NOTICE OF FINAL ACTION AND SUPPLEMENTARY INFORMATION: On December 19, 2014, EPA Region 9

issued its final permit decision to APS authorizing the construction and operation of add-on pollution controls at the FCPP—PSD Permit No. NN 14–01 and Tribal Minor NSR Permit T–002–NN. The permit authorizes APS to construct and operate SCR systems, including ancillary equipment, on two existing coal-fired electric steam generating units at FCPP.

During the public comment period and public hearings, EPA received written and oral comments regarding its proposed permit action to approve the FCPP SCR project. EPA carefully reviewed the public hearing testimony and each of the written comments submitted and, after consideration of the expressed views of all commenters, the pertinent Federal statutes and regulations, and additional material relevant to the application and contained in our Administrative Record, EPA made a decision, in accordance with 40 CFR 52.21, to issue a final PSD permit and, in accordance with 40 CFR 49.151–161, to issue a final Tribal Minor NSR permit to APS.

Within 30 days after the service of notice announcing the final permit decision, any person who filed comments on the proposed permit for the FCPP SCR project or participated in any of the public hearings for the FCPP SCR project had the opportunity pursuant to 40 CFR part 124 to petition EPA's Environmental Appeals Board (EAB) to review any condition of the final permit. Any person who did not file comments or participate in the public hearings could petition for administrative review only to the extent that changes were made from the proposed to the final permit decision. No petitions for review were filed with the EAB. As such, the final permit became effective 30 days after the service of notice of the final permit decision.
