BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Proposed Agency Information Collection

AGENCY: U.S. Department of Energy.
ACTION: Notice and request for OMB review and comment.

SUMMARY: The Department of Energy (DOE) has submitted to the Office of Management and Budget (OMB) for clearance, a proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995. The proposed collection will require annual reports from power companies that voluntarily join the Department's new *Partnership for Energy Sector Climate Resilience*. The goal of this partnership is for the Department and power company participants to work cooperatively to enhance the energy security of the nation's electricity infrastructure. The annual reports required of partners will include summaries of activities undertaken during the proceeding year including, for example, vulnerability assessments, resilience strategies, information on costs and benefits of actions taken, and best practices. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the department; (b) the accuracy of the Department's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information being collected; and (d) ways to minimize the

burden of the proposed collection on the respondents, including through the use of automated collection techniques.

DATES: Comments regarding this collection must be received on or before May 15, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202-395-4718.

ADDRESSES: Written comments should be sent to the DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503.

And to Dr. Craig Zamuda, U.S. Department of Energy, EPSA-20, 1000 Independence Avenue SW., Washington, DC 20585, or by fax 202 586-5345, or by email at craig.zamuda@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Dr. Craig Zamuda, U.S. Department of Energy, EPSA-20, 1000 Independence Avenue SW., Washington, DC 20585, or by fax 202 586-5345, or by email at craig.zamuda@hq.doe.gov.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) *OMB No.:* “New”; (2) *Information Collection Request Title:* Partnership for Energy Sector Climate Resilience; (3) *Type of Request:* New collection; (4) *Purpose:* To enhance the resilience of the nation's power sector to extreme weather and climate change, the Department of Energy is establishing a partnership program with power sector companies. On an annual basis, participating companies are asked to report on activities they have undertaken to improve their resilience to extreme weather and climate change. This information will help facilitate improved resilience throughout the sector and better inform the Department's activities in support of these efforts. (5) *Annual Estimated Number of Respondents:* 25; (6) *Annual Estimated Number of Total Responses:* 50 (first year, 25 thereafter). (7) *Annual Estimated Number of Burden Hours:* 212 hours; (8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$8,959 total program-wide annual costs.

Statutory Authority: Title XIII of the Energy Independence and Security Act of 2007 calls for a variety of activities to support the modernization of the Nation's electricity transmission and distribution system to maintain a reliable and secure electricity infrastructure. In addition, Executive

Orders, 13514 (Federal Leadership in Environmental, Energy and Economic Performance) and 13653 (Preparing the United States for the Impacts of Climate Change) also set forth a number of activities that would be supported by the information collected under this request.

Issued in Washington, DC, on April 8, 2015.

Judith M. Greenwald,

Deputy Director, Office of Climate, Environment and Efficiency, Office of Energy Policy and Systems Analysis, U.S. Department of Energy.

Kern River Gas Transmission Company; Notice of Application

Take notice that on March 26, 2015, Kern River Gas Transmission Company (Kern River), 2755 E. Cottonwood Parkway, Suite 300, Salt Lake City, Utah 84121, filed an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations, requesting authorization to replace 1.56-miles of its 36-inch diameter A-line in Clark County, Nevada with thicker walled pipe to comply with a U.S. Department of Transportation class location change, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document.

Any questions regarding this application should be directed to Michael T. Loeffler, Senior Director, Certificates, phone: (402) 398-7103, facsimile: (402) 398-7592, or by email at: mike.loeffler@nngco.com located at Kern River Gas Transmission Company, P.O. Box 3330, Omaha, Nebraska 68103-0330.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is

issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings

associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and five copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE., Washington, DC 20426.

There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). Cascade Water Alliance: Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 4, 2015, the Cascade Water Alliance filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the White River-Lake Tapps Reservoir Ancillary Hydroelectric Project (White River Project or project) to be located on the White River, in Pierce County, Washington. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or
