Total Annual Burden: 5,445 hours.

Needs and Uses: The requirements contained in 47 CFR 80.59 of the Commission's rules are necessary to implement the provisions of Section 362(b) of the Communications Act of 1934, as amended, which require the Commission to inspect the radio installation of large cargo ships and certain passenger ships at least once a year to ensure that the radio installation is in compliance with the requirements of the Communications Act.

Further, section 80.59(d) states that the Commission may, upon a finding that the public interest would be served, grant a waiver of the annual inspection required by section 362(b) of the Communications Act of 1934, for a period of not more than 90 days for the sole purpose of enabling the United States vessel to complete its voyage and proceed to a port in the United States where an inspection can be held. An information application must be submitted by the ship's owner, operator or authorized agent. The application must be submitted to the Commission's District Director or Resident Agent in charge of the FCC office nearest the port of arrival at least three days before the ship's arrival. The application must provide specific information that is in rule section 80.59.

Additionally, the Communications Act requires the inspection of small passenger ships at least once every five years.

The Safety Convention (to which the United States is a signatory) also requires an annual inspection.

The Commission allows FCC-licensed technicians to conduct these inspections. FCC-licensed technicians certify that the ship has passed an inspection and issue a safety certificate. These safety certificates, FCC Forms 806, 824, 827 and 829 indicate that the vessel complies with the Communications Act of 1934, as amended and the Safety Convention. These technicians are required to provide a summary of the results of the inspection in the ship's log that the inspection was satisfactory.

Inspection certificates issued in accordance with the Safety Convention must be posted in a prominent and accessible place on the ship (third party disclosure requirement).

Number of Respondents: 3 respondents; 6 responses.

Estimated Time per Response: 2–50 hours.

Frequency of Response: On occasion; reporting requirements and third party disclosure.

Obligation to Respond: Required to retain or obtain benefits. Statutory authority for this information collection is in 47 U.S.C. 151, 152, 154, 161, 201–205, 208, 251, 260 and 271–276.

Needs and Uses: The Commission has eliminated certain reporting requirements because the Bell Operating Companies (BOCs) are no longer required to file semi-annual reports with the Commission addressing Comparably Efficient Interconnection (CEI) and Open Network Architecture (ONA) services. BOCs are required to post their CEI plans and amendments on their publicly accessible Internet sites. The requirement extends to all CEI plans for intraLATA information services, telemessaging, or alarm monitoring services, and for new or amended payphone services. If the BOC receives a good faith request for a plan from someone who does not have Internet access, the BOC must notify that person where a paper copy of the plan is available for public inspection. The CEI plans will be used to ensure that BOCs comply with Commission policies and regulations safeguarding against potential anticompetitive behavior by the BOCs in the provision of information services.
