious mental illnesses (SMI), including individuals with co-occurring substance use disorders, by supporting communities to coordinate and integrate primary care services into publicly-funded community mental health and other community-based behavioral health settings. The program's goal is to improve the physical health status of adults with serious mental illnesses (and those with co-occurring substance use disorders) who have or are at risk for co-occurring primary care conditions and chronic diseases. The program's objective is to

support the triple aim of improving the health of those with SMI; enhancing the client's experience of care (including quality, access, and reliability); and reducing/controlling the per capita cost of care.

New questions added to the quarterly report will include information on the selected evidence based practices (EBPs) for nutrition and tobacco cessation (including the number of participants and their outcomes), identifying the selected blood pressure treatment protocol (one of four recommended by the Centers for Disease Control and Prevention), and updating the chart on the identified sub-population(s) on physical health indicators in the disparities impact statement section of the quarterly report.

This information collection is needed to provide SAMHSA with sufficient

information to monitor grantee performance and to assess whether integrated primary care services produce improvements in the physical health of the SMI population receiving services from community-based behavioral health agencies.

Collection of the information included in this request is authorized by Section 505 of the Public Health Service Act (42 U.S.C. 290aa-4)—Data Collection. Authorization for the PBHCI program is provided under Section 5604 of H.R. 3590, the Affordable Care Act (ACA), which authorizes SAMHSA to provide awards for the co-location of primary and specialty care in community-based mental health settings.

The table below reflects the annualized hourly burden.

Instrument	Number of respondents	Responses per respondent	Total responses	Hours per response per respondent	Total hour burden
Grantee Quarterly Report	172	4	688	2	1376
