

CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Please refer to the instructions on the Commission's Web site under <http://www.ferc.gov/docs-filing/efiling.asp> and filing instructions in the Commission's Regulations at 18 CFR 385.2001(a)(1)(iii). Please include the project number (4362-007) on any documents or motions filed. The

Commission strongly encourages electronic filings; otherwise, you should submit an original and seven copies of any submittal to the following address: The Secretary, Federal Energy Regulatory Commission, Mail Code: DHAC, PJ-12, 888 First Street NE., Washington, DC 20426.

j. *Description of Project Facilities*: (1) A reinforced concrete dam approximately 14 feet high and 425 feet long; (2) a 9-foot-diameter penstock, approximately 110 feet long; (3) a powerhouse containing one generating Unit with a capacity of 1,240 kW; (4) a reservoir with a surface area of 9 acres at a normal pool elevation of 512 feet, and a gross storage capacity of 22 acre-feet; and (5) appurtenant facilities.

k. *Description of Proceeding*: The licensee is in violation of Article 16 of its license, which was granted September 29, 1982 (20 FERC ¶ 62,586). Article 16 states in part: If the Licensee shall abandon or discontinue good faith operation of the project or refuse or neglect to comply with the terms of the license and the lawful orders of the Commission, the Commission will deem it to be the intent of the Licensee to surrender the license.

Commission records show that the project has not been operational since January 2001 and the licensee (Inman Mills) has failed to retain sufficient rights to operate the project. Inman Mills transferred the property rights to another party without securing an effective transfer approval from the Commission, which is a continuing violation of standard article 5 of the license. The current project license expired on August 31, 2012, and the project remains authorized under an annual license. Inman Mills failed to file a notice of intent to seek a subsequent license, which the Commission deemed as notice that Inman Mills does not intend to file an application for subsequent license. Then on August 31, 2010, Lockhart Power Company, Inc., filed a license application for the project; however, the application was withdrawn on October 1, 2014. On November 26, 2014, staff sent the licensee a letter pursuant to the Commission's regulations at 18 CFR 16.26(b), requiring the licensee to file a schedule for the filing of a surrender application for the project license for Commission approval within 90 days from the date of the letter. The letter required that any application must be filed in accordance with 18 CFR 16.8 and Part 6 of the Commission's regulations. The letter stated that if no response is filed, the Commission will take action to terminate license by implied surrender. On February 3, 2015,

the licensee filed a response but failed to file a surrender application in accordance with 18 CFR 16.8 and Part 6 of the Commission's regulations.

l. This notice is available for review and reproduction at the Commission in the Public Reference Room, Room 2A, 888 First Street NE., Washington, DC 20426. n. *Comments and Protests*—Anyone may submit comments or protests in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211 and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any protests must be received on or before the specified deadline date for the particular proceeding.

All comments or protests must set forth their evidentiary basis. All comments, protests, or motions to intervene should relate to project works which are the subject of the termination of license. A copy of any protest or motion to intervene must be served upon each representative of the licensee specified in item "g" above. A copy of all other filings in reference to this notice must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.
